

## God desired to love His children and live with them in this world, on the Earth

Hak Ja Han

May 5, 2024

Children's Day Hyodong Family Festival

Gapyeong Begonia Bird Garden, Korea

You are the lovely "Hyodong" children of Cheon Il Guk, aren't you? (Yes.) Through your Mom and Dad, and through True Parents, you are Pure Water. Did you know that? (Yes.)

Grow healthy, kind, and beautiful and grow to become Cheon Il Guk leaders. Please mature to become very proud leaders who love your nation and the world.

Today is Children's Day. The Creator, the owner of the universe, is our Heavenly Parent. Heavenly Parent's dream is, together with True Parents on earth, to love children such as you and to look to the future together with you to achieve the dream of heaven on earth.

Our world has become a difficult place due to the mistakes of adults who were meant to be our first ancestors but who were unable to become one with the Creator.

Yet following the birth of True Parents... During the past twelve years, True Parents have worked to create the environment, unfolding a new history and establishing Cheon Il Guk. As a result, we can dedicate the Cheon Il Sanctum in Cheon Won Gung, where we can attend Heavenly Parent on earth. This will be next year. True Parents For that day,...

For us, in keeping with our Heavenly Parent's dream, our Creator made all this natural environment, including the natural world, the animal world, the beautiful flowers, the fish, and so on. This was the environment in which God desired to love His children and live with them on earth. But until now, the people of the world have not known this.

However, you have come to know these things through your parents and through True Parents. True Parents are therefore creating this environment for you in a very beautiful and mysterious way. Today, on Children's Day, you are truly blessed children. (Yes.)

Thus, I hope that you will be able to create many pleasant memories of this environment, ones that you may share with your future descendants and show to your younger siblings in the future. I pray that you will all become Hyodong children of blessed families who can explain things well to your friends in society and bring them here to celebrate and enjoy everything together. (Yes.)

Please have a good time. (Yes!)
