Below is an excerpt from True Father's speech from "God's Will and the World"

This continent of America was hidden away for a special purpose and was not discovered until the appropriate hour. The people of God came at the appointed hour. They came to mold the new way of life. Their principal partner was God. At home, in caring for their children, in farming or cooking or building, they let God share their work. He was the only security they had. A farmer might talk to his son working out in the field with him. "Let's plow this field in the name of God." Their everyday life was lived in the name of God.

After the first spring visited them, they cleared the fields, planted, cultivated, and harvested the crop. And they attributed all their precious harvest to the grace of God. The beautiful tradition of Thanksgiving thus originated. Following the next severe winter, the first thing they built was a church. At night, at dawn, in the morning and at noontime, they prayed to God. I am sure they prayed, "God, we want to build a place for You which must be better than the Old World. We want to build a place where You can dwell and be master."

And they also had a vision of the future that this Christian nation would do more good for the rest of the world than any other country upon the face of the earth. I am sure that after their church they built a school. They wanted outstanding schools for their children, better

than any schools existing in the Old World. And their homes came last. After they built these homes, they dedicated them to God. This is the history of your Pilgrim fathers, I know. I can visualize early America as a beautiful America, because God was dwelling everywhere. In the school, in the church, in the kitchen, in the street — in any assembly or market place, God was dwelling..... - Rev. Dr. Sun Myung -
