Dear Brothers and Sisters,

As we start the year 2014, we sincerely pray that Heavenly Parent and True Parents' boundless blessing will flow to all brothers and sisters and lead us to great results and glory through the year. The year has already begun for our advancement and victory centered on True Parents of Heaven, Earth and Humankind. Let us march forward and fulfill our mission and responsibilities, uniting with Continental Director Archbishop Ki Hoon Kim, FFWPU-USA President Dr. Michael Balcomb, and all leaders and brothers and sisters in the Elder Son Nation of America.

## **1. True Mother's First Hoon Dok Hae for 2014**

The first Hoon Dok Hae of the New Year according to the solar calendar was held on January 1, 2014. True Mother stated the motto for 2014: "Let us become true owners of Cheon Il Guk who practice true love in resemblance to our Creator, the Heavenly Parent!" and asked that we uphold this motto up until 2020. True Mother spoke about the motto as follows:

"I now announce the motto that we must uphold until 2020. 'Let us become true owners of Cheon Il Guk who practice true love in resemblance to our Creator, the Heavenly Parent!' We shouldn't forget Heavenly Parent in our daily life. During our earthly life, we should preserve the Earth well which Heavenly Parent, the Creator made. What we need to focus on is witnessing. We need to preserve well this beautiful world of creation in which our Heavenly Parent invested utmost effort, by expanding the reach of our foundation.

Those who have no sense of ownership for all things will fade away. We need to have true ownership! As we restore this nation and the world, let us not forget this for even a day, an hour or even a minute until 2020. Let us think and think again, receiving heaven's wisdom, and then go forward changing the nation and the world mobilizing all the methods, all our ability and everything that we are capable of as humans. Without having changed them, there will be no future for us. We have to change them. We need to become true filial sons and daughters and patriots who can offer results every month that will give our Heavenly Parent, the Creator, cause to trust us and be happy.

In this year 2014, we must solve problems one by one. As you see in the motto, 'Let us become true owners of Cheon Il Guk who practice true love in resemblance to our Creator, the Heavenly Parent!' we are not talking about 'we may become,' but we are talking about 'Let us become.' Instead of hoping to accomplish someday, we must be victorious immediately, and we must do it right away. The first anniversary of the Foundation Day is just around the corner, so you all should make a strong determination to begin your action.

We must repay heaven with our results. The methods that we have been using so far must change. We need productivity. That is the only way for us to survive. Please tap into your ability and creativity. You must discover ways to accomplish, instead of expecting someone to do it for you. Do you understand? I ask you to be reborn and become people of Cheon Il Guk.

Don't become the people who just come and go; become the people who practice ownership and a sense of responsibility. These are words of blessing promising a new start for the New Year."

Let us study True Mother's words well, inscribe them in your hearts, and practice them. Let us dedicate our heartfelt Jeong Seong to prepare for the first anniversary of the Foundation Day.

## **2. What is the significance of the year 2014?**

2014 is the second year of Cheon Il Guk and also the second year of the 3-year course, which is the first part of the 7-year

course until 2020. Because number two signifies horizontal expansion, 2014 should be the time of our horizontal expansion and substantial foundation. We also celebrate the 60th anniversary of the founding of the FFWPU(HSA) this year. In our East Asian philosophy, 60 years constitute one cycle, and after 60 years you return to the original point where you make a brand new start. Consequently, 2014 is the year when the blessing of the Foundation Day exhibits itself, and God's authority manifests through the substantial beginning of Cheon Il Guk.

The time has come for the spirit world to fully cooperate with the physical world, now that their preparation has been completed. 2014 may also bring unfamiliar occurrences that suggest the arrival of the new age. Because the original world begins to form visibly, many problems and issues that could not exist in the original world get exposed and catch your eyes. Now, let us think of the attitude that we should take.

### **3. Our attitude**

#### **a. Absolute unity with True Parents of Heaven, Earth and Humankind**

True Parents of Heaven, Earth and Humankind are the beginning of everything, the source of victory, and the origin of love, life, and lineage. We need to act in accordance with God's ideal. Especially in this age, we can clearly understand God's power and authority if we think, decide, and act centered on God. As we act and practice, it is important to think of our Heavenly Parent every minute, every day, every month, and every year.

#### **b. For us to become the true owner of Cheon Il Guk**

True Mother mentioned that "we should have a sense of ownership like God..." True Parents of Heaven, Earth and Humankind have exemplified true ownership in the course of providence. Their path has demonstrated the way of true owners who offer everything for the liberation of God and humankind. All heavenly secrets can be found in the course that they have gone through.

For us to walk the path of true owners, we need to read True Parents' words in Hoon Dok Hae and find heavenly wisdom. When you have a sense of ownership, you take responsibility for all. You take responsibility for both good results and bad results. Owners don't depend on others, but instead they are self-reliant, voluntary, and autonomous.

#### **c. Practice true love**

True Mother said, "What is the way to practice true love? It is witnessing. Also, arranging and securing the environment." Thanks to the victory of True Parents of Heaven, Earth and Humankind, people are already prepared for our witnessing. Importantly, we must not insist on old ways, but we should come up with new innovative ways. Let us examine and study our methods of witnessing so we can bring results and fulfill our responsibility as individuals as well as groups.

### **4. Conclusion**

The Elder Son Nation America has the responsibility to support Korea and Japan in unity with our Heavenly Parent and True Parents. Also, America's mission is to assist younger brothers and sisters of the world and teach them about heavenly traditions. We firmly believe that our Heavenly Parent and True Parents expect America to do these things. Once again, as we begin this year 2014, let us reflect on ourselves and deepen our vertical relationship with True Parents of Heaven, Earth and Humankind.

For us to strengthen our vertical relations with our Heavenly Parent and True Parents and create total unity, what is required is Jeong Seong. In this period of less than 40 days before the first anniversary of the Foundation Day, let us offer our Jeong Seong to our Heavenly Parent and True Parents in preparation for the anniversary, uniting with Continental Director Archbishop Ki Hoon Kim and FFWPU-USA President Dr. Michael Balcomb.

Let us begin our Jeong Seong conditions for January. We sincerely hope that many brothers and sisters can participate in

this effort.

God bless you and your family!

H. Inose  
President
