

True Mother's message on her visit to the PDR Room of Hyojeong Cafe

Gi Seong Lee
August 12, 2020

On August 11-12, True Mother visited the PDR Room on the first floor of Hyojeong Cafe accompanied by Mrs. Wonju Jeong McDevitt, the Chief of True Mother's Secretariat, Foundation for the Global Support of FFWPU Chairman Jong-gwan Kim, FFWPU for a Heavenly Korea President Gi-seong Lee, and HJ Heaven and Earth CheonBo Training Center Vice President Myong-kwan Lee.

True Mother delivered a special message during her visit on August 12:

"God, the Creator, created all things in the universe out of His love for humans and the earth. God's dream was to live together in relationship with humankind in the kingdom of Heaven on earth, so He gave humans a period of growth to reach maturity. In the process of growing toward maturity, humans became focused on themselves and grew greedy, thinking 'I can be like God...'

That is what caused the Fall. Therefore, human history has been destined to be a history of war because humankind has fallen into a position unrelated to God. The Creator cannot go against the principle of creation to correct the history of humankind. He has no choice but to wait for humanity to mature. So He started to work for the providence of salvation through indemnity to enlighten humanity and rescue them from their ignorance.

Through the 6,000-years of biblical history, Heavenly Parent gave humanity the task of obeying the will of the Creator God during their life on earth. Through Our Creator's principles human beings were created as men and women, and plants and animals were created with male and female counterparts. Nature moves according to the design of the Creator. How can monarch butterflies, which are only three centimeters long, travel from Canada to northern Mexico to spend the winter despite their very short lifespan? How can they follow a route they have never visited before without getting lost? When it comes to human beings, we have been living lives that are far worse than the lives of these butterflies that are only three centimeters long. Human history has been a history of war, and humankind is still at war now."

Later, Vice President Myong-kwan Lee related to True Mother several testimonies from the participants of the Rally of Hope for the Realization of a Heavenly Unified World on August 9. After that, True Mother headed out to visit the construction site of the Hanwonjib. Pyeongchang Hanok College Professor Chang-sun Kwon gave True Mother a general report on the status of the construction, and she offered warm messages of encouragement to the heads of the organizations.
