

True Father went to spirit world, but does not just stay in heaven

Dae Mo Nim

August 23, 2014

Unofficial translation: David Carlson

Dae Mo Nim - August 12, 2014

Good morning, everyone. So, now the weather is cooler, right? The weather is not even. So, it is a little difficult. In the early morning, as I do the ancestor liberation ceremony, Grandmother's Mother and Grandmother's Father sides, and Father and Mother's sides, 1-7 generations at first, members vary. One Japanese member liberated 1-7. In the beginning, ancestors told me: because we did not understand the Chung Pyung Works, regarding each other, they would try not to go, so we tried our best; but, now, we have many absolute good spirits, and the clear process of making absolute good spirits, even in the evil spirit world, the word is now spread around. So, even the spirits who are in different places, our descendants quickly liberate us. This is the culture we now have. They talk this way even in the evil spirit world. Then, how about our blessed families' ancestors? They say: I wish I could come out (from the bad situation) quickly. The difference now, is, even if they are in a difficult place, they are living their life in that place. Now, they know there is a better place.

And True Father went to spirit world, but he is not just staying in heaven. The history of the spirit world is known, and True Father has given speeches to many of the spirits. Also, in spirit world, all spirits want to become absolute good spirits. The spirits in our body are doing bad things, but the spirits in the spirit world really want their descendants to become Unification Church members, so they can liberate them. These ancestor liberations, by the Japanese members, i.e., 1-7 generations, they were really waiting to be liberated. Today, they were liberated. They were so, so happy. But, at the same time, they feel "why so late like this"? I am saying: their mind was a thousand times so serious and sincere. I cried. Concerning the ancestor liberation, I want to make the members know. I told the lecturers to give a talk about the ancestor liberation. They are given every week. I said: give lecture centering on the life of faith. As I heard words from the liberated ancestors, I saw their tears. Those in the Physical World, and those in the spirit world, and the many tears shed, and seeing blessed families, and 2nd generation. God cried so much. That is why I began Chung Pyung Works.

This morning, those tears of these ancestors, were not their first tears, but they were genuine tears. These ancestors are not so "far away" (in terms of generations). They were liberated so late, so they shed many tears. It broke my heart to see this. Beloved members, you may not know, but you trust, and so you do ancestor liberation. When you go to the spirit world, you will finally see. You must do ancestor liberation. The coronation ceremony and ceremony for God's kingship, with these events, I felt it is so nice that we made absolute good spirits. Because Heavenly Parent, he came on earth and did ancestor liberation ceremony. If there had only been evil spirits, it would not have been simple. In an environment without absolute good spirits, it would have been

very difficult. I cannot even imagine doing the coronation ceremony without absolute good spirits. This Chung Pyung is sanctified, but there are so many evils and Satans in this world. So, it is not simple, but Heavenly Parent came to the world and did the coronation ceremony, and the ancestor liberation of 1-7, and other generations of ancestors. When Heavenly Parent came to the world, these absolute good spirits protected so that the evil spirits could not work. So, I thank True Parents so much. At the coronation ceremony, etc. I felt so appreciative.

And, all members are always with evil spirits and Satan. In our bodies, these evil spirits come with the sounds and minds of their resentment. It is difficult to handle. They say many bad words, the evil spirits inside of us, and we live together with them. But the absolute good spirits can protect us. I, when I stand here at the podium, or when I have consultation, etc. When it is needed, I open my spiritual eyes. When I look at the world, there is no place to go without worry because the spiritual situation is so fearful. So, I feel grateful to True Parents, and the fact that they have made absolute good spirits. I have a very thankful mind. At this podium, I look at you with my spiritual eyes, I see your background, your mind, your present, and your future, and I also see absolute good spirits around you. Absolute good spirits make me feel comfortable. Many members come to Chung Pyung, and have absolute good spirits with them. But, for those members with just a few absolute good spirits, I cannot feel at ease. If your life is okay, it is easier, but because of money problems, etc. some members cannot do ancestor liberation so easily. You did chan yang session today and the evil spirits came out. If so, after ancestor liberation, spirits come out and go to spirit world for 100 days workshop, and then return. Then, blessing, and then absolute good spirits will come to you, the members. They are sent into the body of members and they commune with the spirits inside your body. Why? Because they (used to) stay together, and they know about those spirits well. Once they return, as clean and absolute good spirits, centering on love, they are totally transformed into absolute good spirits, and they go inside your body, and your difficulties...if evil spirits try to give you difficulties, these absolute good spirits can protect you. The problems can be prevented.

