A Movement Awakens

By Demian Dunkley, National Leader, FFWPU-USA

Dear Brothers and Sisters,
Greetings from the heart of the American movement! True Mother's love is transforming America, and I am grateful for the miracles we witness daily.

From coast to coast, we see lives changing under the banner of 'God's Dream, One Family'. With over 70 Cheon Shim Wons established across the country, members are offering heartfelt prayers to True Father morning and night, united in their determination to help True Mother fulfill her vision. This has sparked a profound cultural shift, aligning leaders, youth, and families with Heaven's

providence.

Rooted in Unity and Purpose

We are activating the church to witness through the Peace Starts With Me movement. This message resonates deeply: true peace begins within us, extends to our families, and transforms communities.

The 10 strategic communities, responsible for 85% of America's growth results, are brimming with energy. At our recent summit in San Antonio, leaders reflected an unprecedented spirit of unity.

As Rev. Kevin Thompson shared, "The spiritual environment in America has changed. For the first time in my 50 years of church membership, I see a great breakthrough in witnessing. I haven't seen anything like this since the 1970s. It is a miracle. Witnessing about God's Only Begotten Daughter is much easier and is being received much more than our previous efforts. Thank you, True Mother!"

This unity is also evident in our 21-day campaigns, which bring the spirit of renewal to every community. Over 550 new members have joined in the past four months, each a testament to the transformative power of True Mother's love.

The Pure Water Generation Will Grow our Church

True Mother has called us to activate the spirit of our youth through music and praise. Across America, Holy Spirit Masterclasses are inspiring young people to find their voices and share their hearts.

One participant shared, "I realized how important it is to feel proud of True Mother. Through singing, I found the courage to embrace my faith and share it openly." Another expressed, "Each note was an offering of gratitude, and I felt the Holy Spirit moving through me, healing parts of my heart I didn't even know were broken."

Sefako, a new member, reflected, "As I sat down in church, I felt the full weight of the Holy Spirit's presence. It was a confirmation that God's love is truly here. I am so grateful to be part of the movement True Parents started."

A Culture of Homecoming

Our national services in New Jersey, Los Angeles, and Washington, D.C., shared the theme of homecoming, inviting all members—new and returning—to reconnect with True Parents.

One returning member shared, "A long time ago, I grew distant from the church. But over time, and with the love and support of my family and community, I found my way back. True Parents' love for us is sincere, like someone who deeply cares for my heart and soul."

Another member, who had been away for a decade, shared, "After attending two evening programs, I felt inspired. For the first time, I approached our pastor to offer my help for the ministry."

At each stop, we witness the power of True Mother's conditions to purify and uplift. For members, this means stepping deeply into God's embrace and letting go of burdens. It is also an invitation for those who have felt challenged in their faith to come home.

The Road Ahead

True Mother's vision of a Heavenly America inspires us to build on decades of True Parents' investment and the support of members worldwide. Thank you, True Mother. Let America be a nation that brings joy to Heaven and hope to the world. *TP*

The path we must go in accordance with God's Will

Cheon Seong Gyeong: Book 8 Life of Faith and Training, Section 3, The Path of Faith

True Father's Message (May 17, 2007 - 25th anniversary of The Washington Times)

When we talk about the true path of faith, "true" means there is only one path. What then, is the object of our faith? It is the absolute God. A life of faith is about seeking and finding the destination of hope desired by God, in accordance with His Will. A life of faith is not about what I want; it is not about the desire of those who lead a life of faith. Confusion has occurred within the global community of faith because people have not understood that a life of faith should be centered upon accomplishing God's Will, not centered upon oneself.

Everything depends on oneself. It is up to each of us whether we achieve perfection or fail to achieve it. It is the same regarding whether we succeed or fail in life. Our life of faith is no different. Although our faith may be constant throughout our life, our conscience urges us to strive after ever-higher goals. Reaching the highest standard is, however, no ordinary undertaking. The higher we climb, the closer to the peak we are, until ultimately we realize that everything ends in unity. It is difficult, though, to reach that point of oneness: historically, our conscience has sought the purpose of goodness, yet the

perfection we desire as human beings still eludes us.

