

YSP Sierra Leone organized a one-day character education workshop for 280

Sylvester Moriba

June 5, 2019

As part of its national program for the education of youths and students, Youth and Students for Peace (YSP) successfully organized a one-day workshop on character education for 280 middle high school students of the Saint Ambrose Academy on July 5, 2019.

The impressions and reflections from teachers and students were very positive. The principal was so impressed and touched by the workshop. He expressed his sincere thanks and appreciation to YSP while pointing out that the workshop was timely. He lamented that his administration has been encountering serious problems relating to indiscipline among students. He assured YSP of his cooperation and support for subsequent trainings on character education for his students.
