New Wine in New Wineskins

By Young-ho Yun

Beloved Cheon Il Guk leaders and blessed families! First I want to say, "I really missed you." Attending our beloved True Mother, we worked hard as one, offering our sincere hearts and jeongseong for the revival of the nation and continent, and since February 9 last year, when we celebrated the historic True Parents' Centenary and the sixtieth Holy Wedding Anniversary as great victories under True Mother's guidance, we have not been able to meet for a year due to the worldwide COVID-19 pandemic.

I miss you so much and want to see you so much. I cannot imagine how much you—the leaders and blessed families who are True Mother's sunflower—have missed and longed to see True Mother during this period. Just like the desperate desire of a newborn baby to find its mother, I am sure you missed our True Mother, the mother of our eternal life, and look forward to seeing her as soon as possible.

True Mother recently emphasized the phrase, "New wine in new wineskins." The term "new wine" in the Bible refers to the "new truth," the "new word" proclaimed by Jesus two thousand years ago. At that time, in Palestinian land it was customary to store water and wine in sheepskin bags. Sheepskin is very soft. If you put wine in it, the volume expands as it ferments. The wineskin stretches along with the fermented wine. However, once used, the leather becomes hard because of the sugar in the wine. If you put new wine in such a leather bag, it will not be able to handle the expansion caused by the fermentation of the new wine and it will burst. So the wine and wineskin will both go to waste.

Jesus emphasized in this parable that in order to accept his new truth and new word, it was necessary to abandon "old wineskins," "old stereotypes," and "old thoughts," "legalism", which was the model of faith at the time. In other words, in order to receive the new truth and new word, a new heart, an absolute heart that accepts the new truth and new word is needed.

The "seeding parable" in Matthew 13 has the same meaning. No matter how good the seed, if it falls along the path, on rocky places, or among thorns, the roots will not grow and it will not bear fruit, but if it falls on good soil, it will produce thirty, sixty or a hundred times more fruit. In other words, no matter how good the word is, it is impossible to bear fruit if it is sown in hearts like rocky places that have become hard from stereotypes and old thoughts called "legalism." Therefore, new wine needs to be placed in new wineskins.

However, we, like blind people, judged the new truth and new word proclaimed by True Mother based on our standards. Leaving behind her children who did not believe in restoring the nation and continent, True Mother had no choice but to go into an environment in which she could not see an inch ahead, with a body that could not take one step forward and create a miracle for us to see. For the past seven years, True Mother has been carrying us on her back, and together we enjoyed the joy of victory on the condition that we made a small contribution to True Mother's victory. We should never again repeat the mistake of assessing things from a human viewpoint. We must not let True Mother feel as if she has been left all alone in the universe after True Father's Cosmic Seonghwa.

Now, on the foundation of the victory of the "first seven-year cosmic Canaan course," heading towards 2027, which is the year of the sixtieth Heavenly Parent's Day, we have set out on another ambitious course, the "second seven-year cosmic Canaan course." In this Cheon Il Guk era, we must change into new clothes fit for the new era. New wine must be placed in new wineskins. Therefore, in this second seven-year cosmic Canaan course, with a new attitude that fits the new era, we must achieve absolute oneness with the only begotten daughter, True Mother, who is the substantial Holy Spirit, and gain victory by giving all we have toward 2027, in this last moment in the providence. 

Dr. Yun is the director-general of the FFWPU International Headquarters.

The Nation and World of Peace Sought by God and Humanity

This is an excerpt of a speech True Father delivered on October 29, 2001, at the Hotel Riviera Yuseong in Daejeon, Korea, during a Rally for the Nation of Cosmic Peace and Unity.

True Father's speeches display his logical thinking and his delivery of his speeches was often emphatic.

Respected leaders, ladies and gentlemen:

At this transitional point in human history, we have gathered as leaders from around the world that are concerned about the unification of Korea and world peace. The tragedies that took place in New York, Washington DC and Pennsylvania on September 11 truly shocked the entire world. Along with our concerns over peace and safety, we have come to reflect upon fundamental and serious questions of modern civilization and the future of humanity.

The Interreligious and International Federation for World Peace (IIFWP) and the World Association of Non-Governmental Organizations (WANGO) held a timely and significant conference in New York City, October 19–22. These two organizations, both of which I founded, brought together more than four hundred participants from 101 countries. The participants included heads of state and former ones, top leaders of major religions including Judaism, Christianity, Islam, Buddhism and Confucianism, and representatives of academia and non-governmental organizations. The participants debated seriously on how to find peaceful solutions to today's crises.

My homeland, on the Korean Peninsula, remains a divided country and a trouble spot that, along with the Middle East, attracts the world's attention. In my opening address at the New York conference, I communicated my vision for lasting and fundamental peace. I would like to share my views again with you leaders assembled here today. The title of my address is "The Nation and World of Peace Sought by God and Humanity."

Throughout history, people have continuously aspired to a world of peace, but we have never realized that dream. Consider the end of the Cold War, which concluded a time of fierce political and military conflicts and struggles. Many people expected that the long-awaited era of peace and stability would arrive, supported by our highly developed science and technology.

Nonetheless, we came to realize that the seed of conflict, hatred and selfish desire embedded deeply within each of us is still alive and is creating evermore serious disasters in new shapes and forms. Violence against innocent people is certainly an inhumane criminal act, and it must be stopped. However, what can eradicate our inner conflicts and struggles and resolve fundamental human problems at their root? Where

was the seed of hatred, conflict and struggle sown, and how did it come to be rooted so deeply within us?

Genesis

That seed was planted in the family of our first ancestors, Adam and Eve. The conflicts and struggles that resulted have continued from generation to generation until the present time.

How then can we resolve those conflicts and realize peace on earth? Historically, people have attempted to overcome conflicts and pursue peace through economic, political, diplomatic and military means. However, such methods obviously do not provide fundamental solutions, as we are still struggling with many unresolved problems.

There is only one fundamental way to resolve these issues. It is clear and simple. We must restore the family that our first ancestors lost; that is, the ideal family with God at its center, the family that has achieved perfection in true love, both vertically and horizontally.

God exists as the original being of true love and the invisible true parent of humankind. Nonetheless, love cannot exist alone. It exists in relationships, and it bears fruit only through relationships. That is why God

created us, as his children, through whom he would seek to realize true love.

God's first blessing to human beings, to "be fruitful" [Gen. 1:28], called God's children to become the object partners of his true love by becoming true people. When we love someone, we want our object partner to be better than ourselves. Thus God, as our loving parent, wants his children to be better than he is. That is why God repeatedly invests himself in human beings, his object partners of love; he forgets about what he has already given while constantly desiring to give infinitely more and more love. This is so because love has its origin in the desire to live eternally for the sake of others.

God then bestowed the second Blessing, to "multiply" [Gen. 1:28]. Our first ancestors were to have grown to maturity as the children of God. After reaching maturity and becoming one in heart with God, they were to be blessed as true husband and wife. Then they were to become substantial true parents to their children, inheriting and passing on true love, true life and true lineage from God.

God's ideal of creation was to perfect true love both vertically and horizontally, beginning in the first family of our common ancestors. Since God's love is absolute, unique, unchanging and eternal, that family also was to have been the absolute, unique, unchanging and eternal family, centered on true love. Human beings were to be the substantial embodiments of love, totally united with God in heart, and obtaining perfect freedom, happiness and the realization of all ideals. Then they would have become the lords of true love whom all beings in the universe would have loved and welcomed. This was God's third blessing (Gen. 1:28). This is the blessing to create a living environment in which we experience joy and happiness, having dominion over all of creation. This includes the care and preservation of the world's ecological balance as true stewards of the creation.

Tragically, our first ancestors could not inherit the three blessings of God and establish the family of true love. That means they did not become true individuals, true spouses, true

parents and true lords centered on true love. Because they disobeyed God, he expelled them from the garden of Eden. As fallen people, they became false spouses to each other with false love that had nothing to do with God's blessings. They gave birth to children and those children multiplied to populate the world of today.

Since the Fall occurred at the very beginning of human history, people have not been born on the foundation of true love, in attendance to God. Instead, we have lived in a state of conflict, struggling between our minds and bodies. This conflict manifested in the tragedy of hatred and murder between two brothers, Cain and Abel, in the first family. This was the miserable reality in that family once it departed from God.

A family built on human relationships alone cannot become a family of the original ideal of creation. An ideal family must connect to God vertically and have a true person as its axis. Only under the true love of true parents, and among siblings who have and share a common axis, can a family enjoy relationships of ultimate harmony and peace. True love is experienced within an ideal family that bears good fruit. The family is the original and best school of love. Neither power nor knowledge can create true love.

Disintegration of the family

Honorable leaders! What do you feel when you look at the reality of our society and the youth in our contemporary world? Do you feel hope for a bright future? I believe that you must agonize over the increasing rates of crime, violence, drug abuse, immorality, corruption, teen pregnancy and so forth. These arise out of a confusion of values, and portend greater darkness enveloping our youth.

How did we arrive at this point? Better school systems and social improvements might have delayed the onset of these problems, but would not address their fundamental cause, which is the breakdown and loss of our families. This breakdown is a product of the time we are living in, a time when humankind is harvesting the fruit sown when we lost the first family of true love.

It was that family's failure to realize true love that has led to phe-

nomena Associated with family breakdown, including individual breakdown, as well as countless problems on the national and worldwide levels. Of particular concern is the emotional instability of youth, which leads to diminishing life goals, spiritual aimlessness, and unhealthy, self-destructive lifestyles. World leaders who are concerned about the future have to be very serious in order to solve the real problems of young people avoiding marriage, rampant divorce and so forth; trends that destroy the fundamental foundation of families.

Having lost the first and second blessings, humankind does not understand the importance of completing one's individual growth, which is the foundation for sacred and eternal conjugal love. Most of our young people are not aware of the importance of keeping purity before marriage and reaching personal maturity through true love. This is why they do not understand the value of true love, which is the fundamental root of joy, happiness and all ideals.

The tendency to make light of trust and fidelity between husband and wife and to ignore the sacredness of marriage is an internal cause of indescribable disasters and tragedies for humankind. True love has been driven out by the so-called free love culture, in which people seek only sexual release as the cardinal yet momentary pleasure. The rapid spread of HIV/AIDS and sexually transmitted diseases threatens the very existence of the human race.

It is said that there is no safety zone against the AIDS virus. A greater terror than the terrorism from which the entire world has been trembling is before us. Once contracted, its victims must give up their dreams for happiness, ideals and life itself. Unless we resolve this catastrophe plaguing our planet, how can we consider ourselves leaders?

Nor have we taken responsibility for the third blessing endowed by God, to "have dominion over the creation." This requires that we take care of all creatures with true love. What would happen if the natural world were to rebel against the abuse and misuse it suffers at the hands of human beings who lord over it? Are not those symptoms beginning to

Father and Mother at the New York City event accepting a gift following the launch of WANGO and IIFWP.

appear? Before the natural world punishes our intolerable arrogance we have to stand before nature in true love as people of restored integrity.

Respected leaders, in order to examine today's problem at a more fundamental level, I would like to consider the relationship between the true "I" and the true "we" in the context of God's ideal of creation.

As a result of the Fall, human beings did not achieve the position of the true "I." For this reason, God has never been able to use the word "we." That is to say that God has never been able to stand within the realm of the consciousness of his ideal of creation and establish a relationship that would allow him to say, "This is my creation" or "This is my child."

So our present concept of "I" has no relationship with the original ideal of God's creation, and it is for this reason that we have to deny ourselves absolutely.

God has conducted his providence so that he could establish true men and true women, that is, his sons and daughters, whom he could freely include within his concept of "we." Because God is the subject partner of love, life and lineage, he sought true sons and daughters who would live eternally with a complete and unbreakable standard.

To achieve that, we first have to perfect our individual character through uniting our mind and body and, on that foundation, to build a vertical parent-child relationship with God. A vertical relationship by itself, however, is not sufficient to bring the word "we" into being. We also need to create a horizontal relationship in harmony with the vertical. To do this, man and woman must form a true husband-wife relationship through a Blessed marriage, bear children, build a true family and form a four-position foundation involving three generations. Only then will God use the word "we" with reference to individual character reference to a family unit.

