

FFWPU UK: Future Generation Workshop Held At Livingstone House for UK Youth

Michael Balcomb
January 22, 2025

This past weekend the River South Community hosted a wonderful Future Generation workshop for youth from across the UK and even abroad with the Heavenly Top Gun Europe Team based in England attending...

The weekend was a great chance for youth to reconnect to each other and their faith. There plenty of chances for discussion, moving testimonies and Hoon Dok Hae where youth could openly talk about different topics and also think back on the previous year as we are entering 2025.

There was also plenty of time for fun with participants staying up to play games with each other, there was even a workshop game of Yute on the Saturday!

Everything was then wrapped up with a Cheon Myeong Worship concert that also brought additional members from our community together to gather in worship. There was a lot of dedication put into this evening by our Cheon Myeong Worship who had been practising for weeks to prepare.

One testimony from a participant was-

'I had a really great time. I really enjoyed being in a space where I could connect with my fellow brothers and sisters. I was actually able to have a lot of really moving conversations and could catch up with people who I had not seen in a long time. The testimonies we had on the first night also really moved me because of their honesty and connection to our lives of faith, and our purpose in that. I also really connect to worship music so I was happy that we could end the workshop with praising, we were in an environment where we could really be free and connect to the lyrics and energy in the room. Overall, I am really grateful for the experience that we were able to have as youth and of course, the future generation.'
