

## Testimony: Why I joined the Sanctuary Church of Newfoundland, PA

September 4, 2021

A friend asked why I joined with Father's Representative (Hyung Jin Moon, the 2nd King of Cheon Il Guk).

I was serving in various capacities in LA and realized there were already various factions each vying to be central. Hyun Jin's Group is actually most strong and giving lip service to mother but not really believing. We were all working together on Mozumdar but when I joined with Hyung Jin they pretty much dropped me like a hot potato. So figured if I joined we would be lonely pioneers. We had the first meeting at our place and we were flooded with people. I was quite surprised.

Anyway before totally committing I studied Father's words for about a year from both sides and had debates on line which sometimes reached 1000 posts. Our kids embraced the move as they saw more than us the corruption that had slowly crept into FFWPU. I saw it as well.

My wife had seen things in Japan that helped convince her. Our kids were glad to see the Second Gen Heir step up.

We visited Newfoundland and experienced Father's spirit their in feeling, Dream, and vision. Father is directly working through his chosen son.

We experienced many blessings from the family to world level directly associated with connecting to Father through Hyung Jin. He is really more of a coach than anything to help us connect. He provides a very powerful Perfection Level Blessing. But aside from that we have total freedom to follow our conscience. It's a free market system.

Of course there is much more.