How, then, can we advance to such a position? God created all things from a position in which his mind and body were completely one. His creation was an act of total investment involving absolute love and absolute faith. There was no possibility that he would consider his own interests or situation. This was the fountainhead of love that seeks to give one hundred percent and then still continues giving. This is true for God and it is true for our families as well.

Parents, who stand in the position of God, have to invest themselves completely and absolutely with true

love. In terms of the logic of origin-division-union, they give birth and rear children from the position of the origin, thus establishing a vertical axis for the concept of "we." If the husband and wife, who stand in the position of division from the origin, become one with each other based on true love, they will establish the horizontal axis. Then the children, who are in the position of union, will align themselves automatically with the vertical and horizontal axes and become one; they will establish a new axis reaching from front to back. There will be an original family that accomplishes this, substantiating the concept of "we" that is complete vertically, horizontally and front to back.

This is the reason the family is so important; it is the most valuable gift given to us from Heaven. If the environment we call the family did not exist, how would we establish this absolute standard of "I?" If not for the family, we would never even dare to think of a "we" that is complete vertically, horizontally and front to back. The cradle of love, peace and happiness is nothing other than this family. 

The full speech is in Pyeong Hwa Gyeong, Book 1 Speech 10.

Welcome the Year of the White Ox

True Mother delivered this speech at the 2021 Cheon Il Guk Leaders' Assembly on January 8.

Clockwise from top left: True Mother cutting a congratulatory cake during the 2021 Cheon Il Guk's Leaders' Assembly; Wonju Jeong McDevitt, chief of staff of True Mother's Secretariat, and Young-ho Yun, director-general of the FFWPU International Headquarters, presenting gifts to True Mother; True Mother speaking to the top-tier leaders that had come together virtually for the leaders assembly

Leaders and blessed families of Heavenly Parent's Holy Community around the world: What determination have you made this New Year, the year of the white ox? I pray that Heaven's protection and blessings will be with you in abundance.

For people living in agrarian societies, the ox [or cow] is an animal that lives closest to human beings. Many families raise animals, but the ox is the only animal that throughout its entire life offers everything in service to humankind. A particular point is the one unique sound that oxen [or cows] make. In Korean, we express the sound of a cow as "eum-maeh." I understand that in the West, the sound of a cow is more like "moo." Don't you see the difference here?

The Korean people, in particular the Korean language, can express the sounds of nature as they are. It is a very scientific language and alphabet. English has too many words and

Chinese has too many different sounds. Hence, when it comes to storing files [in a computer], particularly in this Internet age, the people of the world have come to recognize that the alphabet that can store the most content easily is the Korean alphabet. How greatly Heaven has blessed this country!

The six-thousand-year history through which God carried out his providence to find his lost children and realize his dream, has been such a difficult one. Due to the Corona pandemic that is affecting the entire world, family members cannot meet; nor can a community or nation come together. This is a big stumbling block on our path to unity, and it has given rise to many problems.

But are you aware that only our Unification Church families within Heavenly Parent's Holy Community are the hope for this country and for all humanity? I will song a children's song I used to sing when I was a child.

Little calf, little calf,
O little white calf,
Mommy cow is also a white cow.
You resemble your mom.

Do you know why I sang this song? Only by becoming one with True Mother, God's only begotten daughter, and only by becoming people that resemble their mother, can we have hope today and in the future, and can Heavenly Parent's blessings remain eternal. I sincerely hope, therefore, that you will all become proud blessed families and cheonbo families of the Unification Movement who fulfill their responsibilities and continuously expand our Heavenly Parent's realm.

As you advance toward the day you can hold feasts every day on the foundation of your results, you'll come running when I call you, won't you? May your families and countries receive eternal blessings and good health. 7

Bring Light to This Dark World

True Mother presided over an online special meeting from the HJ Cheonju Cheonbo Training Center, during which she addressed pastors in Korea on Wednesday, December 30.

Dear church leaders of a heavenly, unified Korea! I am pleased to see you. I have been looking forward to this day with great anticipation. Everyone's heart is filled with joy at the sight of the stars shining in the night sky and the rising sun at dawn. Now is the time to talk about the hope of living in a new day.

However, when you look at the weather today, the spread of fine dust prevents us from experiencing those moments of joy from the past when we could admire the stars in the sky. Nevertheless, yesterday and today, December 30, the moon has been bright.

Today, you will be presenting

- ① Leaders in all areas of heavenly Korea listen attentively as True Mother speaks to them
- ② Rev. Jin-tae Joo (foreground) and Rev. Young-bae Park, directors of regional group one and five, respectively, of heavenly Korea, presenting flowers to True Mother
- ③ Dr. Young-ho Yun, director general of the FFWPU International Headquarters was the master of ceremonies
- ④ Chief of Staff Wonju Jeong McDevitt, of True Mother's Secretariat, read the hoondokhae message.

reports on the results of activities of which you have been in charge until now. I would like to talk about the "feast of stars" among church leaders in the eighth year of Cheon Il Guk. I prefer the term "party" to "festival." A party brings a feeling of joy. It reminds me of a future filled with hope. I would therefore like to listen to your various reports in a celebratory atmosphere.

I can't wait to see your winning

star grow and develop even more, so as to shine brightly on this dark world. You can do it, can't you? That is why, in order to make Heaven's blessed, heavenly nation into a heavenly, unified Korea serving Heavenly Parent and a nation that can embrace the whole world by standing at the center of providence, I ask you once again to exert effort that will bear much fruit. You will, won't you? ㄹ

This Time Will Never Come Again

True Mother delivered this address on January 25 from Cheon Jeong Gung to pastors throughout Korea.

Pastors from the five Korean regions, each designated as a heavenly nation, entertained their fellow leaders on January 25. They are arranged in order with region 1 at the top.

The COVID-19 pandemic meant leaders were unable to meet in person.

I am happy to see you all! Our Creator and Heavenly Parent waited for six thousand long years to see this time in the providence, this one day. How much God had waited to see this day, the day when his providence comes to completion! God's dream, our Creator's dream, was to live with his children on earth, in continuous celebration with them. He dreamed of an eternal world in which he could live with his children after they completed their earthly lives.

All living people have dreams of their own. Blessed families, who know the providence and have been reborn through the True Parents, however, dream of living with Heavenly Parent and True Parents on earth, of sharing deep affection and love with their children and of ex-

tending their joyful lives into the eternal world. Blessed families live on earth with this hope.

It was through True Parents that for the first time in six thousand biblical years we were able to create an environment in which we could substantially attend Heavenly Parent on earth and thus victoriously conclude the eighth year of Cheon Il Guk. Therefore, the mission of chosen leaders—those in positions of responsibility, particularly those in Korea—is great, as they are preparing for the day when we can dedicate the Cheon Il Temple, in which we can attend Heavenly Parent substantially on earth.

Only when this country becomes a nation that truly attends Heavenly Parent will this model be completed. If there are mountains to surmount in

order to establish a nation in which people attend Heavenly Parent at all beginnings and all ends, every day, you must educate the current leaders of this nation. In the past, the people of Israel, whom God had blessed, made way for God's only begotten son to be born. Yet in the end they could not fulfill their responsibilities.

Likewise, this country made possible the emergence of True Parents, who could finally bring about the completion of God's providence after six thousand years. If this country fails to become one with True Parents, it will not be able to achieve its dream. Heavenly Parent's dream, humanity's dream and True Parents' wish...

As Heavenly Parent's homeland, this nation should be able to fulfill its responsibilities in front of the world. This is not a time that comes more than once. As you have promised, in the next twenty-five days until True Parents' Birthday celebration, all leaders must, without fail, achieve results about which you can say, "I have completed my responsibilities!" You must show them. I am saying that you must ensure that your devotion and hard work is appropriate for this time. And I believe that you have all resolved not to be leaders who make Heavenly Parent and True Parents wait any longer. Can I trust that you will not simply make a determination to fulfill your responsibilities, but that you will show actual results? That day must not be delayed in coming. The more you advance the better it is. Please prepare for a festival of the stars that God can truly celebrate. 

A Year of Three Great Miracles

These are excerpts of a presentation the writer delivered on January 3 at a New Year's Special Joint Service of Heavenly Parent's Holy Community and Heavenly FFWPU-Korea.

By Young-ho Yun

Greetings, beloved Cheon Il Guk leaders and blessed families. It is a delight to see you all looking healthy. I have missed you. Since yesterday, and throughout today, True Mother continuously offered much devotion for this joint service. From early this morning, she prepared herself to look her most beautiful, and she is attending this service together with us, one in heart, even though we are all separated from each other in terms of space.

This year marks the first year of the new course headed toward 2027. When I look back upon the past year, I feel that it has been a year of three great miracles. The first miracle is that the firm establishment of Cheon Il Guk has been realized through the revival of seven nations, seven religious orders and a continent.

In 2013, True Mother opened the gate to the Cosmic Nation of Peace and Unity. Its firm establishment has finally been achieved on the level of a heavenly nation and heavenly continent. The second miracle is that since Cheon Il Guk is the kingdom of our Heavenly Parent, the firm establishment of Cheon Il Guk signifies the settlement of our Heavenly Parent. That is why True Mother could proclaim Heavenly Parent's Holy Community on May 8, and she bestowed the title "cheonbo," "Heavenly Parent's treasure," on those who have fulfilled their heavenly tribal messiah mission. The third miracle relates to the coronavirus. It seems this pandemic will never end. That True Mother spoke of a new digital platform a decade ago [which we successfully used during the pandemic] and said that this is the age when everyone is just one second away from one another is remarkable. Before we held the Rally of Hope four times, True Mother said on May 8 that we need to make at least a third of the world's people know about God and attend him. This will be difficult to achieve. A third of the 7.8 billion population is more than two billion people.

But we created a platform for the Rally of Hope, and 150 million people viewed the first rally live on August 9. Though the platform, PeaceLink, was created later, the event was broadcast live both online and by national broadcasting stations. The second Rally of Hope took place on September 27 and 250 million people viewed it. Don't be surprised to learn that 310 million people viewed the third Rally of Hope on November 22. The three Rallies of Hope, excluding the one for Christian Clergy, were viewed live by a total of 650 million people.

True Mother who said, "On the foundation of the victory of 2020, march forward with me toward 2027" True Mother is carrying us on her back and is taking this path together with us. We must think we are Mother. I am True Mother. I must walk with Mother's heart as if I am True Mother. We must not look to the left or right. We must walk only united with Mother.

Our seven-year course is to go forward until the firm establishment of a heavenly, unified Korea and the firm establishment of a heavenly, unified world emerges, thus opening the heavenly cosmos. True Mother has proclaimed the firm establishment of Cheon Il Guk through the victory of the

Director General Yun delivered this address from the HJ Heaven and Earth Cheonbo Training Center to a virtual audience throughout Korea.

seven-year course. The firm establishment of Cheon Il Guk is the firm settlement of Heavenly Parent.

In the [English] Divine Principle, pages 285—286, True Father said that Christ at the Second Advent will begin by laying the family foundation for the Messiah. He will then expand this to the clan, society, nation, world and cosmos. When this foundation is secure, he will finally be able to build the kingdom of heaven. True Mother is carrying out this perfect plan through the last seven-year course and this next seven-year course.

Preparation for True Parents

At the WCLC Rally of Hope, True Mother spoke about John Calvin in 1543. We call the period from Luther's reformation in 1517 to the end of World War I in 1918 as the 400-year Period of Preparation for the Second Advent of the Messiah.

In the church theory back then are references to the church as the "Mother Church." True Mother regards the period between 1543 to the Cairo Conference in 1943 as the period of preparation for the birth and first advent of God's only begotten daughter. Hence, the Period of Preparation for the Second Advent of the Messiah can be interpreted as not only the preparation period for the second advent of God's only begotten son, but also as the preparation period for the first advent of God's only begotten daughter and the advent of the True Parents.

It isn't just this period. True Mother prepared everything centered on our Heavenly Parent, beginning with information about the process from six thousand years ago and the purpose of Jesus' coming on earth. She is planning to compile all this material as the scripture of the Heavenly Parent's Holy Community.

Mother was in a great hurry to begin the providence by June 1 because a heavenly, unified Korea needs to be realized. The twenty-one months until February 2022 consist of formation, growth and completion periods of seven months each, and Mother asked that the course of twenty-one months begin with our laying a foundation of sincere devotion. Until the end of December, our leaders and other members in heavenly Korea offered devotion together [a weekly night prayer condition] which we offered victoriously.

