

Andorra's 7 Day Workshop with cooperation from France

Brittany, France, 27. July – 2. August 2014

With the help of our spiritual parents, the first missionaries to Andorra, Peter & Danielle Burt, we could have a 7day Workshop in French language for our French speaking guest from Andorra who is interested in the Blessing.

It was a great workshop because we could be in the beautiful nature in a Ploudaniel, at the West coast of France near.

We also met Danielle's spiritual daughter, Pilar and her husband, Manfred Hauptmann from Austria.

We are very grateful and thankful to France for helping us to hold this 7 Day workshop especially to Peter & Danielle for warmly welcoming us and helping to give the lectures in their home.

Peter used PowerPoints and translated live from English to French from the Exposition of the Divine Principle Diagramed Manual for 12-Hour Lectures written by Mrs. Gil Ja Sa Eu. It was really hard work for Peter but he was doing great because he could give all the lectures using these diagrams and when necessary he explained more just like the way True Father wanted us to give the lecture.

Workshop at Peter and Danielle's home

We could go out to the sea one afternoon and enjoyed picking the cockles in the sand and to our surprises; in a short time we could gather a lot of cockles for our delicious dinner cooked by Manfred who also caught 2 big Carp Fishes and cooked for us.

During our 7 Day Workshop, there was also French 2nd Gen Workshop in the Camping ground at the beach nearby so we could visited them twice; it was good to see the young children having good time at the workshop.

Surely Heavenly Parents guided all of us to be there at the same time so everyone could help this 7 day workshop to be successful either through educating, cooking, speaking and taking care of the guest. Since we have only one guest we could focus and guide according to her needs so our guest was very happy with this workshop especially the lecture about True Parents' life and having receiving lots of love and care from Peter, Danielle, Manfred and Pilar which she will never forget. She wants to continue to prepare for the Blessing. For me to receive 7 day WS again was inspiring and reviving.

Brittany is really a very good place to hold a workshop with beautiful natures and wonderful brothers and sisters. Thanks to Heavenly Parents and all who made it possible.
