

WFWP Finland: Public Speaking Practice and Leadership of the Heart curriculum

Päivi Yoshizumi

May 11, 2024

The first presentation was by Dorota Mutikainen. She was inspired by Dr. Jenni Haukio, the wife of the former president of Finland, Sauli Niinistö, who was on TV talking about how civilization is communication.

With a civilization of heart, we could listen to and understand others through the heart with a desire for good dialogue, mutual understanding and co-operation. Ms. Mutikainen expressed how a civilization of heart is like a gift to others as well as bringing peace between people.

The second speech was presented by Päivi Yoshizumi on the topic of Women's Peace Leadership, presenting WFWP USA's Leadership of the Heart curriculum.

There was a nice discussion especially on what civilization of heart could contain.
