

Report on 5 days DP Workshop

Mullet TC, 28 November – 2 December 2012

Hello beloved brothers and sisters

It is with great joy that we can report you on the 5 day DP workshop that was held in our National Training Centre in Mullet – Tirana from 28.11 - 02.12.2012

The workshop begun with a lively atmosphere since it was coinciding with the 100 anniversary of Albania's Declaration of Independence. Many young people decided to dedicate these important festive days to studying the truth, through their sincere devotion for the success of this workshop.

Among participants, 22 were first-time attendees with 18 of them following until the last day when they were presented to the Second Coming of Messiah, our True Parents.

The first lectures were given by the members of the national special teams like Erjona Agolli, Alonso Ahmetaj and Greta Voci, continued by elder brothers and sisters like Ejona Icka, Gani Rroshi, Sokol Rexhepi, Dorina Ndrejaj, Robert Stefanc and Manjola Vasmatics.

The workshop reached the peak of its vitality with the preparations and the performances of the family evening through which the participants came closer with each other.

On the fourth day of the workshop they had the chance to receive the Second Coming lecture and later on close the day with a special prayer ceremony, which is also the most important part of our life of faith. The workshop coordinator Mrs. Manjola Vasmatics gave a very beautiful presentation on prayer. On the last day of the DP ws the young participants received information on True Parents life through two sessions.

Below you have some of the reflections of the first time participants on the workshop.

Labinot Pacolli, Kosovo

Peace itself has many meanings, but I am lucky that thanks to FFWPU I was able to grasp many dimensions of the meaning of peace. The lectures on creation and the growth stages motivated me to think on the purpose of existence and about my responsibilities as a human being. That's why for me to fulfil my wishes I have to try and do it through good ways so they can last longer... All the lectures had a specific purpose and a message or a task for us because it is us who decide on the good or evil direction of our future.

Kristina Ahmetli, Korça

It is truly difficult to express through words what I'm feeling now... it's a strange feeling mixed with joy and sadness. But I thank God and all of you for the chance you gave me to be part of this. Thank you for the hospitality and warmth you ranted me. Honestly I'm feeling lucky that I am here thinking of myself as one of the chosen ones. The time here, although short it has impacted me a great deal. This Training Center was like my second home and leaving it today makes me sad. I pray to God that I can come back since this is what He wants.

Ermira Sela, Durrës

The days I was in the workshop were amazing. Everything has an offer which inspires you to gladly follow and practice it. The friends we met here are our brothers and sisters. As for the lecture time, I think it is a bit too much but thanks to the lecturers I could learn many precious, amazing and worthy things. In this workshop I discovered a different reality; a reality where love, respect, harmony and good will dominates,... and ... many other names that need much more time and space to put down. Everything is surprising and beautiful and makes you feel truly wonderful. If here we learned how to feel the God of love I think already we are on this way... Thank you everyone. This is the most important thing that happened to me.

Sidorela Toska, Elbasan

I came to this workshop for the first time and I feel everything in my heart related to the outside world changed. Although before lecture time I felt exhausted, the end result was wonderful since I learned things that probably I will never forget and practice every day... The knowledge received was extraordinary and I hope I can go deeper by learning and understanding more. I came to know many new friends and love and

harmony was floating in the air between us and through each other. The reality outside of here is way different but we we'll try to understand and help the others.

Xhensila Mirashi, Korçë

Life is precious and man as a being of God is precious too. I have always been aware of that and humble in front of God, but inside me many questions were raising time to time, that I can only answer through this workshop. Man was predestined to be God's image and if he can became one with Him, became his temple he can became perfect. Before it seemed impossible and unrealistic to imagine God and His perfectness; frankly speaking I didn't know what the real purpose of my life was, but today I'm leaving this training centre with an open heart and clear mind that God is alive and within myself.

Ilir Rexhitaj, Vlorë

Through this 5 DWS I could receive sufficient information on Divine Principle. I want to emphasise the great investment of the lecturers that presented them perfectly. Upon these truths that will be a model for my life I can build my future. Although we were receiving about eight hours of lectures daily we couldn't feel time was passing. The staff arrangements were perfect and breaks after each lecture made the day very short.
