

The VICTORIES

Leaders should attain

By Bishop Winny

The VICTORIES Leaders should attain

- 1. Absolute oneness with God**
- 2. Victory in Cain position**
- 3. Victory in Abel position**
- 4. Victory in Mission**

Then what do you have to do to become Abel?

First, I have said that you must become **one in heart with God**.

When you become one in heart and are pleasing to God,
then God cannot but love you.

Moreover, because you become God's child when your heart becomes one with His, He will give you specific commands in your life, "You should live like this and do like that."

Then would you follow the directions?

You must follow the orders to fulfill God's purpose.

By doing so, your unity of heart will be manifested
as external oneness.

You have to understand these principles clearly. (34-85)

A leader must be the model of absolute faith, pure love, total submission of oneself to God and undying commitment to fulfill the WILL

The Need for Organization

In the future, directions should be given through a system, rather than through public announcement. Therefore, we should not forget about the system. **We cant sustain our lives being apart from the organization.** If we lose the relationships of front and back **(leader & family members)**, Right and left **(trinity)** and up and down **(parents and children)**, we lose the value of existence. (11-249)

Headquarters and the church are the only central points. **If a direction comes from headquarters, we have to follow it. It has a connection to the spiritual world.** You may not know about that relationship..

Please unite with headquarters, which is the root. If you are not united with headquarters, do not assume you are a leader of any level. Your responsibility will be determined from that point

Conditions God wanted to see

Noah: Leader's course required a life of long dedication on the path of unbearable suffering. What should you do if you want to be victorious? You should go into the Satanic world and be hit be patient and remained loyal to God. You should give your utmost effort even in an environment of persecution & despair.

Abraham: If God calls you to come out, then come out. After coming out, no matter what kind of difficulty you may face, you should never regret or resent God. If you complain then you go back to the position of Fallen Adam.

We have to believe God even more absolutely than Adam. In so doing we should become one with God. Then we come to receive God's love. If we always go with a grateful heart and never complain no matter what happens, God will love us & bless us 1000x more. *Always prayed in tears with an earnest heart, and lived with the hope that God could save many people through our prayers.*

Jacob: Believed until the end that God's blessing will never change even in the suffering course of over 21 years no matter how much the environment changed.

You must understand that the victorious foundation for God is the history established when The people in torment did not lose hope.

Therefore, you must understand that even in the situation of extreme despair and suffering, victory is assured to the people who hold onto God and go forth in belief that "Even in such a position, God does not lose hope nor become discouraged." (64-212)

You are the leader of the nation or a province. *Do you pray for the your area?* **Prayer is very important. The witnessing result is proportional to the amount of prayer, not to the level of your knowledge and skill.** Those who prayed more brought more witnessing results. The important point is how much you gain God's sympathy.

Our responsibility is to restore everyone from the fallen world to become God's sons and daughters. If you can **love** with that kind of single mindedness, nothing is impossible.

The leader has a special duty to be on the front line to accomplish God's Will. Ask for God's help if you can't accomplish. If you pray desperately, at that moment God's help will come.

You become leaders because you are following Father, the bridge to God's Fortune.. First of all, you have to maintain the vertical relationship, always. Above you is the headquarters' leadership. **Secondly, horizontally you represent parents position in your area of jurisdiction.** The parents' heart is without hesitation will go 1,000 miles searching for the children who do not come home. This is leadership

Victory in Cain position

(OVERCOME THE FEELING OF LACK OF LOVE)

Good vertical relationship with Abel

God works thru vertical line. Spiritual power and miracles are attached to it

Make up for your leader's shortcomings and help him grow. **He who judges his own leader is the king of Cains.** *But he who conceals his leader's faults and tries to take responsibility for him will stand in Abel's position some day.* (Way of God's Will)

Where there is criticism there is no progress to a higher level.

Cain's Attitude that we need to overcome

Among the members of the Unification Church, **ones who assert themselves are all Cain.**

Those who think of themselves highly just because they joined early are people who have inherited the lineage of the Cain tribe. These types of people have to receive training all over again in the spirit world. There is no other way. You just wait and see. This type of person stands on the side of Satan.

Among the members of the Unification Church, what kind of person is Cain?

Those who raise their heads high and order others around are Cain. One who is satisfying one's own greed is Cain. One who thinks about oneself first is Cain.

This kind of person must be chased out.

The one who criticizes and strikes others always becomes Cain. The one who speak words that harm others is Cain.

If you are denied by your central figure

the usual tendency is...

“You tend to separate from your leader’s heart”

there are Cain & Abel type of reactions

Cain	Abel
Arrogance	Accept Denial as God’s training
Keep a resentful heart	Look at CF as God’s representative
Stop doing mission	Patiently approach again CF
Multiply hatred to other members	Pray & learn from the situation by heart

Victory in Abel position

If you can represent God and fully convey His heart

(leadership = model of filial heart)

If you can be a model of jeong-seong condition

**(leadership = higher level of attendance life
& faith standard)**

WHEN WE....

- ~care more for God's situation more than ours
- ~see God first before ourselves
- ~feel to the marrow of our bones that God
& TPs are really our parents

Victory in Abel position

If you can stand with parental heart towards your members
(leadership = parenthood)

WHEN WE....

- ~ learn to embrace the Cain personality and love the unlovable,
- ~ go beyond our position to deal with difficult people
- ~ humble before young people
- ~ always give the credit to the members
- ~ accept criticisms from less capable than us & from subordinates

Victory in Abel position

If you can be accountable & responsible even in its worst situations **(leadership = ownership)**

WHEN WE....

- ~own the ideals as if its my life that is at stake
- ~lead the way by example whatever it takes wherever it is
- ~take responsibility for the mistakes of our community and shortcomings of our members
- ~go beyond our position and dignity and care more for the benefit of the community
- ~can take criticisms from our subordinate and consider those as part of learnings

Victory in Abel position

If you can connect everything to God's providential path
(leadership = man by example w/ vertical sense)

WHEN WE...

- ~are always on the lead to fulfill the goal (fronliners)
- ~prioritize God's will more than our needs
- ~never lose hope even in undesirable situations

Victory in Mission

Results speak louder than words

**Actual developments speak a great
volume than written reports**

**People's comments have more weight
than what you said**

Victory in Mission

1. If we have good witnessing results
2. If our members are united & in harmonious relationship
3. If our members have higher standard of faith & happily working for the Will of Heaven
4. If we have Financial stability in our community
5. If we have created good PR works and dignified environment

Leaders in the eyes of Heaven

A great leader is a man who has the spirit to be able to accomplish great things without a penny

A leader must have the desire to work harder, offer himself more and become a master of miserable situations more than anyone else.

The taller a tree grows, the deeper its root becomes in the soil. A tree whose root is shallow will either wither away or be uprooted by the strong wind. A leader is like a root.

You must be the person whom God can say, **"I cant live without you."**

You must be recognized as a victor in the field of faith and in the field of love.

A leader must work at the same pace as the heavenly opportunity.

Leaders can never lead without tears.

God needs men of the following types and of nothing else:

the type of man whom a leader can call and consult with, and
the type of man whom a leader can command.

We leaders should leave the tradition that we have become crazy for God.

필리핀국제가정협의회 (IFFAKOR)
성지 순례
일시: 2018년 3월 18일 장소: 천정궁 박물관

Thank you very much!
