This memo from TribeNet is for updates to the TribeNet website and reporting your blessing result. Please take your time to read memo.

Dear TribeNet Subscribers,

In order to continually improve your experience, there will be some updates to the TribeNet website coming June 16.

1. You will need to start logging into your TribeNet account to access the reporting forms.

Whether you have a premium or free account, you will need to start logging in before reporting your blessings or any forms. If you forgot your password, please use this link to retrieve your login credentials.

2. Reporting will be moved to a single page. The various reporting forms (i.e. report your Blessing form, Blessing Donation form, Gratitude Donation form, etc.) will be moved from the home page, to a single reporting page. This is available in the menu tab labeled "Reports."

3. Funnels will be removed. All the content in the "Funnels" tab is also on the "Educate Your Tribe" menu tab. The "Funnels" will thus be removed from the navigation.

4. Home page will see some cosmetic updates.

5. The MyTribe App is now no longer supported. This is the tribe contact management app, created under a developer who is no longer available to maintain the app. If you are a user of the MyTribe App, we will continue to allow access for the time being for you to move your contacts to the official Blessing tracker spreadsheet.

If you have any questions about these updates, send us an email at webmaster@unification.org

Sincerely,
The Tribenet team
