

## Summary of My Reflection why Sanctuary Church is wrong!

**On April 18, 2008** Hyung Jin Moon was appointed as president of FFWPUI. (It was a month after Hyo Jin nim's Seonghwa and also 12 days after True Father asked Hyun Jin Moon and Kook Jin Moon to stand on the left and right side of True Mother representing Cain/Abel respectively in Hawaii to set up the new course of Cain - Able restoration after the eldest son's passing). In True Father's prayer this day, True Father mentioned about (1) *The position of Hyo Jin nim and Heung Jin nim as Hyung Jin's elder brothers who are true representatives of Cain - Able in the spirit world and* (2) *Hyung Jin's mission of resolving resentments of the 3 ages (Old Testament, New Testament and age of the 2nd Coming)*

We should see that it is not the position or authority that they are inheriting immediately and should not be referring to the "persona" himself... BUT True Parents are conveying right there and there that IT IS THE BEGINNING of a new providential course of claiming victory between Cain - Able and resolving historical resentments

Going back on the **April 6, 2008** ceremony in Hawaii, (12 days before Hyung Jin's inauguration) we need to TAKE INTO SERIOUS CONSIDERATION, which the **brothers (Hyun Jin / Kook Jin) were asked by True Father to UNITE CENTERING ON True Mother.** (We need to learn from what True Father had been doing and dig deeper the significance of every ceremony and declaration he had been proclaiming). **Position is twined with HISTORICAL responsibilities** and if the Central Figure failed to fulfill it or the mission is left undone, history showed us that God changes the person to continue the FORMULA COURSE (study chapter Predestination of the Divine Principle regarding the course of Central Figures)

Then from the sermon Hyung Jin's gave in **November 14, 2009**... He mentioned True Father **asked him to convey** the following message and **had to make sure that members understood it seriously** that "**if any of the True Children or True Grand-Children denies True Parents or any in-laws, members should not follow any of them.**" Why? *We need to TRUST True Father's intuition.* He for sure had seen the possibilities and was giving us the warning. That serious request from True Father was made a year and 7 months after the inauguration. AGAIN we can say that the *appointment is not absolute! It all depends on the fulfillment of Portion of Responsibility.*

**In an interview on November 24, 2009** Hyung Jin mentioned that there's no confusion about succession as long as True Mother is here. This is in accordance to what True Father had clarified with him during their 8 hours talk. *This is ANOTHER ONE BIG ISSUE! This is True Father's message to him during their "8-hour talk...."*

From the **June 2010 issue of Today's World Magazine**... an article of Hyung Jin testifying that there was nobody who had achieved such unity with True Father except True Mother that even he and other disciples couldn't cope with. He saw firsthand experience that it was only True Mother who could cope with True Father's schedule and activities. He even said True Mother is not human being in this case. His original mind was still pure to see the greatest spiritual value of the True Parents

From the speech in **April 4, 2011** True Father said that the **responsible person for the Unification Movement is NOT Hyung Jin nor Kook Jin. On top of them is True Mother.** True Father emphasized that WE SHOULD NOT FORGET THIS. **Again, why** True Father had to keep on repeating this issue about successor and top leadership of the entire Unification Movement? *SIMPLY BECAUSE True Father could see the possibilities and again has given us WARNING.*

**On April 14, 2012** True Father declared True Mother as perfected Eve and True Father offered that day as the day where the Internal God (Heavenly Parent) and External God (True Parents) have achieved perfected unity *because of the unity of True Father and True Mother as the TRUE PARENTS.* **True Father emphasized this point in the speech that True Parents = True Father + True Mother.** We have to see this as great revelation. True Mother is the substantial form of God's feminine aspect and through her the unity of God of Night and God of Day was achieved

**On June 5, 2012** True Father declared the perfected and firm settlement of the True Parents who together with God had accomplished 96% of the providence perfectly and that the remaining 4% lies on Heavenly True Mother in order to build the Kingdom of Heaven. From that day True Father said a New History would begin CENTERED on TRUE PARENTS. Just few months before True Father's passing, True Father declared this very important point....