In the Unification Church, your life of faith requires you to raise the standard by which you evaluate yourselves as you walk with God in your daily lives. When you go to the spirit world this higher standard will be your asset. It will also be the determining factor deciding whether in the new era you will be remembered in history as a hero or an outcast.

Each one of us needs a victorious standard, a starting point from which we can accomplish our

mission. This means we must establish a victorious standard from the subject partner position. Naturally, unless we establish a victorious standard, we will not be able to accomplish our purpose. Where must we establish this standard? It must be created within ourselves.

When Jesus came to earth carrying God's entire mission on His behalf, standing as the one responsible for ending a cosmic struggle, the issue for Jesus was always to focus on his relationship with God. God was to be the center of heaven and earth and Jesus the substantial center. Jesus was constantly mindful of this fact. If any gap between himself and God had opened, or a conflict over their purpose had arisen, they would not have been able to progress toward victory.

Deep in his heart, Jesus carried the conviction that the Father and Son must always be united. In other words, centering on God, the victorious subject partner, Jesus was fully aware that in order to prepare a victorious foundation as a subject partner on earth, he needed to attend God in his heart. It is from this standpoint that Jesus referred to himself as the temple of God. Achieving a victorious standard means to create a foundation of unity, of becoming a temple centering on Jesus, the substantial manifestation of God on earth. In other words, to complete a victorious

foundation, a standard must be established. Otherwise the completion of restoration, the accomplishment of Jesus' mission, would be impossible. Therefore, unless we establish a standard of faith and begin, we cannot claim that we have attained a victorious foundation. This is true no matter how long we have practiced a life of faith or how difficult our course may have been. In conclusion, the most important point is to have one moment that defines the standard of victory within oneself.

When you seek what is true, you need a heart that longs for what is true. When you yearn for the truth in which heaven and earth can take delight, you must realize that you have to prepare yourself to match the standard of what is true from Heaven's perspective. The true God, true truth and true human beings are different kinds of existences. However, from an internal point of view, all three move in the same direction. In other words, God and truth move in one direction and coexist eternally. When we look at today's world, we lament that this world has not become a true world. Furthermore, when we look deeply within ourselves, we lament not becoming true people and deplore not finding the true God in our lives of faith, despite yearning to do so. This is the agony faced by those who lead a life of faith.

No one who lives a life of faith at the risk of his or her life wants to see

his or her faith simply crumble amid life's tribulations. The more seriously we practice our faith, the greater the trials we encounter and the more we want our faith to become deeper, wider and more enduring. If God is a serious God, then when He looks at each of us, we want Him to look more seriously at us than others look at us. Furthermore, as believers we all desire to leave a legacy in this world related to the cause most dear to our hearts.

As believers, we say we will become God's children. Yet what is God's wish? God's ultimate wish for us has nothing to do with the mundane matters of our daily lives such as eating and sleeping. These activities are common to everyone. The Bible clearly tells us, "Therefore do not worry, saying, 'What will we eat?' or 'What will we drink?' or 'What will we wear?' For it is the Gentiles who strive for all these things... But strive first for the kingdom of God and His righteousness." (Matt.6:31-33)

A life of faith involves overcoming the constraints of our environment, making breakthroughs every day and constantly seeking new paths. Unless we do so, we cannot enter the kingdom desired by God. Since we often lack energy and since our habits and daily lives do not meet a high standard on our path of faith, we need to uphold God as our standard and adjust our daily lives accordingly. 

