*Dae Mo Nim - August 25, 2014*

There are many 2nd gen here. I appreciate your coming to Chung Pyung. I returned yesterday from Africa. It was my 3rd tour already. I wish I could give more love and care to the members. When I went on the world tour, there were many 2nd gen. I think: how can I help them so that they live according to Principle? When I arrived at the airport, a 2nd gen couple presented me with flowers. I was so moved.

Then, around the lake where we stayed, there was a water village. I was in a very small room, but True Parents' picture was there; it was very beautiful and clean. There was no toilet, but they use water, and from water, they also do laundry. 3 blessed families live together there. More people went up, and it was cracking. If they want to fix it, they need to do extra. So they go in the dirty water. We gave them some stationery gift, and silky omega. My heart was so painful. How can we bring them there? These days my situation is very difficult, but compared to the situation those people have, my problem is nothing.

Always think like this when you have difficulties, and offer gratitude. Our habits are so scary. We waste so much water. We need to break habits to save water. Can you save water? In Africa there is no church, but there are many members in Africa. Do you think they receive education? Why can we not develop God's will in our good environment? Why? True Father, in his speech, says: one heart, one mind, one mindset. This is high-noon settlement. Two people become one. I spoke a lot to remove fallen nature. True Parents are one even though True Father's body is not here anywhere. True Mother is visible. By attending her we need to become one, one body and one mindset. But we do not feel that. Satan works to deceive us.

Many members from around the world are here. They own words and cannot become one. This is a big problem. It was given to us many times, to achieve one mind, one mindset, etc. After the fall of Adam and Eve, fallen mankind increased. The fall was due to excessive desire and the sense of a lack of love. History moved through Noah, Abraham, Moses, and to Jesus. People should become ONE. At the time of Noah, it was so difficult. Satan really worked hard to separate family members. And they fail and become separated. In this era, we must become one by building good character. There are many religions. God sent Messiah as True Parents, even we are not qualified. True Parents raise us up to become Cheon Il Guk citizens. We must become one with True Parents. We must become one. Without this, we cannot go forward. If we are separated, divided, Satan will be there.

True Parents are here, in this world. We must develop this providence. It is faster when True Parents are here. Goodness is love, and evil is fallen nature. To develop we must love. We must

forgive as Jesus. But, True Parents: live for the sake of others. There is a difference between the world and us. Others try to cover their mistakes. This world is corrupted. They want to reveal. We are different from the outside world. We are in a different position. There are some intentions to plant bad things, but first you yourself should do things without fallen nature. Then you can influence the world.

There are now many leaders of 2nd generation, and they care for their lifestyle. From now on, we need to create an environment to look at good things, and say good things. We have hope, if 2nd gen and 3rd gen have principled lifestyles. Don't forget that. In the area of 1st gen, they must lay the Foundation of Faith and Foundation of Substance. 2nd gen are born without original sin; you have the mission to become one, and have one mindset and one heart. Because True Parents already laid Foundation of Faith and Foundation of Substance, you need just to become one.

In the water village in Africa, even in such a miserable place, become one. Our 2nd gen need to become one. The age of 2nd gen is now adult. Everyone now tries to talk to young people. We need to become one. At what age can our members work (in area of IT) the most? 20s, 30s, 40s. Investing all positions and energy. 50 is the age of stability. That is why young 2nd gen; you need to create many ideas how to unite? How to spread God's will? A culture of unity, to students, is not activated.

We have young 2nd gen; so we should unite young students. Instead we focus on old people. Because we felt that we didn't educate 2nd gen well, we focus old people. The 1st gen needs to educate 2nd gen. 2nd gen you need to lay the Foundation of Faith and Foundation of Substance. You need to inherit the 1st gen foundation. You come to attend workshop with God's will, so you should worry about how to follow God's will. You should discuss how to become one. Chan yang session is the removal of evil spirits. Then you should continue to live righteously and worry about God's will. In this difficult area we need to become one. Work together. You cannot blame everything on 1st gen. Please be healthy. Love is nature's way of creating a healthy environment. Take care of your body and spirit. I will close here. Thank you.

God bless, itn,  
David Carlson