To achieve the settlement of a heavenly, unified world by restoring a third of the world's people, we also launched the Rallies of Hope. Everyone said we wouldn't be able to do it. Yet we had been planning this platform since February. In six months, we created it. It is okay to be proud of this. What religion, which country, which organization can move billions of people around the world and give them hope? Mother is the only one who can do it. I truly believe that one hundred percent.

The nations' presidents that had been featured in the beginning are now saying they want to come back again. However, these Rallies of Hope for the Realization of a Heavenly, Unified World are the platform for the six Rallies of Hope for the Realization of a Heavenly, Unified Korea, to be held next

year. Everything will be focused on Korea and on Mother.

After we had finished our February events, starting in April, people in sixty thousand locations around the world participated in our conferences online. That foundation is how we did four Rallies of Hope.

Healing divided nations

Starting from the third Rally of Hope, we launched the vision for a heavenly, unified Korea in conjunction with the seventieth anniversary of the start of the Korean War. At that rally was the president of South Sudan. South Sudan and Sudan were always in conflict. Their civil war could not be solved. The Pope called their leaders, Muslim and Christian, kissed their feet and asked them to make unity, but they did not. It was a religious conflict.

Do you know who brought them to unite? It was Mother. We do not have a Unification Church in South Sudan. There is no UPF there. True Mother made it happen. Therefore, South Sudan declared the Juba Peace Agreement in front of the entire world. Mother then presented the two leaders with the Good Governance Award. This was broadcast live around the globe. South Sudan is also the homeland of UPF vice president Dr. Tageldin Hamad. Isn't that a miracle? This could not have been possible through human power. Didn't Mother also tearfully lament that we must create a completely new and united America? "Forgive and unite." Why does she say that? Only when America unites can Korea also unite. A heavenly, unified Korea is possible when we achieve a heavenly, unified America.

In November 1620, the Pilgrim Fathers came to America on the Mayflower in search of religious freedom to attend Heavenly Parent. Exactly four hundred years later, in November 2020, Mother decided to visit the United States. The coronavirus situation there was bad; it was not a good time to go. We tried to dissuade her but she insisted. Mother said we needed to help America for the sake of Korea.

Painful efforts to restore stolen assets

One important milestone last year was in the UCI court case. Ten years have passed since the case began in 2009, while True Father was still with us. These ten years have been a difficult time for our Unification family. We didn't want to hear the initials UCI. Unification Church International! True Parents set it up in 1980 to support our Unification Movement around the world, yet its proud name was reduced in a way we could not have expected. Moreover, they deleted the parts of the Articles of Incorporation that referred to supporting the global Unification Church and disseminating our Divine Principle teaching. How many public assets did they sell? Whose are these public assets? They are the public assets True Parents use for their work for our Heavenly Parent. UCI sold these off and took the proceeds. This has been going on for nearly ten years.

Was it necessary to sue to recover these huge losses? Should we have done that? Why should we have? There was a lot of criticism. I also received a lot of criticism. But Mother was steadfast in her resolve.

There was also a summary judgment on October 30, 2018. This past December 4, the court judgment was published. They must restore the Articles of Incorporation to their original form. UCI has to restore the name to the original name. Directors are to step down and be replaced. And the assets they sold must be returned.

Do you know of the blood, sweat, and tears True Mother has shed behind the scenes? True Mother had to go to the United States because of the UCI case. When the deposition video with True Mother came out, some people said, "Did True Mother really have to go that far?" I was criticized as well for this. However, True Mother had to go. True Mother did it for True Father. Not only is the return of our public property important, but those on the other side were making issues with True Father's health. True Mother went there and testified that True Father was in good health and ascended after having achieved everything.

That was in December 2017. The situation was heart-breaking. Amid such a dire situation, True Mother came out from the courtroom. She had no strength whatsoever left in her. True Mother had missed a meal. She ate a cold hamburger and then set off on the five-hour journey from Washington DC to New York. She didn't say a word during the journey.

By then, I had personally received so much slander and criticism that I was thinking of quitting. I felt I would simply be a burden to True Mother. However, as I saw True Mother in this state, and as I watched True Mother carry the cross, I asked myself, "What can I do?" I resolved to attend True Mother no matter how little power I had. I asked Mother, "Mother, why is it that you took on such a difficult course after True Father's Holy Ascension? You could have easily chosen to live comfortably and could have compromised. Why did you choose to take the hard way?" True Mother then said, "Because I am Mother! Because I am Mother!"

Everyone, do you remember this title, "Because I am Mother," from one of the musicals? True

On May 24, 2019, these sixty Starlink satellites were in the cone atop a Starlink Falcon 9 rocket. The cone has opened to deploy them. They are part of a constellation of at least seven hundred and eighty satellites that will provide Internet access to people on the earth. In the following weeks, under their own power, the satellites spread out over a great distance until each was in its assigned orbit.

Mother took on this course because she is our Mother. True Mother is following this course for True Father because she is our Mother. After True Father's Holy Ascension, whether it snowed or rained, she embraced us and loved us lest we became discouraged. Though she longed for True Father herself, she did not show it and continued on this path.

Let us all watch a video before continuing with today's strategy session.... As you saw in the video, with the blowing up of the inter-Korean liaison office [a de facto embassy paid for by South Korea, built on North Korean territory], we realize that the unification of North Korea and South Korea will not come about by human effort alone. That's why True Mother gave these five Chinese characters, "*shin tong il han guk*," a heavenly, unified Korea! This is our vision and strategy. How will we view the unification of North Korea and South Korea in the light of international relations? A unified Korea cannot be achieved by the two Koreas alone. Let's watch another video....

The world is rapidly evolving

What you just saw was a video about the inventor Elon Musk and SpaceX Corporation, which launched Falcon Nine spacecraft. What's different is that, in the past, it was so expensive to launch a spacecraft. But here they are being "recycled." What you just saw were spacecraft that went into space and returned. In the past, the cost of sending one spacecraft into space was 600 billion to 1 trillion won. But this is now being reduced to one hundredth of the cost. Because of this reduction in cost, we will now be able to send many more satellites into space. SpaceX plans to send 12,000 satellites into space by 2025. Until 80.4 km above Korea is considered to be Korean air space, and Korea has the right to defend this space. It is Korean air space. However, space begins at 80.5 kilometers above the earth. SpaceX satellites will orbit at 550km.

SpaceX makes Starlink. Because of Starlink satellites, the Internet will be available even at the top of the Himalayas. It is because of the Internet that you and I are having a non-face-to-face meeting today. Soon this will be possible even on the top of the Himalayas.

Additionally, digital currency is possible because we are in the age of the Internet. What has our paper money meant so far? Paper money was meaningful because it was backed by gold. And even though Nixon withdrew from the gold standard, the dollar was recognized as a key currency because the US backed it. Now, in the Internet era, digital currency is coming into the market. A digital currency has already been tried in Korea, and China has already created a digital yuan. This is the beginning of a new single economy. The beginning of a single bank. As for passports and ID cards, LG Korea is making a single ID card for everywhere in the world. This is what is happening now. So, this single platform that has been transformed by a digital and Internet reformation has now become a new platform creating smart cities, Artificial Intelligence, and so on.

Caring for young people

The True Family Academy will be central to performing cheonbo training and within that, the Hyo Jeong Hak Dang [providers of educational material] will supervise the True Children's School. From the time a child is conceived, True Mother said we should create a cultural agenda starting from prenatal education to elementary, middle and high school and university education. On October 16, 2016, I was appointed the director of the Hyo Jeong Culture Center and have worked on this project together with YSP.

Starting three years ago, we made True Mother's life story into children's books. We made a series of seven books that are appropriate to read before and after a baby is born. Next, with these books we made children's songs according to topics. Another book is a "talking" book, in which we put together songs with a story. If you press the button at the beginning of the chapter, it reads the story to you and sings the songs.

True Mother is strategizing how we can bring others to us in ways that appeal to the people of the world through cultural content such as study guides, animation, or media based on a heart of filial piety. Just like the folktale of Shim Chung, stories about filial piety exist all over the world, though that term may not be used. So we are bringing together all the stories of filial piety from regions such as Africa, Europe, and Central and South America to create an animation and ultimately a video with our character named Hyo Jeong called "Let's Play, Hyo Jeong." We even created character dolls, merchandise and a study guide.

In this way, we will bring together such media content to create a sophisticated cultural information center. It means that it will not be the church that witnesses to young children and middle school and high school students; instead, we will create a new culture center for witnessing, where our youth and students will witness and connect people to the church.

To that end, True Mother is already preparing a place in Hanam, a complex witnessing culture center called HJ Family Café. Parents will accompany their children when they go to a kids' café, which will provide such materials as home-study materials, books for children, educational programs, animation and even MCN (Multi-Channel-Network). Thus, YSP will fully educate young people in terms of culture through this HJ Family Café, this witnessing culture center, to cultivate leaders who can contribute toward the heavenly, unified Korea.

Find your dream

You will probably see the Little Angels movie in theaters next year. We are preparing for the heavenly, unified Korea based on such a cultural agenda. Some 12,000 from our second generation do not come to church at present. When Mother learned of this, she asked us to bring our young people back, and that is why we began the Find-Your-Dream Camp. There has been some delay due to the coronavirus, but we will continue hosting it. We will try to bring back our young people who are not coming to church. We, and particularly our second-generation members, are making preparations to make this dream of bringing a hundred thousand youths together a reality.

The complex cultural centers we build will hire our young people 100 percent, and they will in turn dedicate themselves to educate and guide our young children and middle school and high school students. All of this is a part of True Mother's strategy for a heavenly, unified Korea. By 2023, Mother will complete the environment of the Cheon Il Guk capital city and launch the Cheon Jeong Won [the executive branch] and Cheon Beob Won [the judiciary].

There is also the international village, of which True Father spoke many times. It will be constructed by 2023. And Heavenly Parent's Hotel will be built in 2023 next to the Peace World Center in the Cheon Won Complex. Mother also plans the HJ Revival Family Park Plus One, a headquarters for very young children, to be built where the Training Center parking lot now stands. She is preparing all that for the second and third generations, the future generations that are growing up. In addition, we will focus on the three strategies of mission work, peace work and leadership training from 2023 to 2027, based on the three axes of witnessing, creating the environment and training new leaders. Thereupon, we will begin holding Blessing Ceremonies and summits on the regional level to restore a third of the thirty-nine districts across the world. We will begin this project in May 2022 in West Africa.

Beloved leaders and other members, the new truth, the new wine, has already been announced through the blood, sweat and tears of True Mother, and the new wineskin that will hold the new wine, in other words, the Heavenly Parent's Holy Community, has been launched. And we are gathered here today at the New Year's Sunday Service to make our resolution and determination to create the foundation for firm settlement, which will serve as the basis for a heavenly, unified Korea, working toward the successful conclusion of the second seven-year Cosmic Canaan Course based on Heavenly Parent's Holy Community. We have hope because True Mother is with us. We can do it because True Mother is working together with us. We can achieve it because Heavenly Parent is with True Mother. 

2021 CHEON IL GUK LEADERS' ASSEMBLY

2021 천일국 지도자 총회

Cheon Il Guk Leader's Assembly

Strategy Presentations Heavenly Korea

THE SUBSTANTIAL HOLY SPIRIT IS WITH US

By Gi-seong Lee

Hello, dear leaders from all over the world. I hope the grace and blessing of Heavenly Parent and the True Parents of Heaven, Earth and Humankind will always be with you throughout this new year 2021. 2021 is the year of the white cow. The cow traditionally symbolizes the mother, and because it is a white cow, it symbolizes the Mother of Peace. Therefore, I believe that the new year will be the year of God's only begotten daughter, True Mother. Thus, we hope that all the leaders of heavenly Korea will be completely united with True Mother and perform miracles through the substantial Holy Spirit.

Dear world leaders!

True Mother, who successfully accomplished Vision 2020, implemented on June 1 of last year a new seven-month strategy to go to the front line by appointing regional leaders as commanders-in-chief. So, while everything seemed to be slowing down in the five regions of Korea due to the Covid-19 pandemic, the various regional leaders continued their unrelenting efforts and presented satisfactory reports every week.

And each week, from region 5 to region 1 (148 times) more than a total of 310,000 members participated in a special condition, an online devotion through the Cheonshimwon.