Heaven's Providence and Our Responsibility

True Mother's Message (Nov 20, 2007 , US 12 City Speaking Tour, Boston)

Do not forget that you are among the central ranks

- April 20, 2013, Cheon Hwa Gung, Las Vegas

First of all, I think it is our pressing task to let all the people in the world know, within the shortest time possible, that the True Parents have come. Telling humankind that True Parents have already come will become our great asset in the future. We have already finished the Completed Testament Age and ushered in Cheon Il Guk. Yet, these people live without knowing the providential time.

We cannot remain still. We should mobilize all means to notify people that True Parents have come. We must inform them that the Messiah has come.

None of these things come to pass just by talking. They are not fulfilled just by proclaiming them. Rather, you must act, create motion, and harvest fruits. You must think about how to ignite church activities through witnessing. The Jewish people have the concept that they are the chosen people, but their history up until Jesus came was miserable. Israel itself was unable to follow a smooth path in that era. Its people followed a path of life-or-death resolution.

That being the case, Heaven could establish only one center to carry out His work. As He raised Israel to become the central providential nation, God sent many prophets through the ages, allowed their people to survive, and then sent Jesus to them. But what happened? The people of Israel, who had been placed in a difficult environment, believed that the Savior and Messiah promised by Heaven would come in great splendor. They believed that when he appeared, everything they had desired would be fulfilled overnight, that the tides of the world would change in their favor. They thought that Israel would stand tall and bring Rome to ruin and that there would be other such miracles, but these things did not happen.

We should be grateful and express appreciation to True Parents. Through the word, we came to understand the principles of indemnity, and discovered that we could not move forward without passing through the principle of restoration through indemnity. The reason I frequently watch the Cheon Il Guk Foundation Day video is because you too must stand in the realm of heart as True Parents do, and live within that same realm of heart. From True Parents' point of view, the children of the True Family are the same as you regarding this point. From now, as long as I live, I shall build up Heaven's tradition so that you and the True Family can stand upright within the same realm of heart as True Parents.

If your viewpoint of the providence becomes clouded, make a new resolution while watching the Foundation Day events video again. You must work and live as if a day is a thousand years. You will not be able to say that you were unable to do this because you didn't know. I have told you and taught you everything.

You must all wake up and pay attention. If all 7 billion people in the world go to the spirit world without ever hearing about the news that True Parents have come, what do you think they will say to you in the spirit world? You and I both breathed the same air and lived in the same era as True Parents. Yet, why didn't you tell us about True Parents? Why didn't you introduce them to us? If I had known True Parents, I would have attended them much better than you did. You will be subject to such accusations for eternity. If you fail to fulfill your mission of telling people about the True Parents, you will not be able to escape such accusations.

I wish to have you all stand in the position of loyalty, piety and fidelity. In order to do that, you must unite with what I say. I don't mean that you should just talk about standing in a position of loyalty, piety and fidelity. You must practice this through your actions. Those in leadership positions should encourage others to do this. Do not forget that you are among the central ranks. The True Family has the same mission. If those children born of True Parents' direct lineage are unable to think about humankind, they will end up in a place where they receive eternal accusation.

We Must Reveal the Truth

- December 25, 2013, Cheongshim Peace World Center

Therefore, we must reveal the truth. That truth is the presence of True Parents on earth, long awaited by Heaven and deeply desired by humanity. All nations of the world should be able to attend the True Parents as brother and sister nations. World peace is possible only when we cultivate a culture of heart, where we love and live for the sake of each other as brothers and sisters before our Parents. The place we go after living such a life is the Kingdom of Heaven which is the eternal world.

Our life in the flesh will not [usually] exceed 100 years. Throughout our time on earth, everything we have is borrowed from Heavenly Parent, our Creator. We cannot claim ownership over anything. We should use well what we have borrowed and return it to Heaven in the way Heaven desires. I sincerely hope you understand that this is the only way you will be able to enjoy eternal freedom, peace, and happiness in the next world.

What must we do to live such a life? We must stand up. We must run. If we can fly, even better. We do not have much time left. We should be able to fulfill Heaven's Will on earth so that Heavenly Parent will praise us like this, "Thank you. You are indeed my proud sons and daughters!" Let us all vigorously advance toward the day when we fulfill Heaven's wish and humanity's hope.

