

At Jeung Jin Nim's Birthday Celebration, June 4, 1983

Father held an emergency meeting with the Regional Leaders yesterday, June 3rd.

Father just learned by chance that everyone's understanding was that Home Church was suspended for 3 years. Father learned that that was the general understanding just yesterday, but when did Father say that? When did he make that declaration?

If that was heavenly polccy then:

1. It would have come from Father directly.
2. It would have been a written directive that was sent all over the world.

There has besolutely been no change: Home Church is our Land of Settlement. The I.O.W.C. is not our ultimate goal. Our ultimate goal is Home Church. Without going through the home church process you will not reach heaven. Mobile witnessing is our immediate goal in order to gain more members to do Home Church. Rev. Kim is heading it up. All eschelons including leaders of the church must participate. A national Home Church leadership network will be established. They will be more Abel-like since Home Church is our ultimate goal.

Father wants to cover the whole United States with 360 homes, therefore we need to get more members. But don't loose site that Home Church is ultimate. The sacred cow is Home Church. Pulling the horns is the mobile teams. Consummation of the Providence through Home Church.

Emergency meeting this morning. This word should go out throughtout the entire country. Father will appoint Home Church leaders. Another network of leaders apart from the mobile teams. HSA staff wiite this out in clear direction. World missions must hear all this. All separate misions, Rev. Kwak, Mr. Kamiyama, News World, et cetera all have been lukewarm about Home Church. Apart from these organizations will be separate leaders directly under Father. All the major leaders already existing will be under the Home Church leaders father appoints. Home Church leaders will have special authority. Rev. Kim has special authority.

TYLER HENDRICKS presented as first Ph.D. True Parents signed first Ph.D. diploma.

44 Ph. D.'s will come out in the next couple years. 150 is the goal. Father has dispensation to create heavenly Ph.D.'s. Tyler is first one through U.F.S. (Of course Dr. Seul got Ph.D. but not thourgh U.F.S.) Philosophical world will be led by heavenly Ph.D. Father created all Ph.D. for eventual showdown against Communism. CAUSA is not the front arm. Of course not all Ph.D.'s will go to CAUSA, but each state will havemone Ph.D.

Reach highest academic goal and then go down to the very bottom. Ph.D.'s are going to learn every phase of Father's life. Ocean Church to CARP to state leadership to industry to CAUSA, then ultimately teaching in UTS and other seminaries. That's how they will establish their elder brother's position. They had to study hard and persevere in the academic life, and then in real life they must go through the same course. Then they will ultimately teach and lecture. They will be professors. All U.F.S. graduates are passing through certain period of dispensation. Seminary then 40 days workshop then CARP (?) Tyler from today on is the symbolic leader of Ocean Church. Tee Ocean Church Commander. But of course he should not immediately cease academic activities. Pursue them, lecturing, etc., but at the same time.

So far academic intellectuals have only had head but no body. Intellectual + experience, mind and body. So we can teach Congressmen, presidents, etc. Be able to lead, instruct national leadership. Principle of Creation - perfection of man is dual, therefore our leadership and training is dual. Father is highest possible spiritual and physical (realistic) world leader. World is afraid of Father because he is activity/deed.

Daikon, 1st year seminary class; Tyler 2nd year class. Tyler is top leader and Daikon should support him. Father is setting a tradition. Tyler go out to Ocean Church. Then CARP, then state leader. Then molded into national or international leader. Formation, growth, perfection. Then you can do any field without limit. International celebrity is what Father wants you to be. Anybody who doesn't walk this path, Father does not consider him a loyal, mainstream member.

In the U.C. world, if you want to be mainstream, central leadership under Father's leadership, you must go through Father's designated course. Problem areas are ocean, communism, nation where we are trying to cultivate state leadership. Land, ocean and air. Communists are to occupy centering on college campuses.

Tyler acceptance speech as Commander-in-chief of Ocean Church. This is an eternally remembered day. Jeung Jin Nim's birthday - final 1st year birthday as far as True Parents are concerned, and you are coupled in this day and honored by True Parents. You have a most glorious position, prestigious position. (Tyler's speech and song) Grant from Father - symbol of blessing that mission. To present himself well in the mission. (First thing he must buy is fishing gear.)
