

2018 Hyojeong Prayer-Wish Ceremony for Restoration and inheritance of Heavenly Fortune

Cheongshim Peace World Center, May 5, 2018

A new age and new history has begun in this sixth year of Cheon Il Guk. Beloved blessed families and members from around the world, I pray you all can become people who do their utmost to be loyal, filial and full of deep love in the presence of Heavenly Parent and True Parents, who have given us spring in the providence. Providential spring, the spring season that begins a new year is the season when farmers who must bear fruit have to do their best in order to produce a hopeful harvest in the future. As we welcome the spring in Cheon Il Guk, blessed families, you must fulfill the responsibilities of three generations: the past, present, and future. You must fulfill your responsibilities to go toward the day, which Heavenly Parent our Creator wished to realize, when we achieve a world with no relationship to the Fall.

In order to fulfill these responsibilities, each blessed family must fulfill their heavenly tribal

messiah responsibilities. Those of you who have realized your responsibilities as tribal messiahs must then realize your responsibilities as messiahs on a national foundation. Then united, on the foundation of fulfilling your responsibilities as national messiahs, you must head out to the world and fulfill your responsibilities as global messiahs. This is the Heavenly direction you've been given. I fervently wish this becomes a time for the blessed families gathered here today and the blessed families all across the world—who should thank and give praise for Heavenly Parents' infinite love—to resolve to become blessed families who are filial children, patriots and saints who unite and without fail realize Heavenly Parent's dream while True Parents, True Mother, is still alive. I pray once again that you all become people who complete our national responsibilities, which are our first goal toward reaching our promise to Heaven regarding 2020.
