*Sannomiya station in Kobe, Japan*

Hello,

I hope you are strong at this difficult time.

My husband [Kazushi Miyoshi] wrote a testimony how he met Rumikosan. And I translated it in English even it is not perfect. We really hope it is only an occasion for you to know her a little bit more. And of course, my husband and I want to know her more.

We regret and repent that we did not communicate enough. So I believe she will recover and we will have more give and takes. God bless Remikosan and you and the family.

I met Rumiko for the first time in the underground mall at Sannomiya station in Kobe, Japan in 1970 around February.

I was in charge of general affairs in Kobe church center at that time. Usually I had much work to do inside the center and hardly had time to go out for witnessing. But one day I was guided and strongly felt I should go witnessing and took a city bus and when I realized I was standing at the Sannomiya station.

Soon while I saw a smart-looking girl student with twinkling eyes and approached her.

That was Rumiko who was 20 years old. She was going to Christian college and had a lot of questions about Bible and God. She did believe in God. So I asked her, "Don't you want to know why there are so much miseries in the world even though God exists and all mankind are seeking for happiness?"

That was exactly what she was looking for. So she came the center and studied Divine Principle every day for a week and accepted it with her pure heart. She was really a God prepared person.

After she joined the Kobe Center, she restored several spiritual children. In 1971, she joined a flower-selling fundraising team and in 1974 came to US. She had a privilege to serve True Children in East Garden.

Rumiko is my proud spiritual daughter who deeply loves God and True Parents.
