

## Principle On the Go

This version of Principle, Principle On the Go, doesn't add or change any of the Exposition of the Divine Principle. What has been done was, to make it easier on the ear while listening, to take out the page numbers and the footnote numbers which are read out loud but contribute nothing to the listening off the Principle itself.

I reviewed it multiple times so as to not omit anything. Please contact t me if you find an error and I'll fix it.

Many times during the day we have our hands busy but our minds and ears are free to hear Father's words. This **Principle On the Go** edition is for such moments. It's been put on PDF format so that nothing can be edited out.

I hope it helps in achieving a little of what True Parents require, which is reading the Principle 40 times..at least.

Nick Bikkal
