No.	Slide	Narrative
7.		<p>The right priority is to place being good as the foundation of our character, then to put being smart on that foundation. When we help others, being big-hearted, we more easily control our selfish desires because we are public-minded. In turn, we are trusted by others and this makes us feel good about ourselves.</p>
8.	<p>Where do I learn to be "good"?</p> <p>From my parents.</p>	<p>Let's now address the question, "Where do I learn to be good?"</p> <p>Since being good means living for the sake of others, let's ask, "What person lives more for others than for him/herself?"</p> <p>[Click] The answer is obvious: It is my parents—my father and mother. They willingly sacrificed to give me food and shelter, education and opportunities. It is from them that I first learn what it means to be "good."</p>
9.		<p>Then, <i>how</i> do I learn to be good from my parents? I do so by imitating them. They give me love and attention, so I give them love and attention. They support me, so I support them. They give to me unconditionally, so I give to them unconditionally.</p> <p>In short—they live for me, so I live for them.<sup>1</sup> Children's love towards their parents is called <i>filial piety</i>. By doing this, the mind and body are united in the right order and good character, centered on our conscience, is built.</p>
10.	<p>Confucius</p>   <p>"Filial piety is the root of all goodness."</p>	<p>Filial piety is one of the most important virtues in traditional cultures. In Asia, it is considered the root of goodness. It means offering love, respect and service to one's parents and other elders in the family.<sup>2</sup></p>
11.		<p>Living for the sake of my parents doesn't stop there. Since my parents care for the entire family, living for my parents means living for my family more than for myself.</p> <p>The practice of living for the greater good is what we call the "vertical standard." Families that live for the sake of the community are good families; communities that live for the sake of the nation are good communities; and finally, nations that live for the sake of other nations and the world are good nations.</p> <p>Living for the sake of others is the pillar of a new world order.</p>
