

The Cornerstone of the Culture for an Ideal World of Peace

Dr. Chung Sik Yong, May 22 2023

Key Points

- God expresses his love and heart and emotion through his Word.
- His Word is love.
- When we think that each word is God's love, then the more we read, the more we feel God's love.
- Since Dr. Yong received Mother's word to go to Korea, he has felt that God and Spirit World are calling him to go.
- After praying to know what the meaning is for him to go, he strongly feels that he is an offering.
- He feels he is the offering of the elder son nation to go to Korea and support True Mother.
- And he does not go alone.
- Between 7 and 8 thousand viewers have participated in Morning Devotion around the world.
- Since he came to America he and church members have worked together, investing their hearts and jeongseong, and creating unity.
- The unity created through Morning Devotion and the hearts and jeongseong that have developed in American members and those around the world can be brought to Korea as an offering.
- He prayed to Heavenly Father and said he wanted to show the Korean people that God is not dead, but is a living God and is alive in Korea.
- Even though he has a Korean passport and is a Korean citizen, Dr. Yong is going to Korea as the elder son's representative and on behalf of all the American brothers and sisters.
- Even though we go through many trials and darkness, no matter what kind of suffering we have, when we think about God's suffering heart and han, it heals our own pain.
- The last day of Dr. Yong's presentations for Morning Devotion will be May 24th. After that, local leadership will take over. He thinks we will do very well.

Transcripts from November 3, 2021 to the present, personal notes from November 11, 2020 until November 2, 2021 and slides from August 29, 2021 to the present are available at MD.Hoondok.com as PDF files. ♦

According to Father, God expresses his love and heart and emotion through his Word. That's why his word is his love. When we think that each word is God's love, then the more you read, the more you feel God's love.

Since I got Mother's word to go to Korea, I feel that God is calling me, spirit world is calling me to go to Korea ASAP to support Mother. I can really feel True Mother's urgency and heart. So I prayed, what is the meaning for me to go to Korea? I strongly feel that I am the offering. I am the offering of the elder son nation to support Mother. Since I came to American you and I have worked together, investing our heart and jeongseong, and creating unity. And we need to bring it as an offering to support Mother. Not only just me, but I want to bring each one of our dear brothers' and sisters' hearts and jeongseong to Korea. I am so grateful to America's brothers and sisters, and also Canada and the entire world. As you know, roughly 7,000-8,000 people participate in Morning Devotion. I really want to offer this kind of jeongseong to the Korean peninsula and support True Mother.

Yesterday we had a farewell service for the senior pastor at New Jersey Family Church, so many people came. Rev. Takino came, an amazing guy with absolute loyalty. Karen Beebe gave a beautiful and tearful testimony; I really love them. And EJ, and second generation representative Yejin gave testimonies. I was really touched by their beautiful sharing. Resfred, who was mc, gave his beautiful testimony and President Naokimi gave his testimony as well. As you know I love Naokimi. Please support him. He is going to be an incredible leader. He can be a very great leader to support True Mother and the American providence. I gave my farewell message as senior pastor to the NJ Family Church. I testified that if I go to Korea, even though True Mother is saying there are so many difficulties in the Korean church, I prayed, Heavenly Father, let me testify that you are alive in Korea. I want to give testimony that God is a living God. Many people say it is so difficult in Korea, and no one can resurrect Korea. Heavenly God, I want to show the people you are not dead. You are a living God. Heavenly Father, I came here as the offering of the elder son nation. Even though I have a Korean passport, and am a Korean citizen, I came here as the elder son's representative, as the offering of the elder son. Not only me, Heavenly God, all the American brothers and sisters want to help the Korean peninsula. So please accept my American offering. I really want to do my best as the representative of the elder son nation. This is my heart my brothers and sisters.

Representing each group, many people gave me gifts. I sincerely thank all the leaders and family members who supported me during this time. Of course I cannot concentrate on everything, because my schedule is so busy, I travel here and there. In New Jersey each one of the brothers and sisters is really supporting me. In the photo you can see so many members came to send me off. I sincerely, sincerely thank all our family members, staff, brother's and sisters.