On this victorious foundation, on January 1 of this year, we began the second seven-year cosmic course. In the meantime, our Mother appointed five people as heavenly Korea's co-national-leaders. In addition, centered on the FFWPU International Headquarters, True Mother has merged the FFWPU-Korean headquarters and the HJ Cheonju Cheonbo Training Center, through a revolutionary reorganization that will allow us to move forward with conviction toward achieving our goals.

When we look to the word, in *Cheon Seong Gyeong*, we read, "I am happy even in a storm on the road with True Parents."

Heavenly Korea will absolutely win the victory. The reason is that the substantial Holy Spirit, True Mother, has affirmed that if we believe in her and follow the same path, all will be well. We would be grateful if you could nurture much hope

by listening to the reports of the leaders of heavenly Korea and encourage them with loud applause. Thank you. 

Rev. Lee is the chair of the Cheoneuiwon-Korea and president of the Cheonshimwon.

REVIVAL OF THE SEOUL METROPOLITAN AREA

By Jin-tae Joo

Heavenly Korea special regional group sub-region 1, by uniting its three axes, FFWPU, UPF, and YSP, aims to create an environment for the substantial revival of the country by having all blessed families achieve forty-three couples, so that the “foundation for the settlement of heavenly unified Korea” can be created in Seoul and Incheon by February 2022. More essentially, the fundamental purpose is for the cheonbo families, who achieved “the completion of the citizens of Cheon Il Guk,” to perfect the three great blessings, the four great realms of heart, and their spiritual bodies.

Spiritual and practical steps

We will build an “altar” through online early morning devotion, and on the first Sunday service of every month, the entire church will unite through the Hyojeong Offering Papers Branch Providence Service to push ahead with a spiritual-physical joint operation.

To strengthen YSP membership, we will conduct community-related volunteer activities, borderless study rooms, and environmental projects as part of the “altruists who grow together” project, and youth and students in the Seoul-Incheon area will bear fruit at the YSP assemblies held every week at our Youth Center in Seoul's Cheongpa Ward.

Second, we will strengthen worship services, education and ministry to expand FFWPU's youth membership. Since a process of transformation so that they can accept True Parents as the messiah is absolutely necessary, we will educate them with four contents: unification principles, True Parents' life course, the Blessing, and their calling.

We will become one in purpose, strategy, and action with True Mother, who for the past eight years has shown us miracles through her works as Heavenly Parent's only begotten daughter, the substantial Holy Spirit. We are strongly determined to repay her by restoring the Seoul metropolitan area of the heavenly Korea special regional group. 

Rev. Joo is the regional group director of heavenly Korea's Sub-region 1.

THE CENTRAL REGION THAT LEADS THE UNIFICATION OF HEAVENLY KOREA!

By Bo-guk Hwang

The vision of FFWPU subregion two is to build a world of a great cosmic family under Heavenly Parent. Our core value is to become the central region of unity by mobilizing the spirit world centered on True Parents, transforming the world by the truth and achieving unity with true love.

The medium- and long-term goals of subregion two center on the second seven-year cosmic Canaan course and aim to build a substantial foundation by creating an internal and external environment through the first three-year course and to conduct full-scale advancement to enter established institutions. We shall therefore achieve firm settlement of a heavenly, unified Korea by the sixtieth Heavenly

Parent's Day in 2027.

Our tactical approach

We shall manage our members through online contact-free church services and SNS with the motivation of expressing true love for them. We intend to concentrate on training the ministers and improving their ability to offer services and present lectures from the leadership's viewpoint.

One core strategy is to create a virtuous cycle for the development of faith in local churches. We shall put an end to the vicious cycle of new members coming in the front door and leaving by the back door by creating a faith development system that is led by a virtuous cycle of missionary contact–nurturing–blessing– and ministering to members.

Another core strategy is expansion of the heavenly village community movement. The heavenly village community movement, which is a *tongbangyeopa* [grass-roots-level] movement, is a substantial and effective activity to restore the local community.

FFWPU, YSP, and UPF in subregion two of heavenly Korea shall do our utmost to become the central region of unification that can lead the unification of a heavenly Korea by the three organizations forming a triple row and becoming a tight rope. *TP*

Rev. Hwang is regional group director of heavenly Korea's Sub-region 2.

MOVING AHEAD WITH A HYOJEONG CULTURAL OUTLOOK

By Gyeong-deuk Yoo

Heavenly Chungcheong will become one with the three main axes, FFWPU, UPF, and YSP, and under Heavenly Parents' Holy Community, will establish a policy to achieve the vision "Let's become heavenly Chungcheong that will lead a heavenly, unified Korea and a heavenly, unified world through development into filial citizens of Cheon Il Guk through the Holy Spirit and the truth."

Our FFWPU established four core policies—jeongseong, competence, witnessing and blessing—for the settlement of Cheonbo Family Churches and to realize church growth through the true family movement Blessing Ceremonies.

First, we are establishing Cheonshim prayer roomss in all churches, establishing prayer-vigil jeongseong and early-morning hoondok jeongseong, in which blessed families can cooperate with us. We are distributing pictures for Cheonshim prayer rooms to all families to inherit the foundation of jeongseong.

The main strategies are first, pioneering and expanding our connection with new locations. We will inherit the early church members' traditions and create a space, a cultural community, suitable for modern times to take the lead in the settlement of Cheon Il Guk. Second, focusing on the educational materials produced by the hyojeong school, we want to bring innovation in future-generation education within the Unification Family. Third, we will conduct character education necessary for the home, school, and society through volunteer activities and campaigns. Fourth, we will systematically take root within the community using sincere YSP activities as a means.

Through these continuous activities, in cooperation with educational institutions, public institutions, and local organizations, we will lead all volunteer activities with a hyojeong cultural outlook. We will register YSP as a club in all universities in the Chungcheon area and connect via MOUs with university-affiliated volunteer centers to reach the stage that the public trusts YSP.

In line with True Mother's teachings, heavenly Chungcheong will become one with FFWPU, UPF and YSP, and we will be victorious in restoring the nation by 2022. *TP*

Rev. Yoo is the regional group director of heavenly Korea's Sub-region 3.

A LOCOMOTIVE TO COMPLETE THE SETTLEMENT OF HEAVENLY KOREA

By Sang-jae Lee

In 2013, True Parents made Cheon Il Guk Foundation Day and proclaimed the firm settlement of Cheon Il Guk by winning victory over the first Cosmic Canaan Course. As the era has come in which Heavenly Parent can firmly settle on earth, True Mother has opened the age of Heavenly Parent's Holy Community and is carrying forward the ideal of a cosmic family under our Heavenly Parent."

We shall promote Blessing Ceremonies for single candidates and develop a family happiness policy to establish "happy families." Through the Family Happiness Committee, we shall make a comprehensive plan for the blessing, find single candidates, and consistently conduct hyojeong matching festivals. We will reinforce education for parents of single candidates and revitalize blessed family communities for the settlement of newly blessed couples. Based on these various activities, we will carry out blessing ceremonies hosted by organization heads to popularize the marriage blessing and to obtain the settlement of the true family movement.

Expansion plans

The department of culture and art will promote culture and art welfare activities of multicultural citizens and North Korean refugees. The women's department will conduct activities to strengthen networks of female leaders.

YSP subregion four, which is in charge of the youth in subregion four will establish pipelines to cultivate future human resources and develop and disseminate educational content. They will also conduct programs to cultivate Korean Top Gun youth, develop hyojeong schools and train future generation leaders. They will strive to train future leaders armed with sincerity, durability, and professionalism through consistent education and organizational operation 

Rev. Lee is the regional group director of heavenly Korea's Sub-region 4.

WHEN ONE MEETS THE SUBSTANTIAL HOLY SPIRIT, DREAMS COME TRUE

By Young-bae Park

In the new year, pastors and their spouses, leaders and members of the heavenly nation of Gyeongsang, with the Beomnaetgol spirit, prayed together at the Rock of Tears to build a "healthy church full of the Holy Spirit and the truth." We tearfully prayed to create a movement for the revival of the essence of faith through dissemination of the Divine Principle and the inheritance and development of the works of the divine spirit, which are like the works of the cenacle, the biblical "upper room."

On January 27, 2021, the seventieth anniversary of Father's arrival in Busan during the Korean War, as jeongseong for the settlement of Heavenly Parent's Holy Community, a heavenly, unified Korea and the victory of Vision 2027, sixty-four churches heavenly Gyeongsang completed a 365-day relay vigil prayer, and leaders and members of the heavenly nation of Gyeongsang went on a holy ground pilgrimage to increase our empathy with True Parents' hearts.

After coming to the South, True Father passed through various towns and arrived at Choryang Station in Busan. We ruminated on the providential significance of the Busan course to newly establish the Christian foundation having been preparation for the foundation, after six thousand years, for True Father to meet

God's only begotten daughter.

Our plan to revive Gyeongsang is to carry out the five core strategies to reach the settlement of a heavenly, unified world and to achieve the realization of Vision 2027, with the effectiveness of the crane-wing formation used by Admiral Sun-shin Yi (1545–1598), on the foundation of the Holy Spirit and the truth, which was the Beomnaetgol spirit on the seventieth anniversary of the Busan Arrival. The core value for restoring the nation is the spirit of that time, the Beomnaetgol spirit and the daffodil spirit.

First, in cooperation with UPF, we will establish a grassroots education system and a foundation for the unity of North Korea and South Korea. Second, we will increase witnessing and establish an environment for national restoration through distribution of True Mother's autobiography. Third, we will strengthen the church through successfully blessing engaged couples. Fourth, in cooperation with YSP, we will bequeath our traditions to young members, future leaders.

In addition to these five core strategies, detailed tactics are being carried out, and we are fully investing ourselves into thinking beyond Vision 2022 and focusing as well on Vision 2027. With the spirit of daffodils, the flower of patience and victory, we will advance without ceasing and blossom as a daffodil garden.

Each regional leader will organize early morning hoodokhae by all members and offer a 120-day special jeongseong (February 15–June 14) for the victory of the heavenly nation of Gyeongsang Rally of Hope. We will build healthy churches, full of the Holy Spirit and the truth, and on that foundation, UPF will create the environment for restoration of the heavenly nation of Gyeongsang, and YSP will train future leaders that can move the nation.

When FFWPU (as our army) fulfills its responsibility for the settlement of three generations as a true family, UPF as our air force fulfills its responsibility of reviving the nation, and YSP as our marines fulfills its responsibility of training future leaders, we will complete the mission of substantializing the church, thereby making national revival possible.

On the foundation of the Holy Spirit and the truth, the heavenly nation of Gyeongsang will carry out the five core strategies for the settlement of a heavenly, unified world and the victory of Vision 2027 with the potent power of Admiral Yi's crane-wing formation. To revive the nation, we will bloom with the Beomnaetgol spirit and the daffodil spirit, which are the spirit of the times we are now living through. When a person meets a person, they might make history; when a person meets God, miracles occur; and when a person meets the substantial Holy Spirit, dreams come true. 

Rev. Park is the regional group director of heavenly Korea's Sub-region 5.

Strategy Presentation Heavenly Japan

INHERITING HEAVENLY FORTUNE

By Eiji Tokuno

Dear Cheon Il Guk leaders: Happy New Year! First, on Heavenly Parent's and True Parents' successful foundation, we will begin Canaan's new seven-year cosmic course for the realization of a unified heavenly world. I am infinitely grateful for this. I sincerely say thank you to Heavenly Parent and

True Parents, and once again extend my best wishes to leaders and blessed families around the world. I am the director of Cheoneuiwon Japan, and my name is Eiji Tokuno. This year I will again be at your service. After our wishes and resolutions for the New Year, I would like to present to you, in four points, what we are committed to achieving.

First, the secret of victory is to unite completely with True Mother. In other words, it involves inheriting immense heavenly fortune through God's only daughter, the True Mother. Therefore, to fulfill her wishes, we will be inspired by True Mother's heart and determination and how she thinks; in other words, we are to be in perfect harmony with True Mother and united completely with her. With this secret of victory in mind, we are determined to achieve victory absolutely.

Second, as the director of Cheoneuiwon Japan and with a parent's heart, I give my full support to the second-generation leaders established by Heaven, especially the continental leader Sang-il Bang; the president of the Family Federation, Tomihiro Tanaka; the president of UPF-Japan, Masayoshi Kajikuri and to the representatives of the third generation, in particular the continental vice-leader Hiroaki Takeuchi. All together, we will give our best for the total restoration of Japan.

