We are in a hurry, We cannot allow any time for discussion of strategy. We cannot have this luxury. We must go on. I feel the urgency of the heavenly time schedule, and we must meet every phase of this schedule, without failing. Indeed we must declare an hour of emergency.

Since last year, October 1st, when we launched the Day of Hope tour in New York, seven months have passed. During this seven-month period how much work have we done? How much impact have we created, nationally and internationally? You are the witnesses. If we go on at this pace for three years, what will happen?

The problem is not persecution or external attack. The problem is internal. How strong is our dedication? How strong is our unity? Even though our conviction is strong and we are truly united, if we have no power or strength to fight, we cannot move on to victory. It is my problem and my task to elevate the standard of leadership in each state, so that they will have the strength to generate power and influence throughout their state.

This particular period is an extraordinary period in the dispensational history. I have now come to America, and am operating on a world wide level, speaking to the American public. I knew from the beginning of the 32-city tour that some opposition would be mounting, even on a national level. Over the last two months I am feeling every moment of

the day that this is my cross, my own cross that I am bearing physically. This is the road of the cross. Yes, I witness so much opposition outside and in each city it is intensifying. Our battle is not the knife battle or the gun battle or the fist battle. Our battle is that of love. Love is our weapon. We must gain time. The three years will be good enough for us. We need three years. In the meantime we must prepare our ranks. I already declared in the 1972 tour that America's most extraordinary crises would come in 1977 and 1978, because the Communist strategy and Communist infiltration will be rampant then. At that time, they will go all the way, to sweep the land. Before that time, we must prepare our side.

You can well imagine how much importance I have placed on America, and how much thought I have put into developing our strategy here. One proof. I called all the international leaders to America. They were busy with their own territory, but I asked them to abandon their territory and come to America. In other words, I am sacrificing all other nations for the purpose of victory in America. American members, when you know my deep, serious feelings, you must be doubly moving forward to become a forefront of the entire movement.

This is extraordinary. Never in the history of America, probably never in the history of any

nation, has any person or group moved in a whirlwind like this for seven months without ceasing. And, I am sure that I am absolutely setting a new record here in America. So this is one miracle you have created. And this has been organized by the outside foreign members, coming from all different nations, facing a strange land, without knowing the language, with a different cultural background, but they created such a tradition.

So I want you to know, we are in a sacred mission that will liberate the heart of the Father, the grief of the Father. We are the liberation army. Liberating whom? We are liberating God, His heart, His burdened sorrowful heart — the historical God, and the God of the present.

Your setting the condition by yourself is never good enough to be victorious. You must draw God's power. With your power alone you can never make the goal. You must draw power by being grafted into the source of power, the source of life, so that you use that limitless power. I want you to accomplish your mission. Don't rely on your own power. Unless you become one with the True Parents, in no way will power flow into you. So this is the one basic and fundamental condition.

Each meeting I reiterated that you must be successful in gaining one member every month. I said this over and over. How many of you truly felt

that this was a nail in your heart, and your heart was truly broken when you could not fulfill that goal? How much suffering can you feel in your heart? The entire world and universe is depending upon us.

And when you are proclaiming the truth of the Divine Principle, you must proclaim the person of the True Parent as the historical warrior of God. The Divine Principle is that way. When you teach the Divine Principle, that is the hour of declaration. This is the final declaration under the sun, the declaration of the kingdom of God, the coming of the True Parents. You must become one, united in one knowledge, united in one energy, and ultimately united in one heart. Then you must become a totally selfless person, making yourself a living sacrifice. Then power, limitless power, will flow into you.

In a little over one year, actually one year and one month's time, Reverend Moon, starting from scratch, has emerged as a formidable entity worldwide. But it is not for my sake. That's how we can bring the power of God down to this earth. Let our observers feel they cannot take us lightly. Yes, we can be making ourselves really invincible people. But our people are for righteousness.

I want you to know how privileged you are. In this same particular time you were born, you were chosen so that you can sweat together with the

True Parents, and so you can work and battle together. You are to become a core soldier of the True Parents. This particular position you will never buy with money, in the past or in the future. There is only one time in history that this is true, and this is your time. Your whole body, every cell of your body, every movement, every facial motion, even every piece of hair, every ounce of energy, must be directed to this one point. Those who have developed that attitude, to live or die, must make it go. Let us once again raise hands. Thank you.
