It was really amazing and very moving to see Dr. Strada and Dr. Yacoobi, what they accomplished. It made me think a lot about what one person can accomplish; we can have such a huge impact. I began reflecting on my life. I'm still young, so I really want to pray and figure out what is my calling, what I can do to make a greater impact on the world and to have confidence. It was really inspiring for me, and I thought that if every person could think about the world like the Sunhak laureates do, we could really move something.
