

FFWPU Bolivia: 40 days of witnessing led to 3-day Divine Principle workshops

Hilda Claros de Jitto
March 31, 2024

After 40-day witnessing activities in different cities we held 3 day Divine Principle workshops aiming to revive our families, young people, and inactive members, hoping they can be able know and understand our True Mother understand her word and feel her heart. These workshops were held on March 29~31, 2024, in the cities of La Paz, Cochabamba, Santa Cruz, Sucre and Tarija:

Santa Cruz 41 guests
La Paz, 12 guests
Cochabamba, 7 guests
Sucre, 7 guests
Tarija, 5 guests

Blessed families and members in every city, with their effort and dedication, supported these seminars. Blessed families were able to bring their guests, and our young members also invited their friends to listen to God's words spoken to all humanity.

Beside studying God and True Parents words, participants watched movies, joined our sports games and having dynamic afternoons.

In the city of Santa Cruz, all the blessed families, parents with their children participated at the workshop. They were able to understand suffering heart of God, the loneliness that God had to go through after the fall and throughout the restoration history, because of the human failure. God wished to bring back humanity even though this is human responsibility to come back.

Participants were able to understand God and His heart better as they were listening to all the lecture explaining how God was working so hard behind human history, to bring about the restoration and salvation of humanity.

We felt and believed that this seminar was the effort of our Heavenly Parents and True Parents to revive our hearts. The participants were very grateful for having learned the new truth given by True Parents through the Divine Principle lectures. They were determined to continue the study of the Divine Principle and practice it in their life.
