

# True Parents' HJ Cheonwon Special Workshop

## Japan Top Gun Graduation

### True Parents' Message

Cheon Jeong Gung, February 24, 2018

**B**ecause of the heat of your energy, I have to take off a layer of clothes. Yesterday was the Rally for the March Forward of the Family Federation for a Heavenly Korea. At that time, five thousand CARP members danced, but you are better. How can your pronunciation be so good? Thank you for growing up well, and thank you for participating in the workshop well. You are the future of the Family Federation for a Heavenly Japan. You are the ones, with great grades, who can become leaders not only in Japan but throughout the world.

Yesterday I spoke at ICUS. What they were curious about, is what kind of person, with what kind of purpose, is doing this work, which no one else has been able to do. They were curious. So I told them the person you must research, and know, and attend from now on is Heavenly Parent. When looking at human civilization, the present times and our lives have become very comfortable through the development of science. That is something we can see with our eyes.

On the other hand, through the development of science, we are also receiving unexpected damage. Right now nations, North Korea among them are

saying they must have nuclear power in order for their nation to survive. Why do they need that? All they need to do is change their way of thinking. They all have greed, selfishness and are self-promoting, saying, "I am first, only I have to live well." That kind of thinking has been prevalent in fallen history.

The rise and fall! Among large and smaller nations, just when you thought one was on the rise, it would begin to fall. Humankind would still speak of peace as this happened. Therefore, all throughout the world, there are many religious people and globally four great religions are governing the people of today. Yet they do not know the conclusion well. They do not know where they must go. Human beings are not born because they wish to be. They are created because there is an absolute being, the owner of the universe. That Creator has a dream. That dream is to embrace all humankind in one embrace through the love of a parent.

In summary, the world today has lost their parent. If they do not find their parent, if they do not attend their parent, then the world today cannot realize peace. When looking at the future, we cannot see hope either. The future seems hopeless. However

you may be thinking, as long as I live well today, I do not care about tomorrow. Yet centered on Heavenly Parent, the Absolute Being, there is no first or second act, The eternal Heavenly Parent wishes that everything he created, including his sons and daughters, will last eternally. We call God, the Creator, our Heavenly Parent. Your reply is a bit slow. [Laughs] I said that your pronunciation was good earlier but you must be able to use True Parents' language in order to say you are true children. True children and humankind must attend Heavenly Parent and on the path of being able to stand in Heaven's presence, you must receive the blessing and be reborn. This is the revival and rebirth. You are born new through the True Parents as people with no connection to Satan and no connection to the Fall. Therefore, you are in the position in which you can become filial sons and daughters in God's presence. Aju! Aju! I feel great. I have spoken in Japan and in many places around the world. Now I have said that I will reveal the truths of history. I said I am the Mother of the universe, the only daughter of God; let us make the kingdom of heaven on earth together with me. That is what I said during the Wonmo Scholarship Awards ceremony.

This will be easy if all powerful and small nations accept Heavenly Parent's will. The world can

become a world of peace. However, neither large nor small nations know Heavenly Parent or know of the manifestation of True Parents. They think that the only way to survive is by becoming stronger. What happens if there are only strong nations? In the end, they break and fall apart. Is that so or not? What happens in nature if there is a plus and a plus? They repel. When we look at God's principles of creation, humankind has to go forward on a path united and centered on God from the beginning to the end. The ones who will teach this precisely are the True Parents! On the path to a united world, there will be no need for the military. Isn't that so? We will need neither bullets nor bombers, will we? Why, then, are people spending unnecessary money on this? Especially Japan, as the Eve nation, has a responsibility toward the world. You must teach [the world]. During this urgent time, when a day seems like a thousand years is when we need your wisdom, hard work, and effort. No matter what, you must make effort so that the world can go in the direction of a world of peace, one global family that attends Heavenly Parent. Will you work hard in all respects so we can realize those results? [Yes] [Thank you True Parents! We love you!] [True Parents we are here!]