Third, as the director of the Japan branch of the HJ Cheonju Cheonbo Training Center, we will raise awareness among all blessed families to effect the liberation and blessing of their ancestors. We will ensure that they fulfill their mission as heavenly tribal messiahs, and we will accompany them until they become victorious cheonbo families.

Fourth, on November 30 of this year, we will be celebrating the thirtieth anniversary of True Parents' visit to North Korea. Also for the great providential event scheduled for February next year, we will give our best, and we will give our full support for the restoration of Korea and the peaceful reunification on the Korean Peninsula.

I have just presented our main resolutions for this new year. To enable Japan, the mother nation of the providence, to fulfill her mission and responsibilities, I will give my best as the director of Cheoneuiwon. I will always be at your service. Thank you. 

True Mother announced Rev. Tokuno's appointment as chair of heavenly Japan's Cheoneuiwon and many similar personnel changes during the October 11, 2020 victory celebration.

HEAVENLY JAPAN'S VISION 2027 STRATEGY FOR THE SETTLEMENT OF A HEAVENLY UNIFIED WORLD

By Sang-il Bang

On October 11 last year, heavenly Japan started anew toward Vision 2027 with a new system, which True Parents had established.

As a special strategy for supporting the settlement of the father nation as a heavenly, unified Korea by 2022, first, Korean-Japanese and Japanese-Korean couples will support heavenly tribal messiah activities in Korea. Second, the more than one thousand international families in Japan will support international families in Korea and work with them through community exchange activities. Third, we will advance the providence to restore Korean residents living in Japan centered on the Universal Peace Federation, so that Korean residents in Japan and Korean-Japanese and Japanese-Korean couples can support Korea, the father nation, working hand in hand, to open the gates to the unification of North Korea and South Korea.

In order to achieve these strategic goals, heavenly Japan held a one-hundred-day "Special Jeongseong Course for the Victory of Vision 2027" from November 1 to February 8 last year. On the foundation of that victory, this past February 7, we were able to offer a Heavenly Japan Sunday Service of Hope, during which we

attended True Mother in person. True Mother sang a children's song called "Hal Mi Kot" [Pasqueflower], a song True Father enjoyed singing when thinking about Japanese members. True Mother said, "Let's make a strong determination to reclaim the great victory of restoring the nation and as the mother nation, create a miracle that can be shown to the world."

In line with the significance that True Mother attributed to the pasqueflower which is to "exhibit loyalty to the point that even the sad memories of the Fall disappear," heavenly Japan will move forward with the determination to victoriously restore the nation. Thank you. 

Rev. Bang is regional group president of heavenly Japan.

Strategy Presentation Heavenly United States

TRUE PARENTS HAVE ALWAYS DRIVEN THE PROVIDENCE

By Ki-hoon Kim

Today, as the chair of United States' Cheoneuiwon and chair of the World Christian Leadership Conference Inauguration Promotion Committee, I would like to report on the victory of the Rally of Hope to Celebrate the First Anniversary of the World Christian Leadership Conference and to Support the Realization of a Heavenly Unified World, which happened on December 5, 2020.

On that day, thirty thousand Christian pastors and leaders from other fields from all over the world attended and testified to True Mother's peace movement. True Mother moved each of them as she emphasized that as people chosen by Heaven, they should forgive the American politicians and create unity in order to fulfill their responsibilities.

The United States has been challenged by much confusion since its foundation.

I would like to commend True Mother because even for me, traveling on long journeys is very difficult; True Mother moved me by coming to the U.S. and making a three day jeongseong course to open a new path, which she announced with both a warning and encouragement. True Mother moves everyone. In the wake of True Mother's devotion, all the WCLC Christian leaders vowed, as chosen religious leaders, to become the leading religious figures and support the providence of a heavenly, unified Korea centered on True Mother.

Heavenly America is the forefront of Christianity, and True Parents have been directing the providence of the United States and the world as the true substantial Messiah for over forty years. True Parents directly educated thousands of original missionaries, people of faith, who took part in world missions. I offer thanks to East Garden family members, who have served True Parents for a long time and to the elder pastoral community, who build good stepping stones as a foundation for the formation of Cheoneuiwon in America. Based on their practical experience of actually serving True Parents, they will be the vanguard of heavenly America, which has an important position in the world in this era of a heavenly, unified Korea centered on True Mother. In the future, in accordance with guidelines of the FFWPU International Headquarters and Cheon Jeong Gung, like forsythia flowers in East Garden and daffodils in Belvedere, the Cheoneuiwon of heavenly America will bring hope by pioneering the providence of a heavenly, unified Korea and the

providence of a heavenly, unified world. 

Dr. Kim gave the opening prayer at the Cheon Il Guk Leaders' Assembly on January 6, 2021 and delivered this address on the same date.

THE 2027 VISION FOR THE FOUNDING OF HEAVENLY NORTH AMERICA

By Chung-sik Yong

Beloved Cheon Il Guk leaders! Over the next seven years, we will focus on seven goals to establish Heavenly North America. Our first goal is to set jeongseong conditions expressing sincerity through attending daily Morning Devotions. Our 2027 goal is to reach a hundred and twenty thousand total viewers. As part of our current foundation, we have over five thousand core members subscribed to our daily audio hoondokhae “Godible,” which is available as an app. Every week we have more than eight thousand five hundred viewers of our weekly region-wide Sunday Service.

Last year over eight thousand people completed “Chosen,” an online twenty-one-day docuseries focusing on True Parents’ life courses. Morning Devotion (online hoondokhae) started with thirty people, and over the course of seventy days, we now have more than seven thousand viewers, mainly from English-speaking nations, and a miracle of rebirth and resurrection is taking place with the amazing truth and the work of the Holy Spirit. Our strategy is to encourage members to invite their family members, friends, public figures and heavenly tribal messiah tribe members, to make videos for educational programs to establish a hyojeong hoondok culture and raise the citizens of Cheon Il Guk through the early Morning Devotion.

Training and dispatching young people

We’ve been raising powerful young leaders for the last seven years through various educational programs and leadership training. We have 2,600 young core members participating in YSP, Generation Peace Academy (GPA), CARP, and the Youth and Young Adult Ministry (YAYAM). The Cheon Il Guk Missionary Program has over thirty members and we will send them out through the FFWPU International Headquarters. Next Summer in July 2021, GPA will host the first ever Global Top Gun Youth Workshop in North America. We will invite all international young people to join the GPA program.

A new messianic role for clergy members

We will develop the Best Tribal Leadership Program and raise pastors who can play the role of John the Baptist. ACLC pledge to invest themselves in jeongseong to be able to reach key denominational leaders in order to raise influential pastors. We will educate key clergy members to successfully complete their heavenly tribal messiahship, such as Dr. Mark Abernathy, who has blessed over 1,700 couples in his church since 2010. In 2020, we introduced True Parents to 378 thousand people. We launched MotherofpeaceDOTcom to let humankind know that True Mother is God’s only begotten daughter. We also published Mother’s memoir, *Mother of Peace*, to make it as easy as possible to share her story. We are sharing it with local mayors and other political and religious figures. Last year, four hundred years had passed since the Mayflower landed in America. True Mother said that those years were the period for Christianity to receive True Mother and that based on this, proclaiming True Mother as God’s only begotten daughter is ACLC’s goal.

From communities to states

With this foundation, our goal is to bring 7.8 million people in North America by April 2020 and 124 million people by 2027 to attend Rallies of Hope, where they will hear testimonies about God’s only begotten daughter, True Mother. Through

UPF's six pillar organizations, we will reach North American leaders in all fields. We will focus on key influential leaders in the political realm including the president of the United States and former ones, the prime minister of Canada and former ones, as well as First Ladies from both countries. We will approach each key political influencer and appoint him or her to become ambassadors for peace for the sake of a heavenly, unified world. We plan to successfully restore each subregion by starting at the town or city level and proceeding up to the state level. We will provide all political leaders with systematized online proper education about Heavenly Parent and True Parents. As we continue to exponentially increase our impact on the population through top political leaders, we will celebrate True Parents as the Parents of Heaven, Earth and Humankind. In 2027, globally, we will be holding World Peace Blessing Ceremonies featuring a purity pledge and cross-cultural, international, interracial, interreligious marriage rededications, worthy of an entry into the Guinness Book of World Records and we can then nominate True Mother for the Nobel Peace Prize.

Support for True Parents' homeland

Another goal is to support a heavenly, unified Korea. Heavenly North America will help unify Korea politically, religiously, and through the media. Numerous organizations including the Washington Times Foundation and Women's Federation for World Peace have made efforts to help the two Korea's relationship. IAPP held a High Level Briefing in the Canadian Parliament on North Korea with expert presentations. CARP Korea, Japan and America held multiple events to bring awareness around the significance of inter-Korean unity. ACLC and KCLC held international prayers for a heavenly, unified Korea. UPF continues to hold several key online programs with political leaders on the reunification of Korea. All UPF's pillar organizations have advocating reunification. The goal is achieving a heavenly, unified Korea centered on True Parents and on the firm foundation of a heavenly North America that is living for the sake of the world. 

Dr. Yong is the regional president of heavenly North America.

Strategy Presentation Heavenly Africa

HEAVENLY AFRICA'S PROVIDENTIAL SITUATION

By Bakary Camara

Good afternoon, dear respected Cheon Il Guk Leaders. Happy New Year! Before I start, let us offer all honor and glory to our beloved True Mother. True Mother, thank you from the bottom of my heart for this opportunity to share about the actual providential situation of heavenly Africa. True Mother, your foundation is growing in heavenly Africa. Your everyday prayer and jeongseong, your love and care are making heavenly Africa brighter. In my presentation, I will briefly talk about the domain of preparing the environment.

Witnessing and raising future leaders

In terms of preparing the environment, heavenly Africa VIP-outreach is growing by the day. The providential organizations, UPF, WFWP and IAYSP are doing an extraordinary job. We have groups of political, religious and traditional leaders.

They are committed to joining in the implementation of True Mother's vision. With regard to witnessing, we are going to mobilize all our members for witnessing to grow the number of heavenly tribal messiah victors and the number of cheonbo couples. We will expand the Blessing Movement in heavenly tribal messiah areas with the support of ambassadors for peace. For the single candidates, we mobilize them through IAYSP, Tong-il Moo-do and youth missionaries.

True Mother appointed a second-generation member to lead IAYSP and our second-generation members have created momentum. We are going to capitalize on that momentum. With True Mother's restructuring, more and more second-generation members are joining the front line. Currently, we have more than three hundred youths who are engaged in public activities.

Thanks to our beloved True Mother's scholarships, we have students at Sun Moon University and UPA. Some have already graduated. Thank you, True Mother! To conclude, I would like to say that we are working together, united as one. We have established as well the new structure True Mother implemented.

The regional group president, Rev. Jean Pierre Kadima, and the UPF chair, Mrs. Katherine Rigney, are working tirelessly and will elaborate more on this report on heavenly Africa. Long live True Mother, our heavenly Mother, the only begotten daughter of the Almighty! 

Rev. Camara is co-chair of the Cheoneuiwon for heavenly Africa.

TRUE MOTHER'S LOVE FOR AFRICA

By Kathy Rigney

Heavenly Africa is determined to bring great victory to our Heavenly Parent and True Parents. The heavenly Africa region has forty-nine nations including six island nations. Since 2017, True Mother has had particular interest in the heavenly Africa continent. During the entirety of 2017, True Mother guided us on a daily basis. We learned everything from our True Mother and Dr. Young-ho Yun, who lovingly pushed us towards victory. True Mother could hardly walk and worked day and night checking every detail of every moment.

Establishing a foundation

During these three years, True Mother developed the "Heavenly Africa Project" and directed us to sign MOUs with ten African nations for future development and cooperation on the highest levels of government. The ten projects are African Summits, IAPP, IAPD, the International Association of Chiefs for Peace, Saemaul Projects, Medicine and Health Care, Peace Road, Sun Hak Peace Prize, Hawaiian Queen Coffee Project, True Family Values and Hyo Jeong Character Education for Youth. Nations such as Senegal, Burundi, Sao Tome, Niger, Madagascar, Togo and others signed MOUs with us based on True Mother's guidance.

