

## FFWPU UK: Holy Wine Ceremonies Taking Place Across UK Communities

Michael Balcomb  
March 5, 2025

**Hear about the recent Service in the North Region Community where members learned more about High Noon and engaged in the Holy Wine Grace Ceremony.**

'In the North of England we had a very busy Sunday gathering, with most of our community participating. We were blessed by our Regional European president Dr Mike and Fumiko Balcomb visiting. Dr Balcomb gave an energetic presentation about the entrance in to the Holy Sanctum, updates from True Mother and Korea and an explanation about the meaning and value of the new forgiveness holy wine. We received the holy wine and together made a new collective determination to build more fruitful and successful families in alignment with our True Mother. Blessed families from all across the the North including many from Newcastle came to join together to make determination.

Soon after, David Huish gave an interactive short workshop representing High Noon. He spoke on how practically to make our new start by working on the relationships inside our blessed families. Based on engaging short 20 minute presentations and his honest testimony, in groups we discussed the origins of our limitations of heart and problems. Also, how these effect us, and what we can practically do in action, to rise above our present realities. We are excited to leave the past behind and start a new.'

-Dale R.

**Here are also some testimonies from members who attended-**

'Hi Mike, Thank you for coming to Bolton to officiate Holy wine ceremony and to explain the recent providence to us in Korea and world. You both have love power. Brothers and sisters who have been in distance for a while came, and even from Newcastle.'

Fusae S.

'It was nice to gather and see families I hadn't seen in a while.

Dr. Balcomb's update about recent events was very insightful and he helped us understand True Mother's vision for the opening of the Cheon Won Gung.

David Huish let us discuss topics like ownership as a community and made us ask questions we may not have asked each other before.

I hope we can continue to do so in the future and get to know each other better. I think it was a good day for our community - it brought us together and gave us determination for a new start.'