Today I'd like to briefly talk about "The Cornerstone of the Culture for an Ideal World of Peace, from True Mother's Anthology Vol. 2". Afterward we can hear reflections from Sub Region 4. Let us study Mother's word.

<This speech was given by Dr. Hak Ja Han Moon at the Inaugural Convention of the Youth Federation for World Peace, held on July 26, 1994 at the Omni Shoreham Hotel in Washington, D.C.>

The Cornerstone of the Culture for an Ideal World of Peace

Distinguished guests; youth representatives from 164 countries; students, ladies and gentlemen. I would

like to express my warmest appreciation to you for participating in this inaugural meeting of the Youth Federation for World Peace. I am delighted to meet all of you in this beautiful capital city to discuss the important issues that are before us.

Despite our very busy schedules, we have come here today because we can see and feel the problems the world is facing today. I pray that this bold attitude on our part can lead us into the next millennium where peace, freedom and love await us. Today we are at a turning point in history. We are faced with an important choice. We can either be the harbingers of peace and love, or the victims of yet more wars and conflicts. What we do now will determine whether or not we can witness together the emergence of true world peace.

During the Cold War, there was an ideological confrontation between the left wing and the right wing. But now, with the end of the Cold War era, we are faced with deeper problems which threaten to destroy the moral fiber of our society and the sanctity of love in our families. The apparent breakdown of sexual morality and the widespread use of dangerous drugs have already taken their toll on our youth.

In the United States, for example, recent studies indicate that six out of ten high school students admit to having used drugs, 40 percent of fourteen-year-old girls will become pregnant before they reach their nineteenth birthday, and 30 percent of all children born are being born to single-parent homes. The HIV virus, moreover, has reached epidemic proportions infecting one out of every forty people in our inner cities while the suicide rate among our youth has increased 300 percent over the past three decades.

When we see the reality of the world situation we see how terrible it has become. That's why True Parents want to teach to the people the importance of family values. There is no other way.

Since time is limited, let's hear Sub-region 4's reflections. Thank you very much.

Reflections: Rev. Steve Wilson, Glenda Lambert, Kohwa Shirotori Rigsbee, Junko Osberg, Pastors Nadeem & Romina Raham, Living Testimony: Francis Marsal Heavenly USA

(reflection on testimony) No matter what kind of suffering we have, when we think about God's suffering heart and han, it heals our own pain.

(The last day of Dr. Yong's presentations for Morning Devotion will be May 24th. After that, local leadership will take over. He thinks we will do very well.)

Thank you very much my brothers and sisters, I Love You!

NOTE: This text and the PowerPoint slides from this speech are

available as a link at the top of this text. Transcripts from November 3, 2021 to the present, personal notes from November 11, 2020 until November 2, 2021 and slides from August 29, 2021 to the present are available at MD.Hoondok.com as PDF files. Books of the transcripts and notes are available as PDFs at MDBooks.Hoondok.com.

This lightly edited transcript may contain errors and omissions. Indecipherable, inaudible or uncertain words and guesses are tagged with a "(?)" and indecipherable phrases, with an ellipsis "...". First, second and third person pronouns have been left as spoken if the meaning is clear, and other apparently Korean English expressions have been preserved if understandable. Some repeated phrases have been eliminated.

Audio only is available at anchor.morndev.com, spotify.morndev.com & audio.morndev.com. Notes or transcripts of Dr. Yong's Morning Devotion speeches from November 11, 2020 through March 29, 2022 are available as six paperback books at cost at Lulu.com/Shop -- search for Dr. Chung Sik Yong -- and as PDF downloads free of charge at MDBooks.Hoondok.com.♦

The HIV virus, moreover, has reached epidemic proportions infecting one out of every forty people in our inner cities while the suicide rate among our youth has increased 300 percent over the past three decades.

TESTIMONIES

Sub-Region 4

“How Dr. Yong has Impacted our Lives”

Rev. Steve Wilson

MD *Testimony*

What Impact Did Morning Devotion Have on Me?

