

The organization of the spirit world

Why is the spirit world still incomplete? The hierarchy of the spirit world was originally designed to be connected centered on God, True Parents, and true children, but that hierarchy does not yet exist in the spirit world or on earth. In other words, the organization of the spirit world is to be the hierarchy centered on True Parents, and at the same time the philosophy heralding the Adam untainted by the Fall, but it has not been established yet. So far, the center of the hierarchy has been occupied by the Buddhist group, the Confucian group, and the Muslim group.

Thus, in the spirit world, the Muslims, Confucians and Buddhists have all

been hoping for the appearance of the true parent-centered ideology and the philosophy heralding Adam. Since both worlds must go in a unified direction, when the work of the True Parents on earth reaches the global level, the boundaries dividing all the religions will disappear, and a unified movement will automatically appear according to the motions in the spirit world.

Then, what happens when the teachings of the Unification Movement become a global ideology? All the spirits will be absent from the spiritual world. As their purpose must be completed on earth and subsequently revert to the spirit world, they all have to return to the physical world. All of them will become active. Countless spirits in the spiritual world are hoping for the Unification members that are spread across the world to take action.

Then what is the center of the hierarchy in the spirit world? First it is God, second True Parents, third true sons and daughters, and fourth the true nation. True children are children who have inherited the direct lineage from True Parents. They all branch out centering on the nation to become its citizens.

Who should be the first to live in the heavenly palace? Who will govern the heavenly kingdom sitting on the throne of the heavenly palace? Adam and Eve should have become the true parents centering on God and were supposed to be in that position of governing the kingship of that heavenly nation. It would have been realized if they had not fallen, but because of the Fall it did not materialize. Thus, true parents have to emerge and move into that position.

The spirit world operates under this kind of principle. So how long do you think it would take for such phenomena to appear in the physical world? Centered on God, true parents have to emerge, then the true children, and finally a true nation with true citizens.
