Note: The following information is the translation of the news posted on FFWPU Korea web site. They cannot be published as definitive texts and should never be used in the future as an "official" publication of True Parent's words. However, they do provide a good idea of the "spirit" of the message. -- Rev. Katsumi Kambashi

After reading True Father's words, True Mother asked if those who had completed the 21-Day Top Gun Workshop participated in the meeting that day. Then True Mother said, "Even if you think you are lacking education or experience, you can cover them and grow when you come to have your spiritual children. Even if you don't have heavenly fortune, when you meet a person of fortune through your witnessing, you come to share that fortune. The reason why you could become the Blessed family of the Unification Church is because you have received the fortune of True Parents." True Mother also said, "The root of the Unification Church and FFWPU is the truth and its center is True Parents."

True Mother also asked to help brothers and sisters in the Philippines who suffered the typhoon at this time, saying "All the Blessed families in the world are brothers and sisters centering on True Parents. I heard there are about 1,500 members and ambassadors for peace in the area of the Philippines which was hit by the typhoon. One should live sharing love with brothers and sisters.

Representing Korea and Japan, I donated \$1 million for them."
