

We hope to embrace 2021 together and shed the love in our hearts for this world

Cosmas Obi Okuk

January 4, 2021

Peaceful Families Organization (PEAFASSO) at the Adagom 1 and 3 refugee settlement in Nigeria

Whether I lived under the eaves of some house or in a shanty, my thought was, "I have to attend God here and offer greater devotion." My belief was, "According to the Principle of Restoration, the leader who can offer sincere devotion for the world should be able to do it even in the tiniest house." This was my way of thinking. Then I would say, "Now that I have offered sincere devotion in this tiny house, I should be able to offer it in a bigger house befitting a world leader.""

Rev. Sun Myung Moon

The peaceful families organization founded by the blessed couple of Obi Cosmas Okuk and Obi Eugenie Brigitte has ended the year 2020 with the offering of world peace home to our heavenly parents and our true parents. In the book of mark 7:21-23, our lord Jesus Christ explained the order of evil beginning with evil thoughts then adultery and fornication then murder and so on.

We understood this clearly and embarked in the fight against evil thoughts through an extensive educational investment where we realized about 55 daily workshops. We fought against adultery and fornication by giving the true parents blessing to 44 couples. We continued fighting against murder by raising a culture of peace within couples and families which has led us to the construction of a world peace home for our heavenly parents and true parents.

We also made a foundation in agriculture through our copos initiative, the preparation grounds for the extension of fish farming. There is equally ground works for the growing of vegetables and some food crops.

We are curiously doing everything to sow indelible foundations we have inherited from our True Parents to make the world a beautiful place for all.

We know we haven't done much, but we feel motivated to continue what we have sown in the heart of our heavenly parents and our true parents. We hope in expanding to higher horizons.

We of the peaceful families organization express our deep gratitude and love to our Heavenly Parents, our True Parents and all of you who share with us, pray for us and encourage us. We hope to embrace 2021 together and shed the love in our hearts for this world.