AND **on July 16, 2012** True Father sincerely asked those present during the inauguration of ABEL Women UN *to choose the path of True Mother which is the path of a true daughter, a true wife, a true mother and a true woman leader.* **True Mother is the model, True Mother is the leader, she is the next HEAD after True Father.**

Then **on Aug 13, 2012** True Father prayed that he had accomplished, perfected and concluded the providence and now is the time for Heavenly True Mother to build the Cheon Il Guk through tribal restoration and community breakthroughs. What was the most important achievement True Father had

accomplished? *Finding True Mother and perfecting the course of the True Parents; establishing the True Family and producing millions of Blessed families worldwide.*

Going back **in 1990 March 1** that *True Father declared True Parents = True Father + True Mother.* and **in March 27 1990** True Father declared *True Mother as 2nd founder of the church with an equal status with him when it comes to leading the entire movement;* and **in 1991 November 3** True Father answered the question Who is the Messiah by saying *True Father and True Mother the True Parents are the messiah.*

So the speech **on November 27, 1994** when True Father said that unless there is a Nation (the Cheon Il Guk) inheritance (and succession) would not be passed down to Children. This had to be taken into serious study which has connection with the **November 24, 2009** speech of Hyung Jin regarding his 8-hour talk with True Father about successor. *Hyung Jin Moon's time is not yet NOW. True Mother is still alive and THERE ISN'T YET a NATION.*

Hyung Jin as the "supposed successor" should be the first one to build this Cheon Il Guk nation for God and True Parents and the world. This is Hyung Jin's foremost important responsibility.

So all the CLAIMS of Sanctuary Churchers are null and void... MEANINGLESS at all when viewed from True Father's declarations. Even the claim of 3 crownings for him wasn't actually entitled for him but it was a declaration of the return of the victorious authority for God.

*IF AFTER achieving perfection one can still FALL then even God and the Divine Principle are not true. Therefore to say that True Mother failed at the last minute is absurd*

*If the appointment in 2008 April is absolute then all True Father words after that are FAKE and valueless.*

If True Mother really disunites with True Father and elevated herself above True Father as Sanctuary Church claims depicting True Mother as evil woman who has excessive desire for power and selfish motives, etc., then their 52-year long relationship of being together and those public appearances that they have been together portraying an immense volume of love with each other could be **considered FAKE and just a show-off.**

*Can a genuine love relationship sealed and declared by True Father as true love be able to change overnight or right after the loss of the other partner? ABSOLUTELY NO! Because if the Sanctuary Church claim is TRUE, then there's no hope for the perfection of love. If that is really true, then we shouldn't believe even True Father because he could be an IMPOSTOR too and Unification Church is false.*

If Sanctuary Churchers continue to pursue the way of destroying True Mother and the movement, the more falsehood they would create to justify again and again the lies they have started. The end results of this will be denying the Principle and establishing a tradition that is outside of God which is happening now before our eyes. Worst is ignoring True Father which they are doing NOW un-noticeably **by ignoring the volumes of True Father's words** that are not fitted to their claims, purposes and goals.

Denying the other spoken words of True Father in the past decades is similar to a crime they are throwing against True Mother of changing the TEXTBOOKS because True Father said, His words before and now are forever and for eternity.

These are the implications of things if we will believe Sanctuary Church claims.

**Heaven and hell depends on your choice.**

**Is True Mother qualified and authorized to do what she is doing after True Father's Seonghwa? ABSOLUTELY YES! APPROVED and CERTIFIED by True Father's Words.** Editing the textbooks, replacing the leadership, making a system, proclaiming herself as only Begotten daughter, etc. are but JUST RIGHT and authorized because True Mother is also the Messiah and True Parents who is absolutely united with True Father and most importantly She is the feminine aspect of God.

Let them who have eyes can read this understand this. Let those who are seriously searching for truth and clarification to confusions clouding some of us find time to reflect from True Parents words.

God Bless us All!
