In Brazzaville, on July 1st 2018, Rev Norbert Ndielle, National Leader of Congo held the special conference to talk about Heavenly Tribal Messiah activities for the blessed families in one of the districts of Brazzaville.

We had 14 participants including the head of the district with his wife and all of his staff came to attend the education program.

In the end, they were very happy to learn about the new truth. And, they will organize all the families of the district to receive the blessing of marriage from our True Parents.
