

## Tongil Regional Leader Ho-Yeol An - Rev. Chan-Ho Kim Inaugurated

Yun Ki Choi  
January 8, 2016

The Tongil Foundation Special Region, Regional Leader Ho-Yeol An · Rev. Chan-Ho Kim Inauguration took place at the foundation's 13th floor's hall, at 10 a.m., January 8, 2016. At the event this day 50 people, including the Korean President of the Family Federation for World Peace and Unification Kyeong-Seuk Ryu, Chairman of Tongil Foundation Yun-Ki Choi, and employees and executives of the foundation, participated; and after beginning, with the declaration of opening by the Director of Administrator Department of Tongil Foundation Chong-Woo Kim,

Through his words of encouragement, FFWPU Korean President Kyeong-Seuk Lu said, "It is important as a company to make a profit, but even more important is the mission to foster people in the most humane way. For the Tongil Group to develop in a future-oriented way, a culture where people are

respected greatly must be fostered. Founders Reverend Sun Myung Moon and Dr. Hak Ja Han did not establish a company in order to just make money. A company is only a tool meant to realize a world of peace. The founders of the Tongil Group are the people here today. You must have a spirit of ownership, and keep in your heart the spirit and ideals that the Tongil Group has. All members of the Tongil Group must keep the ideals of loving heaven, loving humankind and loving your nation as a paradigm in your lives. I request for us to become a special parish that takes on the role of a guide when it comes to seeking the exact founding ideals of Reverend Sun Myung Moon and Dr. Hak Ja Han, and finding the fundamental treasures of the Tongil Group.”

After that, in his words of encouragement Chairman Yun-Ki Choi said, “A compass shows direction when the hands move. The existence of the compass does not matter if it does not move. That is because if it is fixed, it cannot show directions. We must live a life like a compass. I think that the completion of the purpose of our existence is to take in the ideals and put them into action in our lives. We must move according to our purpose and move the hearts of others. We can only show the right direction when we move ourselves. The Special Parish of Tongil Foundation must create an environment that can move the hearts of its employees, and show them the right direction.”

On this day, Regional Leader Ho-Yeol An of the newly established Tongil Foundation Special Region said in his inaugural address, “After Reverend Sun Myung Moon passed away, many journalists were concerned and worried about the future of the Family Federation. However, their concerns quickly turned

to being touched by the non-possession of Foundation's assets, the fact that everything was done with the purpose of world peace instead of profit, as well as the sight of Reverend Sun Myung Moon and Dr. Hak Ja Han leading the foundation according to rules, traditions and laws. They also acknowledged their abdication through their will for world peace, as well as the status of Reverend Moon and Dr. Han that was gained through the fair winner selection of the Sunhak Peace Prize. But I think the position the Family Federation takes in Korean society is solely up to us. From now on, we shall do our best to be acknowledged as a religious organization by working in a way that matches the founding ideals and purpose of the Tongil Foundation.”

Rev. Chan-Ho Kim, also inaugurated on this day, concluded his inaugural address by saying, “I remember Reverend Moon climbing the Mangwoori Hill many times a day in order to found Tongil Industries and Ilhwa, making countless conditions. We must keep the members of Tongil Group aware of the founding ideals of the founder, and foster loyalty toward the company based on a spirit of ownership, giving them self-esteem toward their company. Through this process, we shall create a relationship where the hearts of each member can be shared, instead of a boss and employee relationship,” and after a benediction by President Kyeung-Seuk Lu, the event came to an end.

The newly-established Tongil Foundation Special Region has been upgraded by one level from its previous management system where the founding ideals of Reverend Sun Myung Moon and Dr. Hak Ja Han were delivered to the employees and executives of the Tongil Foundation. In order to maximize the work efficiency throughout the company by acting on the ideals of the founders in everyday life, based on a happy True Family, the Tongil Foundation and the Family Federation jointly took on the project together.
