To My Beloved True Mother, the True Parents of Heaven, Earth and all Mankind.

I am lacking in many ways, yet I hope my testimony will in some way give joy to Our True Mother, also that it can bring hope and encouragement to our worldwide Holy community.

Growing up in the USA I became heavily involved with drug use in the 1970s, while in my teenage years. Following a massive drug overdose at the age of 16, I became spiritually open and suffered some major physical and spiritual illnesses, which brought me to the brink of despair. Then

while Searching for the Truth In 1982, while I was a university student I Met CARP on my campus, heard the Divine Principle and could travel New York for a 7 day workshop the New Yorker , and on Sunday travel to Belvedere to Hear True Father speak at Sunday service, and Meet True Parents. The Moment True Father caught my gaze, I looked into True Father's eyes and saw the intense light radiating like the Sun, that moment Truly changed my life. I Joined CARP and became a full time member, yet Being spiritually open was a burden and I could not find relief from what I knew was unprincipled spiritual influences in my life . I know it was my good ancestors, those that Served heaven and those who Were public servants, who were helping me stay Faithful to True Parents, even while struggling with being Spiritually open.

In 1996 word came that there was a great liberation being started by Dae Mo Nim and Heung Jin Nim in Korea. Immediately I Bought Tickets for my Wife and I and our 2 young Boys to attend a 10 day workshop. From the Moment I stepped into the Training Center, my heart felt such peace and relief. My heart had found its True Home. "The home of the heart of Mankind" I was drawn to Sit with many Korean elders during the Chan Yang sessions, and poured every ounce of my energy into the Chang Yang sessions, When I could truly invest myself , my heart and energy into the Chang Yang, I experienced profound spiritual cleansing, and spiritual fire and liberation. These 10 days spent in the Training center with True Parents' love and care changed the path of my blessed family in the most profound and unimaginable ways.

As We were preparing to return home I prayed at the Tree of Love, and promised Heavenly Parents that I would come here often no matter the cost. True Parents' love and grace allowed me. Since 1996 I have been blessed to have attended 2-40 days workshops in 1998, and again in 2005 with both of my sons, and have completed 4 -21 day workshops, and made many 10-day trips to the Training Center, fulfilling the promise I made to heaven years before.

I'd like to offer 2 life changing experiences that are the anchor of my life and loyalty to True Parents , and to Heavenly Parents

Following the blessing of Ancestors from our 1-7 generations, In the fall of 1999 , and after they had attended 40 day workshop for Blessed couples With Heung jin Nim. I offered a 10 day condition of Jeong Seong at the training center. On the last day of my stay, as I was packing my bags, Heaven spoke to me at

the Tree of Love, telling me that I needed to extend my stay, and so I changed my flight accordingly. Several days later Beloved Dae Mo Nim called Everyone including the staff to the "big Tent" Dae Mo Nim shared the incredible news that True Parents would be "sending back with Us, to help and support us in our missions-those Ancestors and Blessed couples whom we liberated, I returned to the USA

After returning home and to the small family business my wife and I ran, I was driving early on morning before dawn in my small car on a 2-lane highway, I fell fast asleep at the wheel and I was struck by a powerful force, just like is portrayed in the movie "Ghost" The steering wheel suddenly jerked to the right, by a force of energy that was not my own, and as I opened my eyes I realized I had been only 1, maybe 2 seconds away from a head on collision with a large truck. I pulled over and prayed for a long while, in shock at what had just happened. It was then when I felt-and heard the voice from my newly blessed Ancestors. "If you had not liberated Us, We would NOT have been able to help you, This was to have been your time to die, You have been given the grace of more time on This earth to fulfill your mission . This was within a few months of my 40th birthday. I know it was truly my newly Blessed ancestors , by the Grace of True Parents who allowed me to cross over my 40th year and make a new beginning . From this day forward I attended once, or twice a year every year to join the Azalea, Winter, Summer or and Autumn great works festivals. I received much indescribable grace and many revelations each time I prayed in the Cheon shim Won, at the Tree of Love and Tree Of Blessing. Also Our family floral Business was Blessed and grew 10 fold based on the clear directions and guidance I Received from Heaven while in prayer at the Cheon shim Won, while offering devotions.

I only have eternal gratitude to True Mother, for Bringing the sacred holy grace of the Cheon Shim Won to the Cheon Wha Gung in Las Vegas. Now true parents have been given the historic grace of liberating the Central Evil Spirits. I'm deeply grateful to Rev Jin Hwa Chung , and Dr Ki Hoon Kim for their internal guidance into the heart and essence True Mothers heart and love and True Parents deep desire to liberate all Mankind on earth and in the Spiritual world from the bondage of Their pain and Han This past weekend during the Hyo jeong Cheon Bo ceremony at IPEC , during the liberation of Central Evil spirits , I was struggling to "break through -when Dr Jin Hwa Chung Came to our row and did An so On my head ,then I sensed a great weight of dark spirits being released from my mind, and as I looked up I saw beams of white light and felt these Spirits being guided to go into the light by my ancestors . I cried and sent them off, repenting for the pain inflicted upon them by my Ancestors.

Immediately after this Session, I felt a powerful force of intense warm light of love fill my heart, and Chest . My lungs started to open more , as being pushed open by the intense light and love Heavenly Mother was pouring into my body. My heart felt free again. It Was the love of heavenly Mother healing my heart and releasing my lineage from the bondage of Sin and darkness. I have never felt more alive and free in my heart, to once again love Heavenly Parents and True Parents, and offer all my Jeung Sung and devotion to support True Mother at this time

I hope this testimony can help those who do not fully understand the precious grace That True Parents have given to all of Heavenly Parents' children through the Works of the Liberation ceremony for Central Evil spirits .

I am forever your loyal son ,
