64th Anniversary of the Cosmic Holy Wedding of the True Parents of Heaven, Earth and Humankind

Cheongshim Peace World Center

Nice to meet you as we mark the 64th anniversary of the Holy Wedding, imagine if the Christian world of the 1960s had fully embraced The desires and dreams of Jesus Christ, How different the providence of the True Parents would have been. Why did Jesus have to die on the cross? The Creator made all things in the universe according to His image, Creating the mineral, plant, and animal worlds in pairs, and finally, He created man and woman to be the ancestors of humanity, Giving humans a period of growth. He waited for them to grow and reach maturity on their own. However, those who should have become human ancestors Did not grow in the absolute unity with God and fell, Resulting in their expulsion from Eden. The Creator is consistent from beginning to end. Having started, He must tie up all loose ends. He cannot alter the principles He established.

Therefore, Heaven could not abandon fallen humanity and initiated the providence of salvation.

This is known through the Bible, Where God chose the people of Israel, and through a long 4,000 years from individuals to families, tribes, peoples, and nations, every era had central figures, and if they failed or could not fulfill their responsibilities, inevitably there had to be indemnity, All leading up to sending His only begotten son, Jesus Christ, after 4,000 years of incredible effort. Why then did he have to go to the cross after only 33 years? Here we must understand. Jesus was born of Mary, said to be by the Holy Spirit.

However, Mary, Zechariah's family, and Judaism, of course, did not know the essence of Jesus. The people of Israel, who endured such hardships, waited for the Messiah, but did not know what the Messiah was supposed to do. In the end, there was no one around Jesus to cooperate with him. He appointed twelve disciples, but they also did not know the providence. In the end, Jesus had no choice but to go to the cross, crying out, "Father, if it is possible, let this cup pass from me; yet not as I will, but as you will."

The people of Israel, who sent the central figure whom Heaven had awaited and who could have been the True Father to resurrect and recreate fallen humanity, to the cross, do you know what indemnity they had to pay? Jesus said he would come again, and that next time there would be the feast of the lamb, But Christianity started with the resurrection of the Holy Spirit through the apostles.

However, they did not know the essence of Jesus. They just waited for his second coming, thinking he might come at any time. Christianity began with this stance and spread across the world through Europe, gaining official recognition in Rome. However, they failed to practice 100% the command to love your neighbor as yourself.

The continent that suffered the most under Christianity was Africa. How could missionaries carrying the Bible enslave Africans just because they looked different? This should never have happened. Moreover,

in the realm of Christianity, the communist idea that "God is dead, there is no God" emerged. Today, the world is still caught in a clash between democracy and communism. Looking at today's reality, where the world is drifting into an increasingly divided state, Heaven has allowed many religions to save fallen humanity. Depending on the region, He permitted religions that could lead the people, mostly led by men. But looking at the principle of creation, a man alone cannot give birth to life. The same goes for religion. Now all religions have come to an endpoint. Where should they go from here? They must seek the True Parents, who serve Heaven.

As President Song said earlier in his opening speech, if in the 1960s Christian foundations had welcomed the feast of the lamb, the world would already have become a peaceful world of one human family under the Heavenly Parent. But that did not happen, and the True Parents' history had to go through a wilderness course of 53 years. However, the responsibility of the True Parents, to fulfill the Creator Heavenly Parent's dream on earth, when looked at in terms of the True Parents' responsibility, Heaven told me to declare Foundation Day. I have to show it, not just declare it.

To revisit the matter, the only begotten Son was born at the time of Jesus' intended marriage and the completion of the providence, but there was no only begotten Daughter.

Heaven absolutely needed to choose a new chosen people and give birth to an only begotten Daughter. This had to occur within the Christian realm in 1943, and many spiritual pastors and people needed to testify to this.

I was born under Japanese rule, and was liberated in 1945. At that time, the Presbyterian Church in the US was actively involved in Pyongyang, which led to the emergence of many memorable pastors. However, after World War II ended, the Korean Peninsula was divided into North and South by the Allied Forces because of the Soviet Union. Five years later, the Korean War broke out. Here, you need to understand that the Creator, when considering the principle of creation, gave humans a period of growth.

Thus, for the only begotten Daughter born after 6000 years, Heaven had to protect her until she could grow, make decisions, and commit on her own. But at that time, with the peninsula divided into North

and South, with democracy and communism and the North preparing for an invasion of the South, where many independence movement leaders were present, it took some time to establish order. The North, centered around Kim Il Sung, was seamlessly preparing for an invasion. A six-year-old child cannot take on the providence of Heaven.

Therefore, I was moved south, and during the Korean War, when the South was not fully prepared to oppose the North and could have turned communist, Heaven mobilized 16 countries through the UN to intervene in the Korean War and preserve democracy in the South.

The soldiers from these 16 countries who participated were all under the age of 20. They were the purest and most virtuous people in a fallen world. They shed their blood on this land so that the only begotten Daughter, who must fulfill Heaven's dream, could live and fulfill the Heavenly Parent's dream.

From my birth, I communicated with Heaven and knew the urgency of Heaven's situation, which could no longer wait. I waited and declared the Foundation Day of Cheon Il Guk, but declaration alone is not enough. It must be shown. The dream of the Creator, our Heavenly Parent, is for the True Parents to live on earth with many children in a heavenly life and, when the True Parents' life on earth ends, to be together forever in the heavenly world.

As we celebrate the 64th anniversary of the Holy Wedding in this 12th year of Cheon Il Guk, I am working to create an environment on this earth to realize the dream of the Heavenly Parent, starting with the most challenging region of Africa, and notably beyond the Christian realm to Islam. A religious leader from Senegal declared, "I have come to save Africa as the only begotten Daughter," and his congregation welcomed the only begotten Daughter. Thus, he became my son.

This applies even to the president who, after I explained the providence of Heaven, said, "I am the only begotten Daughter, let's work together." And so, he too became my son.

Likely, everyone will come to the entrance ceremony next year. How could we gather presidents and ministers from the Islamic realm and bless them in the name of the True Parents? We did it. This is religious unity. When the True Parents are at the center, all religions unify. The same goes for nations.

Among the 200 countries, some are prosperous and some are not, but to all these nations, the Creator, who is the original owner of the universe, is our Heavenly Parent. How could we alone enjoy this immense, heart-fluttering gratitude and joy that the palace of Cheon Won Gung has been established, and next year we will hold the entrance ceremony to serve the Heavenly Parent?

I pray that all 8 billion people of the world will rush towards this moment of welcoming the Heavenly Parent on earth and that in the embrace of the Heavenly Parent, all humanity will become one. I bless all the blessed families who bring forward and announce this day with all our devotion and effort.
