

## UPF& WFWPU - Peace Ambassadors Meeting

### “What is an Ambassador of Peace”

Lisbon, Portugal, 2. August 2012

Sergio Neto

---

Since, sometimes some Ambassadors of Peace keep asking us, what they could do in practical way on the ground, this time we organized an event where we could say exactly what is an Ambassador for Peace and which kind of activities we do and they can do National and Internationally. Our purpose was to captivate the attention of them to their potential as persons/leaders, to give them reasons to use this potential as P.A. in their own field of action/profession. As we needed to show them what they really could do besides our theoretical content, we invite to give testimony 3 of our more active P.A., and give them ideas about activities they already collaborated or even initiated and ask the support of UPF/WFWP. Most of the PA that showed up were already a little bit outlying, but were very interested and expectable to know what different content we would present.

We could make 3 new PA and in the end, with all of them we made a Brainstorming inter-motivational, i.e., a free discussion of ideas and initiatives each one could eventually contribute to help as a PA to expand the UPF&WFWP in Portugal. It was very nice that we could have very good feedback, like we were expecting, as they could give several nice and reachable ideas of projects and initiatives to implement. We could also speak, more clearly for the first time, a little bit about our intend to create a National Peace Council with PA, trying to have more social intervention and become step by step more known by our public initiatives, and 6 of PA gave already their names to become part of it. We will develop better this objective till next encounter in September.

God Bless our True Parent's & True Family works, through all member's efforts and determination towards Foundation Day 2013.