In each of these strategic nations we are in the process of establishing UPF's six pillar organizations (ISCP, IAPP, IAPD, IMAP, IAAP, IAED) so as to solidify our relationships with each government in Africa. Not only in the capital of each nation but in each state or prefecture in order to have a true and vivacious grass roots movement.

Also, as 2020 came upon us, after the World Summit, we have been mobilizing heads of state or former ones to speak at True Mother's Rallies of Hope. President Mackey Sall of Senegal, Prime Minister Brigi Rafini of Niger, President George Weah of Liberia, the president of Ethiopia, the president of South Sudan all current heads of state, as well as former heads of state such as President Goodluck Jonathan of Nigeria, Vice President Nevers Mumba of Zambia, and a former president of the Central African Republic, among others.

As our True Mother has restructured our entire movement, UPF heavenly Africa has also responded by restructuring our own organization in order to be able to put new wine into new wine skins. Since our True Mother taught us day by day, almost minute by minute, in 2017, 2018 and 2019, our minds are clear on how to

move forward and how to work in order for the population of the world to know and attend our Heavenly Parent and True Parents. Therefore, UPF heavenly Africa will continue using this model given by our True Mother, in which she showed us even in the smallest detail how to hold successful Summits and Blessings.

Through all of Africa

We shall now take this model and apply it to the grass roots level by holding Summits and Blessings in every state or every prefecture of each nation in Africa. Mother has taught us; therefore, we need to advance at a fast pace to apply this method to educate and proclaim to the entire population of Africa. UPF Africa is also working with continental and regional associations in order to reach out to the entire continent. ISCP, centering on Goodluck Jonathan, is also working sincerely to continue our relationships with heads of state.

We will focus on several nations to begin this course, such as Nigeria, DR Congo, Zambia, Cote d'Ivoire and Senegal. We will focus on organizing Africa's experts and current or former heads of state to support Think Tank 2022 and to participate in the unification of heavenly Korea. Our goal is to contact at a minimum of a third of the population of heavenly Africa by using and working with each and every sector of society in each nation. We have chosen twenty-one nations in Africa in which we can focus on Summits and Blessings on every level in every city, at first virtually and eventually face to face.

Three nations are especially important to us and we will focus on them in order to continue the relationship already established during the past three years—Sao Tome and Principe, Niger and Senegal, three victorious nations. Now we will continue to guide the governments of these nations through cooperative projects, so as to develop the victorious foundation laid by our True Mother. These nations are prepared and waiting for us to begin again as soon as the coronavirus is under control and we can resume activities.

Also, we will continue to nurture our relationships with all levels of dignitaries in heavenly Africa—National Assembly presidents and members, religious leaders, traditional rulers, media personnel etc.—by holding webinars and virtual meetings until we can meet in person again in the future. We will also hold events corresponding to United Nations' special focus days.

True Mother came to Africa not just to hold fantastic events and project amazing images of high-level summits alone. Our True Mother came to one of the most painful places that exist in heavenly Africa, Gorée Island, the place where millions and millions of slaves were sent to before boarding "slave ships" taking men, women and children away from their homes and families so that they could be sold in America and the world. With tears flowing from her eyes, our Mother liberated the souls of the millions of Africans that suffered so cruelly at the hands of their oppressors. Absolute sincerity moves the heart of Heaven! Has anyone ever shed sincerer heartfelt prayers for heavenly Africa than our True Mother?

True Mother came and embraced Christians and Muslims, people from north, south, east, west and central Africa! There were no barriers—this our True Mother has done. We don't need to re-invent the wheel. We need only to follow absolutely everything our True Mother taught us during the past three memorable years. We shall move on without hesitation until everything is completed centering on God's only begotten, beloved and precious daughter! 

Rev. Rigney is co-chair of heavenly Africa's Cheoneuiwon.

HEAVENLY AFRICA WILL RELY ON OUR STRONG POINTS

By Jean Pierre Kadima

The Africa region has a great potential to meet True Parents' expectations regarding Vision 2027. During the victorious events commemorating True Father's centenary and the sixtieth anniversary of True Parents' Holy Wedding, heavenly Africa was able see our beloved True Mother offer Sao Tome

and Principe, South Africa and other key African nations to Heaven.

Who are we?

The heavenly Africa region comprises five sub-regions—North, West, Central, South and East. The total population of the African continent is 1.216 billion inhabitants, with 4,087 blessed families in total so far and 126 cheonbo couples. To fulfill Vision 2027, the heavenly Africa region can rely on our main strengths which are that more than 75 percent of the African population is less than thirty-five years old. This includes an army of more than seven thousand young second-generation members. We also have developed a good foundation with many heads of state, and a network of religious leaders, Christian bishops and pastors, as well as schools, colleges and universities, plus other institutions. We also have member's relatives, local community leaders and like-minded organizations we could tap into.

We can also rely on another advantage, which is that rural areas represent great mission fields for heavenly tribal messiah activities. Another opportunity is the fact that DR Congo, which is the host nation of the Heavenly Africa Headquarters will host the Presidency of the African Union in 2021. 

Rev. Kadima is the regional group president of heavenly Africa.

Strategy Presentation Heavenly Europe

TRUE MOTHER'S MAGIC REUNITES ALL

By Katsumi Otsuka

Dear respected leaders of the world, my greatest pleasure is to speak about our region representing the Cheoneuiwon of Europe and the Middle East. World history teaches us that the European and the Middle Eastern cultures are extremely influential over the world in many fields such as ideology, religion, politics, economy, culture and so forth. The growing number of Islamic and African people in Europe, I think, is Heavenly Parent's providential phenomena for realizing the unity of those people. That the European FFWPU and UPF have been earnestly involved in interfaith and interreligious activities is not a big surprise. To announce to you that we have been closely working with Christian and Islamic leaders is my great pleasure.

One great advantage is that we have many capable and highly-experienced leaders such as sub-regional leaders. The big challenge we have had is the issue of church development including the cheonbo providence. For realizing church growth, we need to discover a new witnessing method adapting not only to the current difficult situation but also to a new era. For substantializing the heavenly tribal messiahs (cheonbo) in each nation, all blessed family members have been required to be actively involved in cheonbo work. The blessed family's earnest commitment to cheonbo will drive our ancestors to support us in achieving the goal True Mother gave us.

UPF EUME and the six associations have been actively operating for the victory of International Leadership Conferences and Rallies of Hope. Dr. Walsh's leadership and timely guidance have been a great help for us.

I should not forget to refer to the Balkans. This area has a high potential to

revive one nation to support Korea. The Balkan Peninsula in Europe is akin to that of Korea in the providence. Let me comment on the Korean reunification project. Since many European nations have diplomatic relationships with North Korea, we are ready to contribute to the Korean reunification providence. In particular, UPF Russia has been playing an active role in this regard.

It is very ironic that the Corona epidemic brought European UPF to a new dimension in expanding our contacts is ironic. The online Rally of Hope is a great opportunity for us to expand our high-level contacts. Looking back on the last seven years, True Mother paved a new way through the wilderness with divine wisdom. True Mother, risking her life, built a bridge over a river with a violent current.

I am thankful to True Mother for giving us the direction to organize the Artist's Association for the World Peace in the memorable 250th year since Beethoven's birth. This is the very field in which Europe must take a leading role. In symphony #9 in D minor 4 by Beethoven, this is a bit of what the chorus sings. This is the part of the European Anthem which was officially announced by the Council of Europe in 1972 and officially adapted by European Union in 1985.

Your magic reunites / What custom has strictly divided
All men shall become brothers / Wherever your gentle wings hover

Let us work harder investing all our resources in this year 2021. 

Dr. Otsuka is chairman of the Cheoneuiwon of heavenly Europe and the Middle East.

LET US BE TRUE MOTHER

By Michael Balcomb

Greetings from heavenly Europe and the Middle East! More than a thousand European members and families attended the closing session of the 2021 Cheon Il Guk Leaders' Assembly with True Mother, and we heard directly from her about her vision for a unified and restored world by 2027.

By now, we all know the goal to restore and bless at least one-third of the world's population by 2027. We came away from the meeting with a renewed sense of conviction. We could see how completely True Mother has confidence that now is the time for the conclusion of the long providence of restoration.

We will educate the leaders of our nations through the work of UPE, WFWP and YSP and have more than forty events scheduled even before True Parents' Holy Wedding anniversary in April.

Using our unique position, bridging the Western and the former communist nations, we will support the Korean unification providence by bringing together experts, veterans and supporters from both sides of the conflict.

Raising a younger generation of leaders is an urgent priority. True Mother has just appointed two regional vice presidents, and we now have six subregional vice presidents to support them. We are restructuring YSP, reviving CARP and the Cranes Club, and have a goal to appoint forty young national leaders or the equivalent in 2021.

Finally, we are committed to expanding the foundation in heavenly Albania, which was blessed by True Mother in 2019, and at least one other nation in each subregion, tentatively, Moldova, Israel, Portugal, Germany, France, and the United Kingdom.

All over Europe, members have formed small groups for daily early morning hoondokhae study of *Mother of Peace*. Each week, the entire region gathers online for a weekly prayer condition and providential update, and every month we have a region-wide Sunday Service. We're very much hoping that True Mother will join us for Easter Sunday Service or soon thereafter! 

Michael and Fumiko Balcomb are the regional presidents of heavenly Europe and the Middle East.

Strategy Presentation Heavenly Central America

LONG TIES BETWEEN KOREA AND LATIN AMERICA

By Chang-shik Yang

Dearest True Parents, respected leaders around the world, I send you my greetings! In this situation of global crisis marked by despair and disruption, we have held successful large Rallies of Hope. After Foundation Day, True Mother began a seven-year course until 2020, and on the victorious foundation of that course, she proclaimed the establishment of Cheon Il Guk. Now is the time to comply with this proclamation and build Cheon Il Guk on a cosmic level. This meeting of leaders that we are holding now will be the beginning of a new dawn of hope that will surpass the torrent of darkness engendered by the coronavirus.

Furthermore, I would like to express my deepest respect to True Mother, who has shown great courage in being at the forefront of the reunification on the Korean Peninsula, our land of faith. As children of True Parents, we have a responsibility to absolutely restore their homeland, which is located in the north of the peninsula.

Latin America is the furthest continent from Korea. However, when the Korean War broke out, troops were dispatched from Colombia and Suriname, and fifteen countries provided material assistance. We are committed to preserving those ties that have been created and to building a supporting force, to lay an international foundation for the reunification of our nation, Korea. In addition, thirty-three Latin American countries were historically under the direct authority of True Parents, who made important proclamations and held several conferences there.

For thirty years, valiant missionaries were at the forefront of providence in Latin America. I'm talking about the Rev. Kim Sang-seok, continental leader of Central America, and someone who has a much experience in Korea and the United States, Dong-woo Kim. There are also the representatives of the second generation, the vice-leaders Samuel and Man-ho Yu, but also the seasoned continental co-leaders of five regions of Korea, who are going beyond the pandemic and working tirelessly to guarantee us a hopeful future. In the leadership of Cheoneuiwon, we will fulfill our role as Supreme Council for Latin America in accordance with the directives of the international headquarters. Thank you. ㄸ

Dr. Yang is chair of heavenly Central America and heavenly South America's Cheoneuiwon.

THE CENTRALITY OF CENTRAL AMERICA

By Sang-suek Kim

After Foundation Day, True Mother traveled around the world and embraced all humankind with love, regardless of whether they were from the east or west. She gave rebirth to humanity, which was lifeless like infertile eggs with True Parent's life and love needed for fertile eggs. Therefore,

she set the foundation for the revival and settlement of not only each nation but beyond that to the continent and the heavenly, unified world. True Mother, thank you again for your victory.

The Central American continent was the area where the Mayan civilization blossomed. Five hundred years ago, starting from Central America, Columbus spread Catholicism all over Central America and South America. Based on that, I am sure that Central America will be the main region to spread the heavenly, unified world's civilization centered on Cheon Il Guk and True Parents.

The core point of our activities is witnessing. No one can be reborn without passing through True Parents. True Parents' mission is to embrace all humankind as its people, and the mission of all humankind is to become True Parents' people. We will practice the blessed family core values with jeongseong and filial piety and actively carry out the true family movement in the future.