True Mother's Message

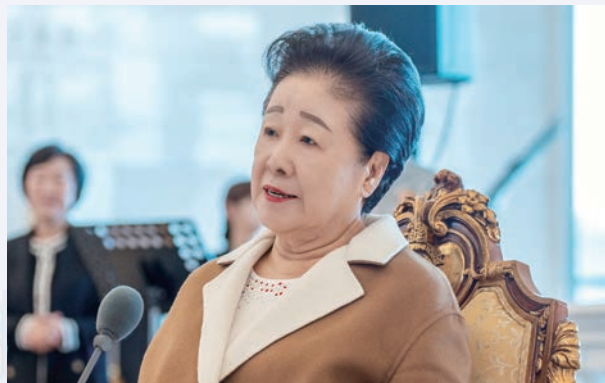

The reason I observe the Thanksgiving holiday is because I wish for all of you to become blessed families who can be grateful to Heaven for everything, seek Heaven's mercy, and realize Heaven's dream. As the chosen people, the people of Korea, you, the blessed families living today, must be aware of how history reveals the consequences people face if they do not fulfill their responsibilities. It is crucial that you fulfill your responsibilities and achieve victory. Remember, you must emerge victorious at all costs before your life comes to an end.

True Mother's Message

*You who train yourselves to resemble the essence of the providence
 in the era of the completion of Heaven's providence are truly joyful people.
 The Creator's dream was to look after the True Parents and their children in the
 visible earthly world and live together with them in the kingdom of heaven on earth.
 However, when we look at today's reality, we see many problems.
 From the perspective of the providence, North and South Korea must
 become one; they must become a heavenly unified Korea.
 In this situation, we are living in a time when people are to attend
 Heavenly Parent on earth. Then, what should the entire good spirit world do at such a time?
 They are diligently creating an environment in which we can attend Heavenly Parent on earth.
 Therefore, especially all of you, the young people receiving the spirituality training,
 must become one with the spirit world and clear away anything that
 could be an obstacle to the completion of Cheon Il Guk.
 You know how to clear away all these obstacles.
 Through Cheonshim Won devotions (jeongseong),
 you must enable the spirit world to work with you.
 Let us act with such pride and realize a heavenly unified Korea.*

Inspired by the encounter, the workshop participants took True Mother's words to heart and offered songs of praise with deep gratitude and love for Heavenly Parent and the world. They resolved to move forward as one with Heavenly Parent and True Mother, regardless of any difficulties that might arise.

The Hyojeong CheonShim CheonBo 40-day Spirituality Workshop continues to this day, following True Parents' guidance given at the Victory Celebration of the Hyojeong CheonBo Great Works Commemorating the 8th Anniversary of the Holy Ascension of Sun Myung Moon, the True Parent of Heaven, Earth and Humankind.

Special Audience with the True Parents of Heaven, Earth and Humankind for Heavenly Japan Public Leaders and Education on The Epic History of the Chosen Korean People

