

National 5 Days Divine Principle Workshop

22 – 26 march 2017, Mullet, Tiranë - Shqipëri

As always, Divine Principle Workshops are a way to regenerate the spirit, not only for members who already received the content, but also for the ones who receive it for the first time. This thing was very obvious in the 5 days workshop entitled “AS A GLOBAL PEACE CITIZEN” held on National Training Center in Mullet from 22nd to 26th of March.

Dear brothers and sisters, below we are reporting how the workshop went.

This workshop was coordinated by Majlinda Matraku (New Tirana Center leader), and in collaboration with workshops’ MCs Arnold Grami, Anila Muçaj and Marsida Sina, they took care that the workshop was for the sake of all the participants.

The first part was focused on giving Divine Principle lectures and being sure that the participants could get a understanding of them. The lectures were given by Arjan Haziraj, Lubin Argjir, Majlinda Matraku as experienced lecturers and by two members who give lectures for the first time in a workshop like this Arnold Grami and Marsida Sina.

Every morning we shared inspirational messages, starting with the visit of FFWPU European leader Rev. Jack Corley and the secretary of European office Mr. Peter Staudinger. After, a very special message was conveyed by

the special youth envoy of True Parents, Anila Muçaj. And, in the last day, Mikaela Lalla shared from her heart the fruits she received from the moment she joined the movement until today.

The second part of the workshop was knowing Second Coming, life and acts, which was conveyed by love through Manjola Vasmatic. This part continued by giving True Parents teachings through Rev. Shin and Albanian FFWPU president Mr. Gani Rroshi. This structure of lectures helped a big deal the participants for understanding better the given word in the workshop.

We also had sessions like "Vision for youth" where everyone could get to know HDH tradition settled by True Parents by reading from the chapter entitled alike on True Fathers' autobiography. "Your talent" was another session where the participants were divided into 4 talents groups: music, dance, painting and public speaking. In this part we could see their inner character to be expressed in art. After, we had the meditation and reflection session ("A letter to God" and "How do we think the Heavenly Kingdom to be if the Human Fall did not happen") where everyone experienced a personal relationship with their inner self and with our Heavenly Parent.

In this workshop we also had members who were for the first time in the position of a team leader, something that brought harmony in all the created families. Dedication game made through teams helped joining all together as a big family under love.

In general, the workshop had a very pure and good atmosphere coming from all the youth. The participants felt comfortable with the program and they fit naturally with it, they were inspired, happy, curious about the lectures, not sleepy. They had good relationships with team members and others, respected the rules, did all their cleaning chores, did not sleep late on the night and were not noisy. It was very natural sharing tradition with them, and the youth spirit that True Mother emphasizes so much lately, was so obvious.

The sports festival and Camping Night filled all Training Center with joy and liberated all the negative energy that we could have had.

It was a very special workshop to all of us and we are sharing some of their reflections with you.

New Tirana

"I really feel like seeing God talking, especially in some specific moments during lectures. I am not sure, but this workshop filled me and all my concepts in my head are gone. Another key point was the reflecting. I really felt so close to God. I knew that I needed this workshop and I do not know why I received more answers than the previous times."

"From now I confirm that on 26/3/2017 the workshop is not just a simple notification, then I am just going. But it was the truth that I needed."

Vlora

"I had so much shivering experiences from the meditation sessions that I never thought that I could have. God's love is always in us, we just do not know how to feel it. As never before, I experienced so much from this love. God is love!!! God is great!!!"

Kosovo

"This workshop was as a fresh air in the summer, or like the sun in winter's sky. I cannot describe how happy I am now."

Fier

"As much workshops that I receive, as more I understand that I cannot separate this place from my soul. As more as I understand Divine Principle that much I understand that lectures are not just stories. Are a way of reflecting where we can receive great teachings."

"This place is a paradise, where there is no evil, a place where only goodness can win! I can see clearly now, I have new idea for my life! Also I am very happy because I got to know some great people that give me love, happiness etc."

"Here is the place where I learned to be happy. Here I felt God's presence so close and I was happy with Him. Being with these people made me believe that there is love, because a pure love cannot be shrieked, but stays there, everywhere within our hearts. Thank you for believing, the truthfulness of the words transmitted."

Tirana

"The workshop was one of the most beautiful experiences of my life, not only because I had fun, but because it felt like home. From the start I could see the love, that kind of love that only a pure heart that believes on God's goodness and heart can."

"I appreciate what they do to tell us about True Parents, and I was so moved when I heard how much God and True Parents suffered. I will not forget that. I am so grateful to FFWPU and I will help on evils distinction and for us to become God's children."

"I want now to become like God wants, but there is another force that opposes this will, but we have 5% of our responsibility to make this opposing force to disappear."