Under Heavenly Parents' Holy Community, the blessed families of Central America will become completely united with True Mother, and we will march forward without ceasing to complete the mission of reviving the nation to surely be victorious in vision 2027. 

Sang-suek Kim is regional group director of the Central American region.

OUR VISION AND IMPLEMENTATION PLAN

By Dong-woo Kim

I will explain our strategy for restoring a nation. We will follow the standards of restoring a nation that True Mother showed us through the Sao Tome and Principe providence in Africa. Our final goal is to hold a Blessing Ceremony in which the heads of state will participate, and for this, we will reorganize all the projects of the providential organizations so that they center on ambassadors for peace. Focusing on relationships, we will find Abel-type leaders among the ambassadors for peace and teach them the Divine Principle and help them become righteous people that can work with us, but who will also serve as a foundation for the future of the country. Through university witnessing and these activities, we will raise a thousand leaders that can lead a hundred thousand people. Therefore, by 2026, we will raise a hundred thousand young people and make it an organization that leads the society and the nation.

We have a heavenly environmental movement strategy. There are many environmental issues in South America that attract the attention of the world. Since the environmental problems of the Amazon, Pantanal, and Andes Mountains are directly connected to the world, we will protect this environmental realm and start a movement in which man cares for nature centered on Heavenly Parent. We will accumulate information about global environmental movements and create a foundation at a local university at which we can start an environmental movement in solidarity with other organizations, and develop it into an Abel type environmental movement. We will connect environmental movements that started in each country or region to the UN, to lead a global environmental movement under the banner of a heavenly environmental movement and at the same time implement substantial and specific projects for these new environmental movements in the Amazon, Pantanal and the Andes in heavenly South America. Therefore, through securing 100,000 YSP members and raising leaders who will lead a heavenly environment movement, we will focus on developing world leaders who will lead the heavenly, unified world after the completion of the heavenly, unified Korea. 

Rev. Kim is the regional group president of South America.

Strategy Presentation Heavenly ASIA

SELF-EVALUATION USING THE GOVERNMENT'S CRITERIA

By Robert Kittel

Greetings as we begin the New Year. There's a common denominator for many of the areas we work in. We must work with governments. We must work cooperatively with governments at many levels of society, from the national level, down into the smallest units of the government. The goal is too big for us to do by ourselves.

The Asia-Pacific region has successful models of interacting with various government authorities. Honorable Ek Nath Dhakal from Nepal has pioneered the way to work with various governments because he was a minister in Nepal's government twice. Naturally, there is a common base in reaching out to government officials in other nations. Another model of intergovernmental cooperation is in Thailand. They recently concluded a seventy-seven-province tour, meeting the highest government leaders in each province. This project was initiated by Dr. Yong. Dr. Lek Thaveetermsakul was the only member who attended all seventy-seven meetings. Dr. Phutthala Ronachit, a former chief district officer and career government administrator, actively supported this by personally attending twenty-two meetings and coordinating several appointments. Dr. Ronachit emphasized that to work with governments, we must have statistical data which documents the effectiveness of our programs. Numerical data is the Bible for the government. He also said we need to be humble and approach them with the desire to help and serve.

We developed survey questions that measured the effectiveness of our education in seven areas:

1. Building a patriotic spirit in youth
2. Developing inherent human dignity
3. Accelerating social progress
4. Uplifting the moral, spiritual and social well-being of students
5. Promoting universal values
6. Advocating the role of parents in the moral development of children
7. Demonstrating the importance of family and marriage

The specific words and the concepts of the survey questions were taken directly from the legislation mandating character education in the schools.

In our first two on-line principle education programs there were 417 registered guests from seventeen nations with 114 graduates until now. The results from the survey showed:

- 73 percent said the program was "excellent," the highest mark;
- 24 percent graded it "very good";
Combined, this means 97 percent evaluated the program with the two highest marks;
- 0 percent graded the educational content as either "poor" or "very poor," the two lowest possible marks.
Having no complaints is critically important for public education programs.

Using True Parents teachings, we are approaching the government to say that

we have a program that effectively addresses the criteria they outlined for character education in grades kindergarten to 12. And... we have the data to prove it. 

Dr. Kittel is chair of the Cheoneuiwon for heavenly Asia-Pacific 1 and 2.

A STRATEGY OF THE HEART

By Demian Dunkley

“**W**e can’t solve the challenges that we are facing today by human power alone. We need to create a movement that attends God as our Heavenly Parent.” (Dr. Hak Ja Han Moon)

Thanks to our precious True Parents, we are now living in the era of the Heavenly Parent’s Holy Community, so we are to attend the Heavenly Parent and True Parents. In order to fulfill our portion of responsibility well, we first need a strategy of the heart. That is, total unity with True Mother, which means our emotions, thoughts and actions must be completely united with her. Our first strategy and first goal is to experience a spiritual re-awakening through our relationship with True Mother. Therefore, True Mother’s autobiography will be the core of our education for all members and VIPs.

Our core focus must be growth of our core-cheonbo foundation and financial self-sufficiency, which means raising the Gross Domestic Product of Cheon Il Guk citizens. Furthermore, we wish to contribute substantially to the world missions. Our current strategy can be broken down into five areas: Mass Membership; Core Membership; Future Leadership in Society; Overcoming Ideological Barriers; and Supporting a Heavenly, Unified Korea.

Mass membership

True Mother has launched worldwide online ministry, which we will support and multiply. We will expand our daily devotion to raise leaders and connect the population of the villages, communes, districts, provinces, and nations. By coordinating with government strategies and initiatives, we will speed up the process and become a mainstream partner. This is already taking place in nations like Thailand and Cambodia.

Core membership

Our members are VIPs, and we will treat them as such. It’s all about our journey towards cheonbo and expanding from there. This is not just for us, but for everyone. We will open our minds and our arms.

Overcoming ideological barriers

True Father guided us to use sports, so we will expand the success of Tong-il Moo-do with the aim of becoming an official sport of the 2022 South East Asia Sea Games.

Supporting heavenly Unified Korea

We will support UPF's Expert Working Group project. We will promote the Korean culture and language and will prepare substantial Heavenly Tribal Messiah Pilgrimages to Korea. 

Rev. Dunkley is the regional group president of heavenly Asia Pacific One.

THE ASIA-PACIFIC REGION AND A UNIFIED WORLD

By Masaichi Hori

“A unified world starts from places with lots of sunshine.” Turning these words by True Parents into reality will guide the sunny Asia Pacific’s steps towards 2027. Together with Cheoneuiwon Chair Dr. Kittel, UPF Chair Ek Nath Dhakal, and Asia Pacific-One’s President Demian Dunkley, we are uniting by holding a Cheoneuiwon meeting every week. We are advancing by forming a good team with Vice President Julius Malicdem, Vice President Ronnie Sodusta, Oceania Regional Director Yutaka Yamada, and the national leaders of each country. The Asia-Pacific has good conditions for creating a good environment. Rallies of Hope have already been aired on national TV in the Philippines, Fiji and Vanuatu. Divine Principle education is also being conducted by the hundreds through the Asia Pacific Leadership Conference.

Asia Pacific-2 is offering a 103-day jeongseong for the rebirth and new beginning of the second seven-year course. During this period, three huge typhoons hit the Philippines in three weeks—a huge national disaster. True Mother immediately sent a helping hand to the Philippines. Through the efforts of our members and youth, we were able to deliver that support together with True Mother’s photos and words directly to 35,000 people who were particularly affected. While delivering support materials, I met the president, the governor, a school principal, a police officer, and even a general, and delivered True Mother’s autobiography; everyone seemed thrilled to receive it and surprisingly, some asked for our character education materials. As an offering for Foundation Day, the Philippines Rally of Hope will be aired on the Philippine National Broadcasting Network to 100 million people.

Fiji, too is suffering

At the same time, a huge typhoon arrived in Fiji, causing much damage. Because of this typhoon, three thousand students lost their homes. To a thousand of them, we were able to provide a year’s worth of school supplies. True Mother’s true love moved Fiji leaders.

True Mother, cultivating future talents is a highly anticipated field! Throughout the past seven years, by rearranging Top Gun, hyojeongrang [heavenly warriors] and UPA education, you sparked a second- and third-generation education revolution. I would like to place these young members in the providence in a more mature form, as youth professionals, youth public figures, and youth cheonbo families.

Already, the Covid19 crisis has caused drastic changes in second-generation education and family education. Recently, Asia Pacific-1 and 2 jointly held an International Second-Generation Members’ Workshop in the form of webinar. For the past ten years it had been held in person.

In conclusion, through all our activities, we will contribute to the victory of 2027 by promoting the Asia Pacific Union.

Second, there are already many Asia-Pacific church members in Korea. In the future, I would like to further strengthen international solidarity with Korea to contribute to the victory and realization of cheonbo families.

Third, we will further accelerate the cultivation of future talents and raise the second- and third-generation members as the mainstream of the providence. True Mother, we will surely be victorious. We love you. Thank you! 

Rev. Hori is regional group president of heavenly Asia Pacific Two.

Providential Establishments

By Yeon-ah Moon

A portrait of a woman with dark hair pulled back, wearing a white and pink patterned jacket. She is clapping her hands and has a pink flower corsage pinned to her jacket. The background features a large circular logo with a yellow and white design.

Based on the International Headquarters' strategy, UPF heavenly Korea will try to find "stars" within the six pillars that will together create heavenly, unified Korea's agenda and then connect them to True Parents' Think Tank 2022. We will do our best to cultivate a million peace-loving members of Heavenly Parents' Holy Community. UPF heavenly Korea will attend True Parents and become one with UPF International to find and connect to Think Tank 2022 prepared righteous people in Korea and around the world, so they take part in the settlement of a heavenly, unified Korea. In particular, we will do our best to strengthen the international network of Korea, Japan, and the United States to create an environment for peaceful unification on the Korean Peninsula and spread the model of a heavenly, unified Korea to the world.

True Mother recently said, "Not being face-to-face is an opportunity." We will use this no-face-to-face crisis caused by COVID-19 as an opportunity to increase the membership of heavenly, unified Korea and increase peace-loving members through an online system. And we will have the VIPs of the six pillars and the 1 million peace-loving members participate in the Korean Peninsula Peace Projects, such as the Five Sub-Region Peace Rally, the Korean Peninsula Peace Summit 2021 and One Million-Person Rally to Save the Nation and the World. Thus, we will spread True Parents' peace ideology and furthermore make 2021 the year to reap the fruit of the realization of a heavenly, unified Korea.

Yeon-ah Moon is the chair of UPF-Korea.

PROGRESS MADE IN DIRE TIMES

By Julia H. Moon

I would like to thank Heavenly Parent for protecting us during the COVID-19 pandemic and for allowing us to celebrate the New Year, 2021, together with True Mother. I am deeply grateful to True Mother, who has guided us with great leadership and vision for the past seven years since True Father's holy ascension.

The International Association of First Ladies for Peace (IAFLP) was launched at World Summit 2020 with the support of the Women's Federation for World Peace International (WFWPI) based on the sixty-year foundation of the True Parents of Heaven, Earth and Humanity and True Mother's seven-year course. At the inauguration of the Abel Women's UN, the last official event hosted by True Father, just before his holy ascension, he said to build a network of women working together in the right direction. True Mother spoke about completing the victorious substantive foundation of the "Abel Women's UN" with the woman leaders of the seven organizations under the Universal Peace Federation (UPF) through IAFLP and to further develop and expand it from that organization.

Harnessing wisdom born of experience

After the inauguration of IAFLP, the First Ladies attended the UPF Peace Talk on the theme "Women's Leadership in Times of Crisis" and shared their realistic, empathetic and practical points of view. Not only did they share their opinions, but they also spoke freely about their true feelings, and clearly saw how the IAFLP can become a powerful and influential platform if they unite their minds with their experiences and expertise in various fields, and we truly connect them to the heavenly providence and True Mother. All the speakers felt a new sense of intercontinental solidarity across the language barriers and shared the need to work together and continue dialogue with each other in an urgent situation.

IAFLP regional coordinators and WFWPI leaders have been maintaining relationships with UPF leaders and the First Ladies of each continent, beginning with the second seven-year course, to participate in various webinars and organize regional summits and meetings on topics related to the UN and peace building, and to build a network of peace and development among the First Ladies. Together with WFWPI, IAFLP will co-sponsor a parallel event in the sixty-fifth session of the United Nations Commission on the Status of Women (UN CSW). It will be held in March this year in a virtual format and will be an opportunity to introduce IAFLP. IAFLP is committed to supporting the will of True Mother in realizing the peaceful reunification of the Korean Peninsula.