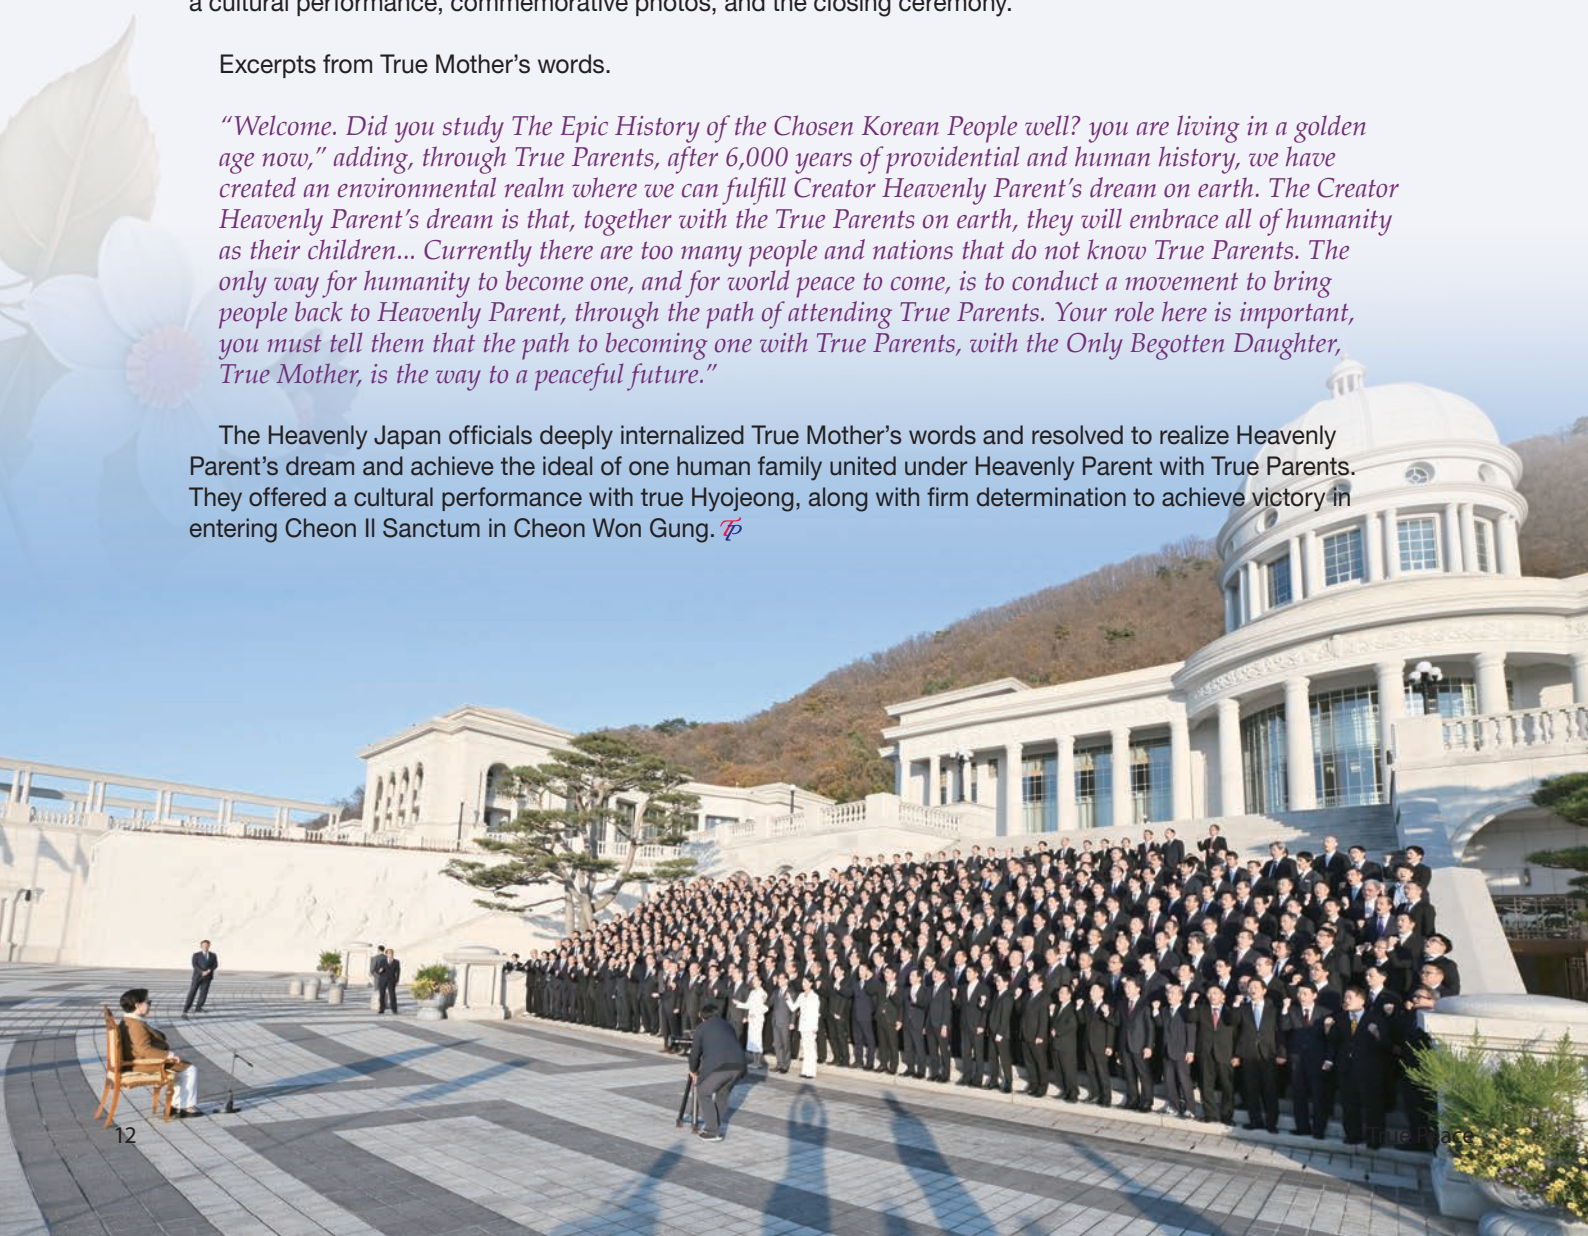

Special Audience with the True Parents of Heaven, Earth and Humankind for Heavenly Japan Public Leaders

On November 8, a Special Audience with the True Parents of Heaven, Earth and Humankind for Heavenly Japan public leaders was held at Cheon Jeong Gung. The event was moderated by Heavenly Japan Planning and Coordination Office Deputy Director Katsumichi Motoyama, proceeding with opening declaration, kyeongbae, flower presentation, a message from True Mother, a cultural performance, commemorative photos, and the closing ceremony.

Excerpts from True Mother's words.

"Welcome. Did you study The Epic History of the Chosen Korean People well? you are living in a golden age now," adding, through True Parents, after 6,000 years of providential and human history, we have created an environmental realm where we can fulfill Creator Heavenly Parent's dream on earth. The Creator Heavenly Parent's dream is that, together with the True Parents on earth, they will embrace all of humanity as their children... Currently there are too many people and nations that do not know True Parents. The only way for humanity to become one, and for world peace to come, is to conduct a movement to bring people back to Heavenly Parent, through the path of attending True Parents. Your role here is important, you must tell them that the path to becoming one with True Parents, with the Only Begotten Daughter, True Mother, is the way to a peaceful future."

The Heavenly Japan officials deeply internalized True Mother's words and resolved to realize Heavenly Parent's dream and achieve the ideal of one human family united under Heavenly Parent with True Parents. They offered a cultural performance with true Hyojeong, along with firm determination to achieve victory in entering Cheon Il Sanctum in Cheon Won Gung.

On October 22, at the Indianapolis Family Church in Indiana, 28 local youth and 15 HTG, CIG, and GPA missionaries met with Rev. Dunkley. Dunkley encouraged them to write a new chapter of the community based on True Mother's guidance. 49 people joined the prayer vigil that ended the visit. A dinner with the youth and young adult community was arranged for the following night concluded with a night prayer vigil.

On October 24, 2 HTG missionaries and 9 GPA participants gathered at the Chicago Family Church in Illinois. After sharing stories, missionaries were paired with local Chicago church members and handed out witnessing leaflets. Rev. Dunkley came along. In the evening, over 70 young people from the Chicago Family Church had dinner with Rev. Dunkley. The conversation deepened as they were led by the Holy Spirit. People then went to the Cheon Shim Won Prayer Hall and prayed together for 2 hours until midnight.

