

# Eastern Europe Heavenly Tribal Messiah Challengers Team visited Cambodia and Thailand

*Cambodia, Thailand, June 18 – 24, 2018*

Two members visited Thailand and four others went to Cambodia.

Before travel we set up two main goals:

1. gain confidence that national restoration and accomplishment of Vision 2020 are possible through HTM activities.

2. Acquire practical experience of educating and taking care of couple who received True Parents' Blessing

In Cambodia we went to Battambang city with population of 250,000 people. This is the third

city in the nation. There are 2 our centers in the city. One is HTM center, another is CARP center. True Parents' Special Envoy to Cambodia, Mr. Hajime Saito, leads HTM activities.

Every day we visited one or two villages where families who receive the Blessing live. Also it was the first time that someone visited those villages since the Special Cheong Pyeong workshop which took place in the end of May and was attended by 1800 people who was recently blessed.

Every meeting in the village has gathering 30-60 local villagers. Almost each time head of the village was present as well as potential home group leaders, young people who participated in the DP workshops and Blessed members.

During the week we participated in the activities which constantly go on in the Province. One of the reasons why they don't hold Blessing ceremonies this time is upcoming elections in July.

Here are results of HTM work in Battambang.

During 3 and half years since 2015 till 2018, 36 couples, some of them are from Japan, fulfilled the goal of Blessing 430 couples. About 40 young people became CARP members, 6 out of 10 district leaders follow True Parents as well as many village heads. There are 2 or 3 VIPs on the level of province who became followers of True Parents.
