To Japanese Top Guns

Because of the heat of your energy, I have to take off a layer of clothes. Yesterday was the Rally for the March Forward of the Family Federation for a Heavenly Korea. At that time, five thousand CARP members danced, but you are better. How can your pronunciation be so good? Thank you for growing up well, and thank you for participating in the workshop well. You are the future of the Family Federation for a Heavenly Japan. You are the ones, with great grades, who can become leaders not only in Japan but throughout the world.

Yesterday I spoke at ICUS. They were curious about what kind of person, with what kind of purpose, is doing this work, which no one else has been able to do. They were curious. So I told them

the being you must research and know and attend from now on is Heavenly Parent. When looking at human civilization, the present times and our lives have become very comfortable through the development of science. That is something we can see with our eyes.

On the other hand, through the development of science, we are also suffering unexpected damage. Right now, nations, North Korea among them, are saying they must have nuclear weapons in order for their nation to survive. Why do they need that? All they need to do is change their way of thinking. They all have greed, selfishness and are self-promoting, saying, "I am first, only I have to live well." That kind of thinking has been prevalent in fallen history.

The rise and fall! Among large and smaller nations, just when you thought one was on the rise, it would begin to fall. All people would still speak of peace as this happened. Therefore, all throughout the world, there are many religious people and globally four great religions are governing the people of today. Yet they do not know the conclusion well. They do not know where they must go. Human beings are not born because they wish to be. They are created because there is an absolute being, the owner of the universe. The Creator has a dream. That dream is to embrace all humankind in one embrace through the love of a parent.

In summary, the world today has lost their parent. If they do not find their parent, if they do not attend their parent, the world today cannot realize peace. When looking at the future, we cannot see hope either. The future seems hopeless. However you may be thinking, as long as I live well today, I do not care about tomorrow. Yet centered on Heavenly Parent, the absolute being, there is no first or second act. The eternal Heavenly Parent wishes that everything he created, including his sons and daughters, will last eternally. We call God, the Creator, our Heavenly Parent. Your reply is a bit slow. [Laughs] I said that your pronunciation was good earlier but you must be able to use True Parents' language in order to say you are true children. True children, humankind, must attend Heavenly Parent and on the path of being able to stand in Heaven's presence, you must receive the blessing and be reborn. This is the revival and rebirth. You are born anew through the True Parents as people with no connection to Satan and no connection to the Fall. Therefore, you are in the position in which you can become filial sons or daughters in God's presence. Aju! Aju!

I feel great. I have spoken in Japan and in many places around the world. Now I have said that I will reveal the truths of history. I said I am the mother of the universe, the only daughter of God; let us make the kingdom of heaven on earth together. That is what I said during the Wonmo Scholarship Awards Ceremony.
