Excerpt

A Day When We Welcome the Blessing

Unofficial Translation

God's dispensation is not to save Abel alone. On the contrary, God's dispensation is to save Cain by offering Abel. That is why precious things are given to Cain, not to Abel. This is the Principle.

Japanese leaders, aren't you teaching a principle that I do not teach, when you say, "I am Abel because I am a church leader. You are Cain. Cain must obey Abel. This is the Principle. So obey." There is no such principle.

The person must obtain natural surrender and consent of Cain figures through the power of love, otherwise he is not Abel. If this mission is not fulfilled, he does not have any foundation to stand as Abel. Since he does not gain the victory, God does not approve him as Abel.

The same holds true on the individual, family, clan or tribal level. If the Unification church is the Abel church on the world level, it must gain victorious indemnity condition by shedding blood on the world level, and obtain Satan's signature on the certificate of victory. Only then can the Unification church become the Abel on the world level for the first time.