- What did Morning Devotion do for me? It filled in the pieces that were missing from my puzzle that were holding me back such as filial piety and hyojeong. I never heard these concepts or words until the church but they never clicked with me until Dr. Yong explained them. Also I came to realize that family is everything and Heaven is a world of heart. If you don't have one you won't want to go there! I am shocked at what I didn't know and what I probably don't know. I confess that when you first started, I struggled and referred to you as the Master of Judgement, but you won my natural surrender! God Bless you!

Morning DEVOTION

Dear Mother,

My name is Desiree Contreras and I am a first generation that was witnessed to in 2021. Having the chance to meet you meant the world to me. I haven't stopped replaying the moment in my head. It's your motherly heart that moved me the most. I cried most when you said you were treating us to hamburgers. Not just because I really like American food, but because you said "as your mother..." As a first generation, I struggle with understanding and receiving parental love because my parents unfortunately didn't really know how to love me. At that moment, I felt like that hole in my heart was filled. I felt, truly, that you are my Mother, and I am your Puerto Rican/American daughter! Since then, I've been deeply reflecting on how I can be your extension. I really wanted to show you that, because you and Father saved my life, I want to offer my heart to you. I want to bring back our second generation and witness to many more of God's children for you, Father and our Heavenly Parent. I struggle with commitment a lot. But since that day, I've committed fully to attending you. I love you omoni and I will bring your children back!

Love Desiree

Morning DEVOTION

Dear Mother,

I'm so eternally grateful for the chance to meet you, despite your tiring, ever busy schedule you met with us, showering us with love. When we met you, the whole time I felt that the only thing that I'm good at is putting a smile on my face. But as we performed, I felt that I just wanted to smile bigger and bigger. Even though I felt that I wasn't so capable, that I didn't have as many deep experiences as some of my brothers and sisters who were even sobbing, all I wanted was to make an offering to you to bring comfort to your heart. Because of that I felt embraced by you Mother, having this feeling of "come as you are" which meant just sharing my best smile to my Mother in hopes of bringing joy to your heart, that despite my incapability in many things, that I bring one of the few things I could and offer that with as sincere a heart as possible, and be embraced and loved. And you said we were your grandchildren, which I felt a lot of the love of a grandmother, even if I never got to experience it so much with grandparents abroad. And even as I've lost both my grandmothers this past year, yet I still have that grandmothers love because I still have my True Mother, who is also my True Grandmother.

Dear Mother,

I'm so eternally grateful for the chance to meet you, despite your tiring, ever busy schedule you met with us, showering us with love. When we met you, the whole time I felt that the only thing that I'm good at is putting a smile on my face. But as we performed, I felt that I just wanted to smile bigger and bigger. Even though I felt that I wasn't so capable, that I didn't have as many deep experiences as some of my brothers and sisters who were even sobbing, all I wanted was to make an offering to you to bring comfort to your heart. Because of that I felt embraced by you Mother, having this feeling of "come as you are" which meant just sharing my best smile to my Mother in hopes of bringing joy to your heart, that despite my incapability in many things, that I bring one of the few things I could and offer that with as sincere a heart as possible, and be embraced and loved. And you said we were your grandchildren, which I felt a lot of the love of a grandmother, even if I never got to experience it so much with grandparents abroad. And even as I've lost both my grandmothers this past year, yet I still have that grandmothers love because I still have my True Mother, who is also my True Grandmother.

So, truly feeling the point that we are the happiest 2nd generation because we have our True Mother, who loves us like a grandmother her grandchild. So I am fortunate to meet my True Mother. And as for performing, I felt like I peaked as a performer, performing in a private setting to the highest honor imaginable, and wanting to bring joy through my singing and jumping and smiling. There was no "I'm not as good as others", but just "Mother please, I want you to enjoy and be happy". I could just express my heart of gratitude through my voice, and my smile. And your talk to us felt so personal, I really felt a little bit of the heart the first generation have, the desperation and determination to live for and serve our True Parents. How grateful I am, and how much I want to share the blessing that I have received, bringing more life and joy to all the people of the world, and bringing Heavenly Parent & True Parents children back to you, to also know your love and hope for humanity. Thank you again so much for your love! I made a promise to do what you and heaven calls me to do, with heart. I promise to always be here, so please, keep moving with hope. Live long, healthily and happily!

Love, your filial son,

Timothy Koppoe

Thank you so much
Dr. Yong!