On October 27, 115 young adults gathered on the back lawn of the Los Angeles Family Church. Many young adults from the West Coast Peace Starts With Me (PSWM) Music Masterclass attended.

On October 28, 50 local young adults gathered at the Bay Area Family Church in San Francisco, California over a Korean Dinner. People shared testimony of how God is working in their lives and Rev. Dunkley gave guidance to the missionaries and asked many questions. 80 people attended the prayer vigil with 80 people.

'Peace Starts With Me' Music Masterclass: A Transformative Experience

From October 18-19, 100 people participated in the Peace Starts With Me Music Masterclass on the East Coast. The New Jersey Family Church hosted the program which featured Minister A. Curtis Farrow as music director extraordinaire! The program focused on experiencing the Holy Spirit through music. Participants ranged from 10 years old to 71 years old. People arrived at 6pm on Friday and practiced for 4 hours. The following day, practice went from 10AM to 6PM and it was intense. People who came for the experience and thought they couldn't sing learned that they are amazing singers!

On October 20, 402 people gathered for the East Coast National Sunday Service message given by President Demian Dunkley, Regional Chair and National President for the American Movement. He emphasized the importance of joy and excitement in the journey of faith and about walking into God's Temple in 175 days with True Mother, the Only Begotten Daughter. 378 people joined online via the livestream. 2,866 have viewed the stream since. Near the end of service, the power in the entire neighborhood went out but Minister Farrow kept the choir singing a cappella and people supported them with a phone light wave.

⑦~⑫ 'Peace Starts With Me' Music Masterclass

On October 25, members from across the Western Region gathered at the Los Angeles Family Church for the West Coast Peace Starts With Me (PSWM) Music Masterclass led by Minister Curtis Farrow. There was excitement in the air, and also nervousness since 104 people consisting of 71 youth and 33 elder-generation had no musical or choir experience before. The masterclass became a learning experience.

Participants learned and practiced five Christian-based songs. Rev. Dunkley emphasized how this experience was exactly what True Mother asked him to do: together with Christianity, create new songs for this new era! Minister Farrow spent more time here teaching internal content to give participants a chance to figure out how to tune-in to the Holy Spirit, focusing more on that than sounding perfect musically. All of the lessons interjected during practice were direct reflections of exactly how we should be crafting our relationship and awareness of True Mother. Minister Farrow taught True Mother's love in a most heartistic way. With only one and a half days of practice and after many tears were shed, the choir arrived on Sunday morning for the National Sunday Service broadcasted live throughout America with 300 people attending in person and 1000+ viewing online.

At the beginning of service, people shot up from their seats, standing with the spirit that was being poured out by the choir; the audience was so caught in the spirit that they did not sit down for the rest of the service, even during the sermon!

Rev. Dunkley gave a message of homecoming saying:

"I know it's not easy because sometimes I feel I am not worthy. . . But there are people who need you. And whether you are at step 10, step 5, or step 1, I promise you, you are paving the way for someone who is behind you following you! Whether you are bright and shiny and taking that step towards God, or whether you are 10 steps behind but still taking that one step towards God, that one step is the same step! That step has the same power! It inspires people! You can save people's lives!"

By the end, Unificationists and their new friends and guests were in tears. The West Coast Masterclass proved to me a transformative experience of family, friendship and love.

Finally, on November 2-3, the Holy Spirit Peace Starts With Me Choir Movement came to Washington D.C. from November 2- 3 bringing together 130 participants from the D.C., Maryland, and Virginia (DMV) areas. Love and excitement were bubbling forth as people of all ages and nationalities began to assemble. Minister Farrow, Emmy Award Winning Producer and Director of McDonald's Gospel Fest established voice placements and began molding the beautiful array of young and old into one united voice singing traditional gospel hymns, and one of his original songs.
