Senator Daniel K Inoue

My wife Kayo did Capitol Hill PR. Father had told the sisters maybe they could marry Senators. It didn't happen, although I'm involved in politics.

Anyway she and Susan Bergman (now Yoder) visited Senator Inoue's office and left their cards. All of a sudden the office flew into turmoil. Pictures were taken, a big fuss! My wife's maiden name is Inoue and they thought she was his wife!

She said no and they asked if she was related. She replied she didn't know.

Anyway it went well. They met a lot of Congressfolks. Maybe we should keep doing. Many could use some helpful input.

They would give out Divine Principle and VOC (Victory Over Communism) books and talk personally to them about Father.