If you don't have so many absolute good spirits, but only a small number, you may have difficulties. So, Chung Pyung Works has a proud history with True Parents, and you should to chan yang session sincerely. Remove even one more evil spirits. We are spiritually blind, so we cannot see. But that absolute good spirits will become my protector and a guardian spirit. There are so many absolute good spirits! But, when I see the great number of evil spirits, there are so many more! Such absolute good spirits as this cannot be bought by money. I have the kind of mind to think: I am a very rich person. Our members are the richest people in the world. As I began Chung Pyung Works members at the time of passing to the spirit world, I wondered what to do. When beginning, a blessed family member passed away. I called them to the prayer room. Why? Before the spirit of the passed person is totally separated, perhaps 70 percent, all the evil spirits from the person's body came out and these evil spirits don't let the person's spirit go to the spirit world well. The spirit inside the body is separated, and the evil spirits come quickly. There were no absolute good spirits before. As the spirit comes out from the body, it does not know there are evil spirits. When the spirit comes out, and evil spirits beats it up, so the spirit feels scared. When you members go to the Seunghwa place, you say this person must be going to heaven now. There is a lot of eating, and joyful singing, and laughing, but the spirits went through lots of difficulties, suffering, pain, disease, and these spirits come out from the body and go into the person the spirit (of the person) likes the most. Thus, hereditary disease, and suffering become even bigger for the descendant. This is hereditary disease. Medical science does not understand that disease is coming in this way.

So, I brought members to the Seunghwa ceremony and I see which people the spirits go to, and then they can be separated quickly. Even if you come to Chung Pyung 20 times every year, it is not easy to separate evil spirits at chan yang session. If the central spirit comes out, all the spirits can come out. Now, the situation is different from what it was in the beginning. Now, we have evil spirits and absolute good spirits included. This morning, spirits came out, and later they will take the holy wine, and there will be absolute good spirits in you also. So, you need to do chan yang session very hard and increase the number of absolute good spirits. Those spirits will be placed to the family members. Those absolute good spirits inside you I divided into 2 groups: 1) single spirits a team brings to the spirit world, and 2) another team keeps the spirits coming out from going to family members, but brings them instead to the spirit world. If you did only a few chan yang session, there are not many absolute good spirits. Do you understand? In this Chung Pyung complex, no matter what event you may come to, you need to think: is there a chan yang session or not? If there is a chan yang session, you need to come and attend. Japanese members, please come to chan yang session. At the last chan yang session, I wish it could have been larger (more people). Sending spirits, Hoon Mo Nim's arm seems to separate in great pain (from her body?), and it came to work so strongly. I wish chan yang session could have lasted for a longer time because more evil spirits were coming out. After the 2nd anniversary (True Father's Seunghwa) and Summer special great works together (originally different dates) but you needed

to come, so we held them at the same time because it is difficult for some people to come 2 different times.

If you had a mind to attend True Parents, and to cleanse your mind, Japanese members did, but Korean members only came to the event, and then went home right after the event. In my mind, I was thinking: they did not understand. If you understand only after going to spirit world, it is too late. Recently, one member went to spirit world. She told me: I did not attend Chung Pyung workshop. When my spirit saw the reality of spirit world, my fear was indescribable. I wish I could have (would have?) come to Chung Pyung. If I had only understood, or worked harder! This member did not come to Chung Pyung, or do chan yang session, or ancestor liberation. So, when they went to spirit world, it was so difficult for them. Ancestor liberation is not just for "me." All of us know Satan, human history, and our ancestors. By doing ancestor liberation ceremony, making absolute good spirits, to whose side do they belong? Heavenly Parent's side. Therefore, when you do ancestor liberation ceremony, if you just do only 1-7, there is only 1-7 on God's side. If you do all, then all of them are on God's side. True Father's side 1-210. Now, you are offering donations for 1-210. Now, we have to do to 420. True Father: let them come for ancestor liberation ceremony, after 420 generations, even not offering donations, it can be done in the spirit world.

You need to remove spirits from inside your body. So, after Seunghwa, we won't let spirits pass down to our descendants. So, chan yang session, Chung Pyung works, is so important. History after Adam and Eve is not just 6,000 years, but is much longer. Up to 420 generations, such a long history, is the history of the evil inside of us. Can we remove all of it? Can you remove all of it if you come to Chung Pyung once a year? If you come once a month? You need the mind: I must remove all of it in my lifetime! When you remove fallen nature, and sins, I can see what life you have lived. I can see the harmony of your family, etc. If you don't go to church and live life centering on fallen nature, you cannot remove the evil spirits so well. To remove sin, in every aspect of life, don't have fallen nature. You need to live life centering on true love. We need to work harder until 2020.

Today, a different chan yang session. In October, there will be Autumn special great works. For me to give more grace, I have already been offering devotions. Yesterday, True Father came. He said: let's make a model. True Father made one model. This model can be done in the special great works. You (members here) are so lucky. Only a small number of members came today, but today we will test True Father's model during chan yang session. True Father: let's do it now in the chan yang session, the things that will be done during the Autumn special great works. You know the theme of special great works. Dominion over all things, removal of evil spirits, going to the Tree of All Things, etc. The last Summer special great works True Father made the model, removing fallen nature, solving financial difficulties, etc. That content. True Father made so many contents. He continuously made. After ancestor liberation ceremony, True Father saw every aspect, and it looked good. In chan yang session, so well from head to toe. Leave Chung Pyung feeling that you are such a lucky person. Go home and live life well. I hope you can become such members. True Father in spirit world and True Mother in Physical World are working so hard for you. The Providence of Restoration is my providence! Please lead such a life. Please be healthy. The weather is not even right now. Don't forget to be happy. Before True Parents, please become filial sons and daughters. I will close here. Thank you.

God bless, itn,

David Carlson
