After the break, the actor Hye-Sun Jung, who has been receiving much love from the nation, gave a testimony about her connection to Rev. Sun Myung Moon and Dr. Hak Ja Han during the testimony session, “In 1950, when I was a young middle school student, I once followed my friend to Cheong Pa Dong where the Unification Church was located, so there has always been some memory about the Unification Church in my heart. At that time, there were many strange rumors going around about the Unification Church, but I was surprised to find out that it was very different from what I had heard. I remembered Rev. Sun Myung Moon whom I had met at that time, so I really wanted to see him. Then at that time, I participated in a Peace Ambassadors education workshop, and it has already been 10 years since I’ve become a Peace Ambassador. Rev. Sun Myung Moon is not here right now, but I respect him the most. I say this before heaven without any shame or guilt. I say this because he seemed to be a very selfless man. By seeing Rev. Sun Myung Moon and by carrying out activities as Peace Ambassadors, I realized that I should make priorities for things in life. Up to today, I always try to prioritize my participation in Rev. Sun Myung Moon’s activities.” She received a warm round of applause from the participants.

Following this, Professor In-Tae Hwang spoke on the Korea-US-Japan International situation based on Rev. Sun Myung Moon’s peace ideology and peace activities, and introduced Rev. Sun Myung Moon’s leadership on matters such as North and South Korean Unification. After dinner, there was time to socialize through recreation, as well as a concert by the singer Kuk-Hwan Kim, famous for her songs “Tatata” and The Galaxy Express 999.” The sound of laughter from the participants rose up to the Cheong Pyeong skies all the way to the Milky Way.

After that, the participants went on a Cheong Pyeong tour, visiting the Cheon Jung Gun Museum, the Cheong Shim Peace World Center, the Heaven and Earth Cheong Pyeong Training Center and the Cheong Shim International Middle and High School. The participants were especially moved when they visited the Cheon Jung Gun Museum and saw Rev. Sun Myung Moon's relics and his life history. They will be able to cherish this memory forever through taking photos. At the Heaven and Earth Cheong Pyeong Training Center, the participants heard an explanation that Family Federation members from all over the world come to Cheong Pyeong, Korea, the homeland of their faith in order to participate in training workshops. They also had a chance to experience it themselves. They also had a chance to tour the Cheong Shim Peace World Center, which is Korea's biggest complex cultural space, and felt the pride of the Family Federation movement.

Some of the reflections from participants of the 2015 Tongil Group Employees' Wives Workshop say, "It provided an opportunity for me to understand in more details about Tongil Group where my husband works and about the founders, the True Parents," "There were many distorted facts in the back of my head, but through this workshop I could see the true face of Tongil Group; and it was an opportunity to once again realize the importance of family." This Wives' Workshop was an important time to share the legacy of the worldwide peace movement carried out by Rev. Sun Myung Moon and the vision of the Unification Church.