Finally, I would like to express my deepest gratitude to True Mother for founding the International Association of Arts and Culture for Peace (IAACP). As we enter the final stage of the providence, for us to understand why True Mother wants to bring artists from around the world to work together in this

association is important. Throughout history, art has healed suffering as opposed to war and has provided expression to pure-hearted people who seek a world of peace. Religiously speaking, one could say that art provides a kind of salvation.

My firm conviction is that True Mother inaugurated the IAACP in order that artists of this age will stand in solidarity as champions of peace and demonstrate prophetic imagination in our current desperate situation to heal and to establish a new reset, a new order of civilization for humanity now going through suffering that reaches around the globe in an unprecedented way as we face the COVID-19 pandemic and the destruction of our only home, planet earth. In the third Rally of Hope, True Mother said, "In the past, as the Christian cultural realm waited for the Messiah to come again, an ancient beautiful culture formed with the European continent at its center. It is still loved today by all peoples of the world. That culture is the culture of longing for the Messiah." In the age of Cheon Il Guk, we need to create a beautiful culture of hyojeong like that, healing the heart of Heavenly Parent, True Parents and all humanity. I hope that we can bring a cultural revolution of the heart through IAACP and the arts. Thank you very much. 

Julia H. Moon is president of the Women's Federation for World Peace International.

IAYSP: PROGRESS AND VISION

By Koji Matsuda

T rue Mother, Cheon Il Guk Leaders, Hello and happy New Year. In True Mother's autobiography, one section says that YSP is our future and hope. I believe and realize that YSP, founded with many expectations and wishes from True Mother, carries heavenly fortune. In 2018, YSP world leaders gathered and decided YSP's vision, mission, values and goals. We discussed how we can promote YSP activities that affect countries.

Wrestling with social problems

The following is a summary of the three YSP goals for 2027. The first goal is to create a role model program, influence countries and continents, and promote a movement that contributes to establishing Cheon Il Guk. In particular, we will develop the presentation contest, S!NERGY, which started in Japan as a YSP brand program. In 2019, we held S!NERGY in eight countries. Students presented ideas for projects that contribute to solving social problems, making it possible to collaborate with Ministries of Education and many schools. In 2020, the plan was to do it once in each subregion, do a regional level competition, and a world competition in February this year.

Since last year, two representative youth leaders who have contributed to solving social problems in their respective countries received Youth Heroes' Award medals. We will select representative of the region and choose two winners of the World Youth Heroes' Award. We will hold a S!NERGY program and the Youth Heroes' Award every year and by 2027, we will develop them into programs that make a global impression and give hope to many youth and students.

Some leaders in their thirties and forties are currently running as political candidates in their countries. We are advocating for an online youth forum with young members of Parliament and youth leaders from different fields such as religion, academia, economy, media, arts and NGOs. We would then appoint them as youth peace ambassadors and connect them to UPF.

We actively organize youth forums in the Philippines, Ghana, India, Benin, Angola and Brazil. Significantly, the YSP leader in Benin, who has a blessed family, took the challenge of running for election last year and was elected mayor. Two other youth peace ambassadors have become mayors also. They are promoting YSP activities as part of their interaction with their communities.

Specifically, until 2022, YSP will work to create a model of activities in Korea and promote a movement that contributes to building a foundation for the unification of Korea together with the international headquarters.

Partnerships are essential

The second goal is to empower a large number of shining youth around the world. The activity for that purpose is Character Education conducted in collaboration with universities and schools. We will conduct an HJ character education program at many schools around the world. YSP Thailand signed MOUs with sixteen high schools and two universities. What made it possible for teachers to accept this education was that they are surrounded by reminders of the loss of the culture of filial piety.

Collaboration with universities has progressed in Cambodia as well. Four representatives of universities, including two presidents, participated in a YSP online conference. We ask for your cooperation in signing MOUs with the Ministry of Education, universities, and schools in your countries to promote HJ Character Education programs and create YSP Clubs in each school to lead character education and service projects continuously.

We are also promoting Peace Designer seminars, a representative program of YSP, in many countries, where people can learn how to start projects that contribute to solving social problems. In Korea alone, 1,500 young people participated last year in Peace Designer programs. Many of them provided support to areas that had experienced disastrous flooding. They promoted different types of projects in each area.

In Latin America, YSP launched around fifty projects at one seminar last year, and they are actively promoting their activities. In Europe and the Middle East, young people take the initiative in producing videos and advertising projects through social media.

The third goal is to become the number one youth organization in the world in giving education to youth and students. Young members are creating and promoting inspiring projects that contribute to United Nations' Sustainable Development Goals. YSP USA is working well in collaboration with the UN. We plan projects and events on UN International Days, which they promote in each country and which encourages cooperation with governments and other organizations.

YSP Japan carried out a tree planting project in Indonesia. They came to plant 5,500 trees in a volcanic area of Bali. You can compare photographs in 2008 and recent ones showing the restored greenery. YSP has also planted trees in Cambodia, Afghanistan, Benin, Senegal, Ghana and Paraguay. Listening to a recent message by True Mother, we feel strongly about the necessity to increase tree planting activities in more countries and to make a movement, across organizations, to make the earth green again.

There are currently forty-eight countries that have recognized YSP chapters. We will increase the number of chapters every year, and increase the number of members to more than a million as soon as possible. By utilizing social media and conducting the same program on the same day in each country, we could make a significant worldwide impression. We will then connect the youth and students who participated in YSP programs to the Rally of Hope.

Cooperative endeavors

For the government of each country, education for youth and students is an important issue, as it is in Sao Tome. That is why the global summer camps and youth festival co-organized by YSP and the government of Sao Tome have had considerable influence, which inspired students who participated to create YSP clubs in their schools to do their best. If the YSP programs are launched and active in each country, those in our second generation will feel more comfortable bringing their friends along from outside the church community. It will become possible to educate many youth and students in collaboration with schools and other organizations.

To achieve the above goals, aligning with True Mother's wishes and heart toward youth is crucial. True Mother has used key phrases in her speeches to second- and third generation members, such as "bright diamond" and "pure water." We can feel how much True Mother loves and invests her heart into youth.

We, YSP leaders, are determined.

I conclude my presentation with a sincere wish and determination for True Parents' victory by 2027 and victory and development in each region and country. Thank you, True Mother; we love you. Cheon Il Guk leaders, thank you. 

Mr. Matsuda is the international president of the International Association of Youth and Students for Peace.

THE ROLES OF THE CHEONSHIMWON

By Gi-seong Lee

On October 11 last year, during the victory celebration, True Mother blessed the Jeongsimwon with a new name. Thus, we can say that we are entering a new era of cosmic thought centered on the Cheonshimwon.

Then, on October 30, during my inauguration as head of the Cheonshimwon, through Dr. Yun, Mother told me the following about Cheonshimwon: Cheonshimwon is Cheon Il Guk's temple of jeongseong, the main temple of all the Cheon Il Guk spiritual providence and the place for the spiritual development of Cheon Il Guk leaders and blessed families.

After True Mother goes to the spiritual world, the God of Day, together with True Father and True Mother in the spiritual world will move on vertically and horizontally, so the Cheonshimwon should become the central headquarters. We must build a foundation of perfect devotion at Cheonshimwon and make all the spiritual providence on its foundation, hold memorial services for Heaven, raise a group of second- and third-generation leaders, creating a priesthood and priestly groups.

As a result, when we resonate with the hearts of Heavenly Parent and our True Parents, we will discover our heavenly heart. When we develop it, the realization of the substantial establishment of Cheon Il Guk will occur. These were True Mother's words.

In 2021, the first year of this new arrangement, we are going to take two directions. First, we will make Cheonshimwon the place for jeongseong. Following Mother's directions, we will continue to offer prayer-vigil jeongseong.

Second, we will provide online support for connecting to the Cheonshimwon. Third, we will be able to share grace through the Cheonshimwon Special Prayer Room. Fourth, together with the FFWPU International Headquarters, we will continue to offer Cheonshimwon special all-night prayer vigils. Fifth, we plan to find people that are pure of heart and with them, we will create a Cheonshimwon jeongseong team.

Next, we will make sure that the Cheonshimwon becomes a place for education and pilgrimage. First, we are planning to conduct HJ Cheonbo Cheonshim Special Training. We will encourage leaders and blessed families to sympathize and resonate with the hearts of Heavenly Parent and the True Parents of Heaven, Earth, and Humankind. As they do, they will have a chance to reflect on their lives and seek a heavenly heart through deep prayer by resonating with the (subject) heavenly world. We are planning for this training program to have classes for people of different levels.

Second, we are planning to hold a Great Works for the inheritance of heavenly fortune. True Mother said that all the problems on earth must be solved. So, when people visit the Cheonshimwon to offer their jeongseong, they should feel God's grace as they share the blessing they received. Cheonshimwon should become the place that liberates both the earth and the spiritual world. Since True Mother gave us this direction, we want to make a special workshop where we can solve problems and inherit heavenly fortune. Third, we plan to hold a special HJ Cheonbo Cheonshim Workshop to raise future leaders. We will find and educate pure children who can resonate with Heaven's heart.

Respected world leaders! At this time when the sovereignty of heaven has been established thanks to the Ceremony for the Establishment of Cheon Il Guk and Heavenly Parents' Holy Community, all we need is *cheonshim*. Cheonshim [a heavenly heart] is a heart that is aligned with Heavenly Parent and the True Parents of Heaven Earth and Humankind. That is the kind of heart we should have; only then can we become Cheon Il Guk citizens and become cheonbo citizens. I hope you will pray for us and actively cooperate as we try to fulfill Cheonshimwon's mission goals. 

Rev. Lee is chair of heavenly Korea's Cheoneuiwon.

INTRODUCING THE CHEONBO EDUCATION CENTER

By Yeong-hwan Gil

The Cheonbo Education Center was established on October 11, 2020, by a special instruction from True Mother, who finally opened the door of the cheonbo providence. This has opened a thrilling and wonderful era in which blessed families can register as cheonbo. True Mother became the owner of the new Cheon Il Guk cheonbo era dispensation, which along with Foundation Day, has never existed before in history. As a result, for the first time, all humans are guaranteed eternal life by registering as cheonbo during their lifetime. However, when we look back on ourselves, even though we are registered as cheonbo families, we are ashamed in front of our Heavenly Parent and True Parents. If we were to go to spirit world like this, we would be ashamed and receive accusation. Ask yourself this question. "Did I become the true self of flawless pure white, pure gold that True Parents want, who completed individual and family perfection?"

True Mother, who is aware of our deep-inner circumstances, created the Cheonbo Education Center, which she directly manages. True Mother encouraged and cherished us without worrying about any damage done to her precious body. I also confess that we ourselves, who have followed such a True Mother without hesitation, also have suffered many wounds and flaws. True Mother knows this and—with the love of true motherhood, which denies mothers sleep at night, having to immediately change the diaper of crying babies—has opened the Cheonbo Education Center, where we can become the right cheonbo people.

First, the Cheonbo Education Center will establish a professional education program that enables all members of Heavenly Parent's Holy Community to join cheonbo; that is, to become Cheonbo Family Church leaders and to do practical follow-up and coaching. Second, the center will help registered cheonbo families, through continuous education and coaching, achieve the proper settlement of forty-three families. To this end, the center will develop, educate and disseminate various training programs for personal spiritual growth and the completion of cheonbo families.

True Mother has already given guidelines for the Cheonbo Education Center to move forward. She said all blessed families should become pure water and play a role in purifying their surroundings. She told me to make a team and not to do it alone. She said that if we absolutely believe in True Mother and become one, miracles will happen. Here, the keywords "purification," "team spirit," and "unity" arise. Considering these as the best educational values, we will establish a strategy for the Cheonbo Education Center.

To accomplish this, the Cheonbo Education Center established a core strategy of three-three-three. The first "three" is the achievement of the vision of the Three Great Blessings. We will implement an education and coaching strategy that pursues the perfection of individuals, of families and of dominion. 

Among other posts, Yeong-hwan Gil was the writing director of the Tribal Messiah Textbooks.
