The 6500 Couples Marriage Blessing Ceremony

October 30, 1988 Ilhwa, Korea

Sunhak Institute of History

On October 30, 1988

the 6500 couples marriage blessing ceremony was held at Ilhwa, Korea.

This blessing ceremony is the largest blessing
at that time.

On this day, the blessing candidates entered
the gate of blessing with following True Parents

日本協会

山崎の会

On this blessing ceremony, Korean-Japanese couples were matched a lot. In total of 2400 couples. In the past they were enemies for each other, but through this blessing, Koreans and Japanese became closer. This is the first step for the world peace.

In this blessing ceremony, the representatives of Adam nation and Eva nation matched and got blessing each other. It seems like to open the gate for True Parents worldwide.

One week before the blessing ceremony, almost couples were matched with photographs.

A photograph showing a man in a patterned shirt standing in the center of a large crowd of people. He is holding hands with several people around him, suggesting a communal or celebratory activity. The setting appears to be an indoor event space with a grid of lights on the ceiling. The crowd consists of many people, mostly men in suits, looking towards the center. The lighting is somewhat dim, with the main focus on the man in the patterned shirt.

The national wedding and matching with photographs, they are concern for the blessing candidates. The candidates did not sleep to wait the matching by True Father. Even though it was hard time to receive the blessing, they cried when True Father gave them the spouse's photograph.

One day before the blessing, the blessing candidates finally can meet their spouse face to face at the holy wine ceremony.

However, almost couples are international couples, so they just hold spouse's hand and smile at spouse.

On October 30, 1988, I conducted the 6500 Couples Blessing Ceremony. It was a cross-cultural marriage between Japanese and Koreans. People talked about how I got Unification Church members to marry each other after looking at their photographs. People assumed that the brides and grooms would be able to communicate with each other, but they could not. Since I had matched people who did not know each other's language, thousands of them sat in silence holding each other's hands tightly.

Why were they so silent? It was because they did not know each other's language. Wherever they went, they would not let go of their partner's hand. Fifteen thousand people gathered there, so if they had let go and lost their spouse, it might have been difficult for them to find each other again! Even at mealtimes they stayed close. They could not converse with one another, but it was beautiful the way they held each other's hands. The Unification Church is the only place where one can see such a thing.
