“The historical achievements made for the fulfillment of the Providence are now all recorded in the ‘True Parents’ Historical Archives,’ which we dedicate on this day. We must now cherish this precious jewel of history together with the True Parents’ Life History Museum,” said Dr. Han.

“The True Parents’ Historical Archive is built in the best facility available in order to protect the priceless data of heaven’s providence. All of the videos of True Parents’ victorious course until the opening of the gates of Cheon Il Guk, speeches and providential events in Unification history are organized by subject, and are easy to access through our archiving system. We have now opened up a new era, in which the lifetime achievements and providential records of Rev. Moon, who opened the substantial gates of Cheon Il Guk, will be protected and immortalized in this historical archive,” said President Ryu. “We must now

put forth our best efforts to protect these valuable records, so that we may pass them on to our descendants. The Historical Archive will become one more shining providential landmark that opens up the new era of Cheon Il Guk.”

“Rev. Moon left behind countless speeches throughout his lifetime, as he led the providence of restoration from the front line. He was an example that all of humankind should follow,” said Council President Young-Whi Kim. “The future path that not only we as a church, but all of mankind, should follow is outlined in the tradition, words and the lives of Rev. and Dr. Moon. In that respect, the opening of the Historical Archive on this day is an event of deep significance. The Historical Archive is definitely a wonderful tool that can be used to introduce Rev. and Dr. Moon to humanity, and I feel that the publication of our history is a great achievement.”

The evangelical records, which have been categorized and archived in the Historical Archive, will be accessible for exhibitions, publishing and perusal.
