

My Love to Region 3 (Philippines) Members

Winnie Cayme

May 13, 2001

Dear Beloved Brothers and Sisters from Heart of (Central) Luzon Region

Greetings from the bottom of my heart!

Providentially speaking, Cabanatuan had stably set her foothold in the providence of God and True Parents in our country. Sometime in the past, we have combined all our forces together and went up to the level of God's expectation. It was an undeniable truth that it happened because God was with us at those historical times. The greatness of the region became possible because of all your untiring commitment, sincerest love and deepest concern for the national restoration that magnetized God to live with us in the region. For this reason our region became the resting-place of all our members and leaders nationwide who were seeking for peace, comfort, inspiration, power and strength to move forward in their mission. It's a HOPE!

Personally speaking, you are all the people I couldn't and wouldn't forget in my entire life. Although, we have experienced ups and downs in our relationships because of my limitations and fallen natures, however, you have showed the greatest example of being true members who practiced the principled-lifestyle in front of heaven/earth. Thank you for bearing with my limitations and shortcomings at those times. Once in my life YOU were all my hopes, strength, power and inspirations to keep myself moving in front of Heaven's will.

It's a proven fact that only by being vertically connected with God and united among ourselves were the key factors in bringing God down to work with us. This is the formula!

I couldn't imagine that now everybody had grown a lot and entered into another level of life's situations that we could not compare with. We have our own families now and different courses of experiences of which only the foundations we had laid in the past could help us succeed again in gaining the victory for this present life status.

I just would like to leave one message for all of you:

*Always remember that God will never forget your names for all the contributions made by each one of us either big or small because all were written in the history book of life.

*Heaven will never forget even the simplest conditions you have offered for the sake of God's providence. Whether the people will recognize us or not while on earth, one thing for sure, the Supreme God knew all things.

*Even though we are in the different fields and level of mission, please consider always your foundations of public life. Don't let any kind of temptation lead you to lose everything you have recorded in your videotape.

*Let your foundations increase more and more by practicing the way of living for others even at the expense of our life and family. This is the only way to accumulate more merits in KOH.

*Don't forget that only through our True Parents we could gain our life back and continue for eternity.

*Even in your busiest schedules, don't forget to do Hoon Dok Hoe. There is power in it. There is fortune and great support from spiritual world if you're doing it.

*Don't violate the 3 heavenly constitutions declared by our True Parents at the time of God's kingship proclamation ceremony.

*In the ending of history, please become great people of Heaven who could connect the past, present and the future of God's providence.

I can only wish and hope one thing for all of you:

Let us all become victors of Heaven of our country and pride of our people in Central Luzon Region.

I miss all of you. Please take care of yourself and remain in God's abundant grace. May all of you be in a state of peace and happiness always and forever.

I remain always,

Winnie
