Synopsis: In the book of Genesis, the “First Blessing” God gave to humans was to “be fruitful,” which can mean attaining full maturity. In this seminar, we will explore what it means to attain spiritual maturity, and how we can attain it. Central to this growth is developing our own two-way communication with God, and understanding our own spiritual senses and gifts. The seminar will also explain how spirits live and interact with us, and provide techniques for developing your own spiritual abilities.

Seminar Facilitator: This workshop will be conducted and facilitated by author, historian, Reiki Master, and professional medium Ron Pappalardo. Ron has a Bachelor’s degree in history, did graduate studies in religious education at the Unification Theological Seminary, and is a graduate of the Morris Pratt Institute’s “Educational Course on Modern Spiritualism.” His book, *Reconciled by the Light: the After-Death Letters from a Teen Suicide*, is required reading for all ministers prior to their certification by the National Spiritualist Association of Churches.

Ron Pappalardo is the author of *Reconciled by the Light: the After-Death Letters of a Teen Suicide* and three other books.

When Ron and his wife Connie lost their 17-year-old son to suicide, they embarked upon a journey that included direct communication with their son and other children in the spirit world. During this workshop Ron will tell his story about how he developed his own spiritual gifts as a Psychic Medium and empath.
