May 24, 2019

Nepal, The Hindu country where lord Buddha was born; hosted the HJ Cheonbo 2019 Asia tour which took place at the Heavenly Tribal Messiah Model city in the eastern part of Nepal – Itahari on May 24, 2019.

We had around 580 participants including the city mayor, religious leaders, Ambassadors for Peace, Heavenly Tribal messiah Members, and Blessed Central Family. People from different walks of life participated at the event to enhance their spiritual life and receive spiritual healing.

This event was also a follow up work to take care of associate members especially those who are witnessed and blessed through Heavenly Tribal Messiahs.

HJ Cheonbo Special event was organized by the Heavenly Tribal messiah victors who made a deep foundation in the area that was supported by the civil society leaders.

During the event and through the lectures, participants could have a better understanding of how the evil spirits affect the physical body.

One of Participants said: "I was convinced that spiritual and physical healing is no just only done by clapping or any medical method but also the act of kindness can heal our spiritual and physical body, good mind setting and good wisdom could liberate our soul from difficulties from day-today living. I'm thankful to the organizer of this event and also to Father Moon who made this event happen to liberate our ancestor from the bottom of hell and live spiritual and physical life healthy.
