### True Father said:

***“The family is the starting point where God’s ideal can be manifested, as well as the happiness of humanity. It is the place where all individuals can have their efforts brought to fruition, and where all of God’s work is fulfilled. Why is the family good? It is because the family is the base for all free activities based on parental love.”***

**“Let’s move from “me” to “we”**
