

At the Hyo Jeong Cheonwon, the spirit world and physical world are uniting

True Parents/True Mother is truly amazing! What is going on here in Hyo Jeong Cheonwon (Chung Pyung Heaven and Earth Training Center - Restored and Perfected Garden of Eden) is unprecedented. Wow! The spirit world and physical world are uniting and are so obvious in our eyes. True Mother is the substantial God!

For example, she is changing, building, rearranging everything to make the environment beautiful and comfortable for their children/all humanity; while making the creation happy at the same time. She is putting elevators on tall buildings; making more sleeping rooms so we don't have to sleep on the sleeping bags, changing the wish paper (before we burn it). Now, it is water soluble. She said burning is not good for health. Also, it is like being in the Spirit World when things just go back to nature. I remember reading what True Father said that in the Spirit World we can have parties...after, the leftover food will just go back to nature...

Next year, there will be a river in front of the Prayer Room. Therefore, after writing our wish paper in the Prayer Room, we can go out and melt it in the river. It takes less than a minute. Sun Jin Nim and In Sup Nim showed it last Azalea Festival. Incredible idea of True Parents!

A building where our names will be recorded. It will also show that we liberate and bless our ancestors, so that our descendants will see who paved the way for them...by cleaning up the past. True Mother is asking us to quickly liberate and bless our ancestors...

Let us not waste our time analyzing True Mother. We will be left behind. Our children will accuse us in the future.
