Furthermore, all human beings will inherit True Parents' victorious achievement to be the citizens in Cheon Il Guk.

**D**uring the speaking tour, True Father offered the devotion for the tour. He reads the principle when True Mother reads it. True Father was always with True Mother by watching the live broadcast.

Right after finishing the tour, True Mother called True Father and shared the victorious result of each tour.

A large audience is seated in a theater, facing a stage. On the stage, a large screen displays a portrait of a man. Below the screen is a banner with the text "One Family Under God" and other smaller text. The stage is decorated with red and white elements. The theater has multiple levels of seating, and the audience is densely packed.

You should create families that God will miss and yearn to return to. You should raise families to which He can come freely as a Parent visiting His children. This is what it means to live in service to God. In such families, God becomes the vertical subject of our conscience. Following that vertical subject, your mind stands as your own vertical subject and brings your mind and body into unity. That is where parental love, conjugal love, children's love and siblings' love—the Four Great Realms of Heart—are perfected. Only in such a family can the upper and lower, front and back, left and right connect as one, and spherical motion ensue. This brings forth God's everlasting, model ideal families, model ideal nations, and peace kingdom.
